SUPPLEMENTARY INFORMATION:

Title: Federal and Non-Federal Financial Assistant Instruments.

OMB Number: 0596-0217.

Expiration Date of Approval: 02/28/2014.

Type of Request: Revision of a currently approved collection.

Abstract: In order to perform specific Forest Service activities, Congress created several authorities to assist the Agency in carrying out its mission. The Forest Service issues Federal Financial Assistance (FFA) awards, which are grants and cooperative agreements, as authorized by the Federal Grants and Cooperative Agreements Act (FGCAA). This collection includes the following forms:

- (1) Federal Financial Assistance Standard Forms,
- (2) Pre-certification forms,
- (3) Award and administrative related correspondence, and

(4) A new questionnaire related to a recipient's accounting system and financial management capabilities.

In addition to FFA, Congress created specific authorizations for acts outside the scope of the FGCAA. Appropriations language was developed to convey authority for the Forest Service to enter into relationships that are outside the scope of the FGCAA. The Forest Service implements these authorizations using instruments such as collection agreements, FGCAA exempted agreements, memorandums of understanding, and other agreements which mutually benefit participating parties. These instruments fall outside the scope of the Federal Acquisition Regulations (FAR) and often require financial plans and statements of work. Forest Service employees collect information from cooperating parties from the pre-award to the closeout stage via telephone calls, emails, postal mail, and person-to-person meetings to create, develop, and administer these funded and non-funded agreements. The multiple means for respondents to communicate their responses include forms, non-forms, electronic documents, face-to-face, telephone, and Internet. The scope of information collected varies, however, it typically includes the project type, project scope, financial plan, statement of work, and cooperator's business information.

The Forest Service would not be able to create, develop, and administer these funded and non-funded agreements without the collected information. The Agency would also be unable to develop or monitor projects, make or receive payments, or identify financial and accounting errors.

Estimate of Annual Burden: 1 to 4 hours annually per person.

Type of Respondents: Non-profit and for profit institutions; institutions of

higher education; State, local, and Native American tribal governments, individuals; foreign governments; and organizations.

Estimated Annual Number of Respondents: 15,000.

Estimated Annual Number of Responses per Respondent: 1 to 4.

Estimated Total Annual Burden on Respondents: 28,000 hours.

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the Agency, including whether the information will have practical or scientific utility; (2) the accuracy of the Agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget approval.

Dated: December 10, 2012.

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

Notice of Intent To Seek OMB Approval To Collect Information: On-Line Architectural Barriers Act (ABA) Complaint Form

AGENCY: Architectural and Transportation Barriers Compliance Board.

ACTION: Notice and request for comments.

SUMMARY: The Architectural and Transportation Barriers Compliance Board (Access Board) plans to request approval by the Office of Management and Budget (OMB) of a new information collection. As required by the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining

and considering public comment on this notice, and publishing a second notice requesting public comments for an additional 30 days, we plan to submit an information collection request package to OMB and request approval for three years.

DATES: Written comments on this notice must be received by February 19, 2013 to be assured of consideration.

Comments received after that date will be considered to the extent practicable.

ADDRESSES: Address all comments concerning this notice to Lisa Fairhall, Deputy General Counsel, Access Board, 1331 F Street NW., Suite 1000, Washington, DC 20004.

FOR FURTHER INFORMATION CONTACT: Lisa Fairhall, Deputy General Counsel, Access Board, 1331 F Street NW., Suite 1000, Washington, DC 20004; telephone 202-272-0046; TTY 202-272-0082; or send email to fairhall@access-board.gov.

SUPPLEMENTARY INFORMATION:

Title of Collection: On-line Architectural Barriers Act (ABA) Complaint Form.

OMB Number: 3014-NEW.

Expiration Date of Approval: Not applicable.

Type of Request: New information collection.

Abstract: The Architectural and Transportation Barriers Compliance Board (Access Board) is seeking to make the process for submitting complaints under the Architectural Barriers Act (ABA) easier to use, more efficient, and timely. Complainants will be able to submit a complaint on-line using a standardized web-based complaint form which will prompt them to provide pertinent data necessary for the Access Board to investigate an ABA complaint. You may view the electronic data collection instrument on-line at http://cts.access-board.gov/formsiq/form.do?formset_id=2&ds=fdd&reload=true or obtain a copy of the instrument from Ms. Fairhall.

Use of the Information

The Access Board enforces the ABA by investigating complaints submitted by members of the public concerning particular buildings or facilities designed, altered, or built, by or on behalf of, or leased by, federal agencies, or financed by federal funds. Complaints can currently be submitted by email, mail or fax. The proposed on-line complaint form will allow complainants to submit ABA complaints electronically and receive notification that their complaint has been received, together with the complaint number for them to use when making inquiries about the status of

their complaint. The Access Board is not requiring all complaints to be submitted using the on-line complaint form; the Access Board will continue to accept complaints submitted by email, mail, or fax.

Complainants must submit in writing the name and address of the building or facility and a brief description of each barrier to accessibility they have found at the building or facility. Additional information about the facility, such as when it was built or known sources of federal funding, is helpful but not necessary. Personal information, including the complainant's name, address, phone number and email address is optional and, where provided, is not disclosed without written permission from the complainant. The new on-line complaint form will prompt complainants to provide the information necessary for Access Board staff to initiate an investigation into a complaint. In addition, complainants will be able to attach electronic files containing pictures, drawings, or other relevant documents to the on-line complaint form when it is filed. The Access Board anticipates that use of the on-line complaint form will improve the completeness of the information included in complaints that are submitted for investigation, and this will expedite processing of complaints. In addition, complainants will be able to submit complaints 24 hours a day, seven days a week and receive electronic notification that their complaint has been received.

Estimate of Burden

Public reporting burden for this collection of information is estimated to average less than 30 minutes to complete the on-line complaint form, depending on the number of alleged barriers the complainant identifies.

There is no financial burden on the complainant. Use of the on-line form should relieve much of the burden that the current practice of mailing paper complaints puts on complainants. The Access Board is not requiring all complaints to be submitted using the on-line complaint. The Access Board will continue to accept complaints submitted by email, mail, or fax.

Respondents

Individuals. Approximately 200 individuals file accessibility complaints with the Access Board each year.

Estimated Number of Responses

Assuming all complainants choose to file complaints using the on-line complaint form, approximately 200
