

Estimated Number of Responses per Respondent: 2.

Estimated Number of Responses: 251,016.

Estimated Total Annual Burden on Respondents: 77,528 hours.

Copies of this information collection can be obtained from Jeanne Jacobs, Regulations and Paperwork

Management Branch, at (202) 692-0040.

Comments: Comments are invited on:

(a) Whether the proposed collection of information is necessary for the proper performance of the function of the Agencies, including whether the information will have practical utility; (b) the accuracy of the Agencies' estimate of the burden of the proposed collection of information, including the validity of methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to Jeanne Jacobs, Regulations and Paperwork Management Branch, U.S. Department of Agriculture, Rural Development, Stop 0742, 1400 Independence Avenue SW., Washington, DC 20250-0742. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: November 16, 2012.

Tammye Treviño,

Administrator, Rural Housing Service.

BILLING CODE 3410-XV-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Current Population Survey, Annual Social and Economic Supplement.

OMB Control Number: 0607-0354.

Form Number(s): CPS-580 (ASEC), CPS-580 (ASEC)SP, CPS-676, CPS-676(SP).

Type of Request: Revision of a currently approved collection.

Burden Hours: 36,400.

Number of Respondents: 78,000.

Average Hours per Response: 28 minutes.

Needs and Uses: The purpose of this request for review is to obtain clearance for the Annual Social and Economic Supplement (ASEC), which we will conduct in conjunction with the February, March, and April Current Population Survey (CPS). Congressional passage of the State Children's Health Insurance Program, or Title XXI, led to a mandate from Congress in 1999 that the sample size for the CPS, and specifically the Annual Social and Economic Supplement (ASEC), be increased to a level whereby more reliable estimates can be derived for the number of individuals participating in this program at the state level. By administering the ASEC in February, March, and April, we have been able to achieve this goal.

The U.S. Census Bureau has conducted this supplement annually for over 60 years. The Census Bureau and the Bureau of Labor Statistics (BLS) sponsor this supplement.

The proposed supplement, as it will appear in the CPS instrument, contains the same items that were in the 2012 ASEC instrument, with the exception that questions on current public assistance (Q96-Q97) are no longer included.

Affected Public: Individuals or households.

Frequency: Annually.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Section 182, and Title 29, United States Code, Sections 1-9.

OMB Desk Officer: Brian Harris-Kojetin, (202) 395-7314.

Copies of the above information collection proposal can be obtained by calling or writing Jennifer Jessup, Departmental Paperwork Clearance Officer, (202) 482-0336, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at jjessup@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Brian Harris-Kojetin, OMB Desk Officer either by fax (202-395-7245) or email (bharrisk@omb.eop.gov).

Dated: November 27, 2012.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510-07-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: 2013 Current Population Survey Annual Social & Economic Supplement. Content Test.

OMB Control Number: None

Form Number(s): The automated survey instrument has no form number.

Type of Request: New collection.

Burden Hours: 10,000.

Number of Respondents: 15,000.

Average Hours Per Response: 40 minutes.

Needs and Uses: The Current Population Survey (CPS) Annual Social and Economic Supplement (ASEC) is used to produce official estimates of income and poverty, and it serves as the most widely-cited source of estimates on health insurance and the uninsured. These statistics have far-ranging implications for policy and funding decisions. Alternative sets of questions on income and health insurance have been developed and are now slated for a large-scale field test to evaluate the questions and the estimates they generate.

With regard to income, the CPS ASEC was converted to computer assisted interviewing (CAI) in 1994. This conversion, however, essentially took the questions and skips patterns of the paper questionnaire, and put them on a computer screen. Automated data collection methods allow for complicated skips, respondent-specific question wording, and carry-over of data from one interview to the next. The computerized questionnaire also permits the inclusion of several built-in editing features, including automatic checks for internal consistency and unlikely responses, and verification of answers. With these built-in editing features, errors can be caught and corrected during the interview itself. It has been more than 30 years since the last major redesign of the income questions of this questionnaire (1980), and the need to modernize this survey to take advantage of CAI technologies has become more and more apparent.

Regarding health insurance, the CPS ASEC health insurance questions have measurement error due to both the reference period and timing of data collection. Qualitative research has
