Abstract: The purpose for this ICR is to renew and revise the Mandatory Reporting of Greenhouse Gases Rule (GHG Reporting Rule) ICR to update and consolidate the burdens and costs imposed by all of the current ICRs under the GHG Reporting Rule. In response to the FY2008 Consolidated Appropriations Act (H.R. 2764; Pub. L. 110-161) and under authority of the Clean Air Act, the EPA finalized the GHG Reporting Rule (74 FR 56260; October 30, 2009). The GHG Reporting Rule, which became effective on December 29, 2009, establishes reporting requirements for some direct GHG emitters as well as suppliers of certain products that will emit GHG when released, combusted, or oxidized, industrial gas suppliers, and manufacturers of heavy-duty and off-road vehicles and engines. It does not require control of greenhouse gases. Instead, it requires that sources emitting above certain threshold levels of carbon dioxide equivalent (CO₂e) monitor and report emissions.

Subsequent rules provide corrections and clarification on existing requirements; include requirements for additional facilities and suppliers; require reporters to provide information about parent companies, NAICS code(s), and whether emissions are from cogeneration; and finalize confidentiality determinations. Collectively, the GHG Reporting Rule and its associated rulemakings are referred to as the Greenhouse Gas Reporting Program (GHGRP).

Data submitted under the GHGRP that is classified as CBI is protected under the provisions of 40 CFR part 2, subpart B. The EPA is determining through a series of rulemaking actions the data elements that will be eligible for treatment as CBI. However, according to CAA section 114(c), "emissions data" cannot be classified as CBI. The EPA has proposed that inputs to emissions equations meet the definition of "emissions data" and cannot be afforded the protections of CBI. The EPA has deferred the reporting deadline for data elements that are used as inputs to emissions equations to provide the EPA time needed to fully evaluate and resolve issues regarding the reporting and potential release of these data (76 FR 53057, August 25, 2011).

Form Numbers: EPA Form 5900-211, EPA Form 5900-233.

Respondents/affected entities: Entities potentially affected by this action are suppliers of certain products that will emit GHG when released, combusted, or oxidized, motor vehicle and engine manufacturers, including aircraft engine manufacturers; facilities in certain industrial categories that emit greenhouse gases; and facilities that emit 25,000 metric tons or more of carbon dioxide equivalent (CO₂e) per year.

Respondent's obligation to respond: Mandatory. Authority contained in Sections 114 and 208 of the CAA.

Estimated number of respondents: 11,039.

Frequency of response: Annual.

Total estimated burden: 981,032 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$90,847,769 (per year), includes \$28,192,763 annualized capital or operation & maintenance costs.

Changes in the Estimates: This renewal consolidates all of the existing Greenhouse Gas Reporting Program ICRs. The increase in burden resulting from consolidating these ICRs will be negated when those ICRs are discontinued following the consolidation. In comparison to the net total estimated respondent burden currently approved by OMB for all of the existing Greenhouse Gas Reporting Program ICRs, there is a decrease of 735,690 hours. This decrease is the result of an adjustment for one-time activities that occurred during the first year of data collection and an adjustment based on the actual number of reporters.

John Moses,

Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2012-0517; FRL-9524-8]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NSPS for Emission Guidelines and Compliance Times for Small Municipal Waste Combustion Units Constructed on or Before August 30, 1999 (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C.

3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before December 27, 2012.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2012-0517, to: (1) EPA online, using www.regulations.gov (our preferred method), or by email to: docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 28221T, 1200 Pennsylvania Avenue NW., Washington, DC 20460; and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Learia Williams, Compliance Assessment and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; email address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On August 9, 2012 (77 FR 47631), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to both EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2012-0517, which is available for public viewing online at <http://www.regulations.gov>, or in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the

Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov> to either submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, Confidentiality of Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: NSPS for Emission Guidelines and Compliance Times for Small Municipal Waste Combustion Units Constructed on or Before August 30, 1999 (Renewal).

ICR Numbers: EPA ICR Number 1901.05, OMB Control Number 2060-0424.

ICR Status: This ICR is scheduled to expire on December 31, 2012. Under OMB regulations, the Agency may continue to either conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract

These emission guidelines apply to small municipal waste combustors (MWCs) constructed on or before August 30, 1999, that combust greater than 35 tons per day (tpd) but less than 250 tpd of municipal solid waste. The emission guidelines regulate organics (dioxin/furans), metals (cadmium, lead, mercury, and particulate matter), and acid gases (hydrogen chloride, sulfur dioxide, and nitrogen oxides). The emission guidelines require initial reports, semiannual reports, and annual reports. Owners or operators also are required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility or any period during which the monitoring system is inoperative. Owners or operators subject to these regulations are required to maintain records of measurements and reports for at least five years. Reports are also required semiannually.

Burden Statement

The annual public reporting and recordkeeping burden for this collection

of information is estimated to average 1,709 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously—applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of small municipal waste combustors.

Estimated Number of Respondents: 23.

Frequency of Response: Initially, occasionally, semiannually, and annually.

Estimated Total Annual Hour Burden: 100,854.

Estimated Total Annual Cost: \$10,802,579, which includes \$9,765,779 in labor costs, no capital/startup costs, and \$1,036,800 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the industry labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the Emission Guidelines only affect existing sources, so there is no significant change in the overall burden. However, there is an adjustment increase in the total industry and Agency labor costs as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The change in cost estimates reflects updated labor rates available from the Bureau of Labor Statistics.

John Moses,

Director, Collection Strategies Division.
