

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information contained in the Translator and Interpreter Records may be used by potential employers, credit institutions, rental offices etc., requesting verification of employment and/or earnings; and

To provide officials of other U.S. government agencies information needed in the performance of official duties in support of the function for which the records were collected and maintained.

The Department of State periodically publishes in the **Federal Register** its standard routine uses that apply to all of its Privacy Act systems of records. These notices appear in the form of a Prefatory Statement. These standard routine uses apply to the Translator and Interpreter Records, State-37.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

None.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Hard copy and electronic.

RETRIEVABILITY:

By individual's name and social security number.

SAFEGUARDS:

All users are given cyber security awareness training which covers the procedures for handling Sensitive but Unclassified information, including personally identifiable information (PII). Annual refresher training is mandatory. In addition, all Foreign Service and Civil Service employees and those Locally Engaged Staff who handle PII are required to take the Foreign Service Institute distance learning course instructing employees on privacy and security requirements, including the rules of behavior for handling PII and the potential consequences if it is handled improperly. Before being granted access to Translator and Interpreter Records, a user must first be granted access to Department of State computer system.

Remote access to the Department of State network from non-Department owned systems is authorized only through a Department-approved access program. Remote access to the network is configured in accordance with the Office of Management and Budget Memorandum M-07-16 security requirements, which include but are not limited to two factor authentication and time-out function.

All Department of State employees and contractors with authorized access have undergone a thorough background security investigation. Access to the Department of State building and its annexes is controlled by security guards, and admission is limited to those individuals possessing a valid identification card or individuals under proper escort. All paper records containing personal information are maintained in secured file cabinets in restricted areas, access to which is limited to authorized personnel. Access to computerized files is password-protected and under the direct supervision of the system manager. The system manager has the capability of printing audit trails of access from the computer media, thereby permitting regular and ad hoc monitoring of computer usage. When it is determined that a user no longer needs access, the user account is disabled.

RETENTION AND DISPOSAL:

Records are retired and destroyed in accordance with published records disposition schedules of the Department of State and as approved by the National Archives and Records Administration (NARA). More specific information may be obtained by writing the Director, Office of Information Programs and Services, Department of State, SA-2, 515 22nd Street NW., Washington, DC 20522-8001.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Office of Language Services, Department of State, 2401 E Street NW., SA-1, 14th Floor, Washington, DC 20522.

NOTIFICATION PROCEDURE:

Individuals who have cause to believe that Office of Language Services might have records pertaining to them should write to the Director, Office of Information Programs and Services, Department of State, SA-2, 515 22nd Street NW., Washington, DC 20522-8001. The individual must request to have the Translator and Interpreter Records checked. At a minimum, the individual must include: Name; date and place of birth; current mailing address and zip code; signature; a brief description of the circumstances, including the approximate dates on which the individual has cause to believe that the Office of Language Services might have records pertaining to him/her.

RECORD ACCESS PROCEDURES:

Individuals who wish to gain access to or amend records pertaining to them should write to the Director, Office of

Information Programs and Services (address above.)

CONTESTING RECORD PROCEDURES:
(See above.)**RECORD SOURCE CATEGORIES:**

The individual; end-users of the contracted services; and various employees of the contracting office.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

BILLING CODE 4710-24-P

DEPARTMENT OF TRANSPORTATION**National Highway Traffic Safety Administration**

[Docket No. NHTSA-2010-0153; Notice 2]

Continental Tire North America, LLC, Mootness of Petition for Decision of Inconsequential Noncompliance

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice of petition mootness.

SUMMARY: Continental Tire North America, LLC,¹ (Continental), has determined that certain passenger car replacement tires manufactured in 2009, do not fully comply with paragraph S5.5(b) of Federal Motor Vehicle Safety Standard (FMVSS) No. 139, *New Pneumatic Radial Tires for Light Vehicles*. Continental has filed an appropriate report pursuant to 49 CFR Part 573, *Defect and Noncompliance Responsibility and Reports* (dated August 10, 2010).

Pursuant to 49 U.S.C. 30118(d) and 30120(h) (see implementing rule at 49 CFR part 556), Continental has petitioned for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

Notice of receipt of Continental's petition was published, with a 30-day public comment period, on November 29, 2010, in the **Federal Register** (75 FR 73159). No comments were received. To view the petition and all supporting documents log onto the Federal Docket Management System Web site at: <http://www.regulations.gov/>. Then follow the online search instructions to locate docket number "NHTSA-2010-0153."

¹ Continental Tire North America, LLC. (Continental) is a replacement equipment manufacturer and importer that is incorporated in the state of Ohio.

Contact Information: For further information on this decision, contact Mr. George Gillespie, Office of Vehicle Safety Compliance, the National Highway Traffic Safety Administration (NHTSA), telephone (202) 366-5299, facsimile (202) 366-7002.

Summary of Continental's Petition: Affected are approximately 17,121 size 235/45ZR17 94W Continental brand Extremecontact DWS model passenger car tires manufactured from March 2009 to October 2009 at Continental's plant located in Camaçari-BA, Brasil. A total of approximately 16,245 of these tires have been delivered to Continental's customers in the United States.

Continental explains that the noncompliance is that, due to a mold labeling error, the sidewall marking on the reference side of the tires incorrectly identifies the tire size code as "658R 3VR" when in fact it should be identified as "658P 3VR" in the tread area of the tires as required by paragraph S5.5(b).

Continental also explains that while the noncompliant tires are mislabeled, all of the tires included in this petition meet or exceed the performance requirements of FMVSS No. 139. Continental argues that this noncompliance is inconsequential to motor vehicle safety because the noncompliant sidewall marking does not create an unsafe condition and all other labeling requirements have been met.

Continental points out that NHTSA has previously granted similar petitions for non-compliances in sidewall marking.

Continental additionally states that it has corrected the affected tire molds and all future production will have the correct material shown on the sidewall.

In summation, Continental believes that the described noncompliance of its tires to meet the requirements of FMVSS No. 139 is inconsequential to motor vehicle safety, and that its petition, to exempt from providing recall notification of noncompliance as required by 49 U.S.C. 30118 and remedying the recall noncompliance as required by 49 U.S.C. 30120, and should be granted.

NHTSA Decision:

Inconsequential noncompliance petitions filed under 49 CFR Part 556 only apply to situations where there is a noncompliance with a Federal motor vehicle safety standard (FMVSS). In its petition, Continental stated that the tires in question have two different tire size codes, one on each sidewall. In discussions with NHTSA, subsequent to the notification of petition receipt, Continental explained that it has

designated both of the size codes for this tire model to have the same meaning and that either the full TIN or the partial TIN uniquely identifies these tires. Based on this, NHTSA has determined that the alleged tire sidewall labeling noncompliance described in the subject petition is not a noncompliance with FMVSS No. 139 or any other applicable FMVSS. Therefore, this petition is moot and no further action on the petition is warranted.

Authority: (49 U.S.C. 30118, 30120; delegations of authority at CFR 1.95 and 501.8)

Issued on: October 17, 2012.

Claude H. Harris,

Director, Office of Vehicle Safety Compliance.

National Highway Traffic Safety Administration

[Docket No. NHTSA-2012-0118; Notice 1]

Mazda North American Operations, Receipt of Petition for Decision of Inconsequential Noncompliance

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Receipt of Petition.

SUMMARY: Mazda North American Operations (MNAO),¹ on behalf of Mazda Motor Corporation of Hiroshima, Japan (Mazda),² has determined that certain Mazda brand motor vehicles manufactured between 2007 and 2012 for sale or lease in Puerto Rico, do not fully comply with paragraph S4.5 of Federal Motor Vehicle Safety Standard (FMVSS) No. 138, *Tire Pressure Monitoring Systems*. MNAO has filed an appropriate report dated June 21, 2012, pursuant to 49 CFR Part 573, *Defect and Noncompliance Responsibility and Reports*.

Pursuant to 49 U.S.C. 30118(d) and 30120(h) (see implementing rule at 49 CFR Part 556), MNAO submitted a petition for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

This notice of receipt of MNAO's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of

¹ Mazda North American Operations, is a U.S. company that manufactures and imports motor vehicles.

² Mazda Motor Corporation, is a Japanese company that manufactures motor vehicles.

judgment concerning the merits of the petition.

Vehicles Involved: Affected are approximately 16,748 Mazda brand motor vehicles manufactured between 2007 and 2012 for sale or lease in Puerto Rico.

NHTSA notes that the statutory provisions (49 U.S.C. 30118(d) and 30120(h)) that permit manufacturers to file petitions for a determination of inconsequentiality allow NHTSA to exempt manufacturers only from the duties found in sections 30118 and 30120, respectively, to notify owners, purchasers, and dealers of a defect or noncompliance and to remedy the defect or noncompliance. Therefore, these provisions only apply to the subject 16,748³ vehicles that MNAO no longer controlled at the time it determined that the noncompliance existed.

Noncompliance: MNAO explains that the noncompliance is that certain Mazda brand motor vehicles sold in Puerto Rico were not delivered with the instruction statements required by paragraph S4.5(a) of FMVSS No. 138 written in English. The instructions were provided in Spanish as part of the Spanish language version of the vehicle owner's manual provided with the vehicles at first sale, however, no English version owner's manuals were provided.

Rule Text: Paragraph S4.5 of FMVSS No. 138 requires in pertinent part:

S4.5 Written instructions.

(a) Beginning on September 1, 2006, the owner's manual in each vehicle certified as complying with S4.5 must provide an image of the Low Tire Pressure Telltale symbol (and an image of the TPMS Malfunction Telltale warning ("TPMS")), if a dedicated telltale is utilized for this function) with the following statement in English:

Each tire, including the spare (if provided), should be checked monthly when cold and inflated to the inflation pressure recommended by the vehicle manufacturer on the vehicle placard or tire inflation pressure label. (If your vehicle has tires of a different size than the size indicated on the vehicle placard or tire inflation pressure label, you should determine the proper tire inflation pressure for those tires.)

As an added safety feature, your vehicle has been equipped with a tire pressure monitoring system (TPMS) that illuminates a

³ MNAO's petition, which was filed under 49 CFR Part 556, requests an agency decision to exempt MNAO as a vehicle manufacturer from the notification and recall responsibilities of 49 CFR Part 573 for the 16,748 affected vehicles. However, a decision on this petition will not relieve vehicle distributors and dealers of the prohibitions on the sale, offer for sale, introduction or delivery for introduction into interstate commerce of the noncompliant vehicles under their control after MNAO notified them that the subject noncompliance existed.
