

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. EL13–23–000]

Brookfield Energy Marketing LP v. ISO New England Inc.; Notice of Complaint

Take notice that on November 21, 2012, pursuant to section 206 of the Rules of Practice and Procedure of the Federal Energy Regulatory Commission (Commission), 18 CFR 385.206 and sections 206 and 306 of the Federal Power Act, 16 U.S.C. 824(e) and 825(e), Brookfield Energy Marketing LP (Complainant) filed a formal complaint against ISO New England Inc. (Respondent) alleging that the qualification determinations by the Respondent for New Import Capacity Resources backed by the Erie Boulevard Hydropower facility and Carr Street Generating Station facility are unjust, unreasonable, and unduly discriminatory and in violation of the Respondent's Transmission, Markets & Services Tariff (tariff). The Complainant further alleges that, with regard to the qualification process for New Import Capacity Resources, the tariff is unjust, unreasonable, and unduly discriminatory.

The Complainant certifies that copies of the complaint were served on the contacts for the Respondent as listed on the Commission's list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the

"eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Comment Date: 5:00 p.m. Eastern Time on December 21, 2012.

Dated: November 27, 2012.

Kimberly D. Bose,

Secretary.

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. CP13–6–000]

Eastern Shore Natural Gas Company; Notice of Intent To Prepare an Environmental Assessment for the Proposed Daleville Compressor Station Upgrade Project and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Daleville Compressor Station Upgrade Project (Project) involving construction and operation of facilities by Eastern Shore Natural Gas Company (Eastern Shore) in Chester County, Pennsylvania. The Commission will use this EA in its decision-making process to determine whether the Project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the Project. Your input will help the Commission staff determine what issues they need to evaluate in the EA. Please note that the scoping period will close on December 26, 2012.

This notice is being sent to the Commission's current environmental mailing list for this Project. State and local government representatives should notify their constituents of this proposed Project and encourage them to comment on their areas of concern.

Eastern Shore provided landowners with a fact sheet prepared by the FERC entitled "An Interstate Natural Gas

Facility On My Land? What Do I Need To Know?". This fact sheet addresses a number of typically-asked questions, including how to participate in the Commission's proceedings. It is also available for viewing on the FERC Web site (www.ferc.gov).

Summary of the Proposed Project

Eastern Shore proposes to construct and operate two new 1,775 nominal horsepower (hp) natural gas-fired reciprocating compressor engines at its existing Daleville Compressor Station in Chester County, Pennsylvania. One compressor would replace three existing compressor units that currently serve as back-up to the existing primary compressor units. According to Eastern Shore, the new compressor units would reduce air emissions from the back-up compressor units and improve Eastern Shore's system reliability and flexibility, and the second compressor would provide 17,500 dekatherms per day (dth/d) of additional firm transportation service to two of Eastern Shore's existing customers (Delaware City Refining Company LLC and Elkton Gas Company).

The Project would consist of the following activities:

- Retiring three existing Caterpillar model 398 natural gas-fired reciprocating compressor engines currently serving as back-up to the primary compressor units;
- Constructing two new Caterpillar model 3606 TALE 1,775 hp natural gas-fired reciprocating compressor engines, one of which would replace the three existing back up compressor engines and the second of which would increase the station's firm transportation service by 17,500 dth/d; and
- Making necessary modifications to the existing Daleville Compressor Station and buildings to accommodate the new compressor units.

The general location of the Project facilities is shown in appendix 1.¹

Land Requirements for Construction

Construction of the proposed Project would occur entirely within Eastern Shore's property, either within the existing fenced station site or in adjacent mowed areas. Construction would temporarily disturb the entire 1.88-acre existing fenced Daleville Compressor Station site. Approximately

¹ The appendices referenced in this notice will not appear in the **Federal Register**. Copies of appendices were sent to all those receiving this notice in the mail and are available at www.ferc.gov using the link called "eLibrary" or from the Commission's Public Reference Room, 888 First Street NE., Washington, DC 20426, or call (202) 502–8371. For instructions on connecting to eLibrary, refer to the last page of this notice.
