

states that orders sent to the BOX Book, regardless of where it executes within the BOX system, including the Book or the PIP, would be transmitted from remote terminals directly to BOX by electronic means. OFPs and Market Makers would only submit orders and quotes to BOX from electronic systems from remote locations, separate from BOX. The Exchange further represents that there are no other Options Participants that would be able to submit orders to BOX other than OFPs or Market Makers. Accordingly, the Commission believes that Options Participants' orders electronically received by BOX satisfy the off-floor transmission requirement for the purposes of the Rule.

Third, Rule 11a2-2(T) requires that the member not participate in the execution of its order once it has been transmitted to the member performing the execution. The Exchange represents that, at no time following the submission of an order to the BOX Book, would an Options Participant be able to acquire control or influence over the result or timing of order execution, even if its order on the BOX Book may execute with a PIP Order.⁴⁸ According to the Exchange, upon submission to BOX, an order would be executed against another order on the BOX Book or against the PIP Order based on an established matching algorithm. The execution would not depend on the Options Participant, but rather upon what other orders are entered into BOX at or around the same time as the subject order, what orders are on the BOX Book, whether a PIP is initiated and what responses are received in response to the PIP, and where the order is ranked based on the priority ranking algorithm. As such, the Commission

See also 1978 Release and 1979 Release.

⁴⁸ The member may only cancel or modify the order, or modify the instructions for executing the order, but only from off the Exchange floor. The Commission has stated that the non-participation requirement is satisfied under such circumstances, so long as such modifications or cancellations are also transmitted from off the floor. See 1978 Release (stating that the "non-participation requirement does not prevent initiating members from canceling or modifying orders (or the instructions pursuant to which the initiating member wishes orders to be executed) after the orders have been transmitted to the executing member, provided that any such instructions are also transmitted from off the floor").

believes that the non-participation requirement is met when orders are executed automatically on the BOX Book, including if they execute against a PIP order.

Fourth, in the case of a transaction effected for an account with respect to which the initiating member or an associated person thereof exercises investment discretion, neither the initiating member nor any associated person thereof may retain any compensation in connection with effecting the transaction, unless the person authorized to transact business for the account has expressly provided otherwise by written contract referring to Section 11(a) of the Act and Rule 11a2-2(T).⁴⁹ The Exchange has represented that, as a prerequisite for BOX usage, if an Options Participant is to rely on Rule 11a2-2(T) for a covered account transaction, the Options Participant must comply with the limitations on compensation set forth in Rule 11a2-2(T).

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,⁵⁰ that the proposed rule change (SR-BOX-2012-003) be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁵¹

Kevin M. O'Neill,
Deputy Secretary.
