## FEDERAL COMMUNICATIONS COMMISSION

### Information Collection Being Reviewed by the Federal Communications Commission

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** The Federal Communications Commission (FCC), as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act (PRA) of 1995. Comments are requested concerning whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

**DATES:** Written PRA comments should be submitted on or before February 11, 2013. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to the Federal Communications Commission via email to [PRA@fcc.gov](mailto:PRA@fcc.gov) and [Cathy.Williams@fcc.gov](mailto:Cathy.Williams@fcc.gov).

*Total Annual Costs:* \$39,750.

*Privacy Act Impact Assessment:* This information collection does not affect individuals or households; thus, there are no impacts under the Privacy Act.

*Nature and Extent of Confidentiality:* There is no need for confidentiality with this information collection.

*Needs and Uses:* On December 4, 2012, the FCC released a Sixth Report and Order ("Order"), MM Docket No. 99-25, FCC 12-144. In the Order, the FCC revised § 73.853(b) of the Commission's rules ("rules") to permit federally recognized Native American Tribes and Alaska Native Villages ("Tribal Nations") and entities owned or controlled by Native Nations (collectively, "Tribal Nation Applicants") to hold LPFM licenses. The FCC also revised its definition of local to specify that Tribal Nation Applicants are considered local throughout their Tribal lands. We have revised FCC Form 318 to reflect these changes.

In the Order, the FCC also modified its ownership rules. First, the FCC

revised its cross-ownership rule to permit cross-ownership of an LPFM station and up to two FM translator stations. Second, the FCC modified its cross-ownership rule to permit Tribal Nation Applicants to seek up to two LPFM construction permits to ensure adequate coverage of tribal lands. We have revised FCC Form 318 to reflect these changes.

The FCC further modified the point system used to select among mutually exclusive LPFM applicants and set forth in § 73.872 of the rules. First, the FCC revised the "established community presence" criterion to extend the "established community presence" standard in rural areas. Under the earlier version of the rule, an LPFM applicant was deemed to have an established community presence if it was physically headquartered or had a campus within ten miles of the proposed LPFM transmitter site, or if 75 percent of its board members resided within ten miles of the proposed LPFM transmitter site. The FCC changed the standard from ten to twenty miles for all LPFM applicants proposing facilities located outside the top fifty urban markets, for both the distance from transmitter and residence of board member standards. Second, the FCC modified the point system to award a point to Tribal Nation Applicants, when they propose to provide LPFM service to Tribal Nation communities. Third, the FCC established additional points criteria related to maintenance and staffing of a main studio, commitments to locally originate programming and maintain and staff a main studio, and new entry into the broadcasting field. We have revised the Form 318 to reflect these changes to the point system.

The FCC made a number of changes related to time-sharing. It adopted a requirement that parties submit voluntary time-sharing agreements via the Consolidated Database System. It also revised the Commission's involuntary time-sharing policy. As a result of these changes, an LPFM applicant must submit the date on which it qualified as having an "established community presence." The FCC also may require certain LPFM applicants to indicate which 8-hour and 12-hour time slots they prefer. Finally, the FCC adopted a mandatory time-sharing policy similar to that applicable to full-service noncommercial educational FM stations. We have revised the Form 318 to reflect these changes.

Finally, the FCC modified the manner in which it processes requests for waiver of the second-adjacent channel minimum distance separation

requirement, amended the rule related to third-adjacent channel interference, and amended the rule that sets forth the obligations of LPFM stations with respect to interference to the input signals of FM translator or FM booster stations. We have revised the Form 318 to reflect these proposed changes.

Under the 2011 ANSI Standard, the Commission tailored its existing disclosure requirements to address new situations that may arise. Specifically, the Commission adopted a requirement to inform users about any operations in handsets that a manufacturer may have tested under the 2011 version of the ANSI Standard and found not to meet hearing aid compatibility criteria for those operations. The Commission also adopted a requirement to make disclosure about any handsets that have not been tested for the inductive coupling capability of Voice over Long Term Evolution (VoLTE) transmissions.

The Commission is now modifying the FCC Form 655 to collect information that is relevant to the newly effective provisions of the rule and to clarify and streamline existing fields. See the 60 day notice published in the **Federal Register** on July 30, 2012 (77 FR 44614) for the specific changes made to the form.
