SUPPLEMENTARY INFORMATION:

Technical Symposium

The purpose of the technical symposium is to facilitate discussion on technical issues associated with the electronic submission of data to the Crossing Inventory. The meeting is not intended as a forum for discussion or comment on any other aspects of the proposed rule. The proposed topics for discussion include the draft Instructions for Submitting U.S. DOT Crossing Inventory Data by Electronic Methods (Electronic Submission Instructions) referenced in the NPRM (and available in the docket at FRA–2011–0007–0005), proposed options for the submission of electronic crossing data to the Crossing Inventory, data formats that would be accepted for the submission of electronic crossing data to the Crossing Inventory, and the proposed timeframe and related concerns associated with meeting the proposed new requirements for the electronic submission of crossing data to the Crossing Inventory. In order to facilitate discussion at the technical symposium, FRA intends to supplement the docket with revised draft Electronic Submission Instructions prior to the symposium. The revised draft Electronic Submission Instructions will contain information on the proposed file formats and data specifications that would need to be followed when preparing electronic crossing data for submission to the Crossing Inventory. Therefore, interested parties are advised to review, prior to attending the technical symposium, the draft revised Electronic Submission Instructions that will be placed in the docket. Parties are reminded that the docket (No. FRA–2011–0007) can be accessed via the Internet at www.regulations.gov.
