

2. The SNUR submitted by any small entity would not cost significantly more than \$8,300.

A copy of that certification is available in the docket for this proposed rule.

This proposed rule is within the scope of the February 18, 2012 certification. Based on the Economic Analysis discussed in Unit IX. and EPA's experience promulgating SNURs (discussed in the certification), EPA believes that the following are true:

- A significant number of SNUNs would not be submitted by small entities in response to the SNUR.
- Submission of the SNUN would not cost any small entity significantly more than \$8,300.

Therefore, the promulgation of the SNUR would not have a significant economic impact on a substantial number of small entities.

D. Unfunded Mandates Reform Act (UMRA)

Based on EPA's experience with proposing and finalizing SNURs, State, local, and Tribal governments have not been impacted by these rulemakings, and EPA does not have any reasons to believe that any State, local, or Tribal government would be impacted by this proposed rule when promulgated as final. As such, EPA has determined that this proposed rule, when promulgated as final, would not impose any enforceable duty, contain any unfunded mandate, or otherwise have any effect on small governments subject to the requirements of sections 202, 203, 204, or 205 of the Unfunded Mandates Reform Act of 1995 (UMRA) (Pub. L. 104-4).

E. Executive Order 13132

This action would not have a substantial direct effect on States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, entitled "Federalism" (64 FR 43255, August 10, 1999).

F. Executive Order 13175

This proposed rule would not have Tribal implications because it is not expected to have substantial direct effects on Indian Tribes. This proposed rule would not significantly nor uniquely affect the communities of Indian Tribal governments, nor would it involve or impose any requirements that affect Indian Tribes. Accordingly, the requirements of Executive Order 13175, entitled "Consultation and Coordination

with Indian Tribal Governments" (65 FR 67249, November 9, 2000), do not apply to this proposed rule.

G. Executive Order 13045

This action is not subject to Executive Order 13045, entitled "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), because this is not an economically significant regulatory action as defined by Executive Order 12866, and this action does not address environmental health or safety risks disproportionately affecting children.

H. Executive Order 13211

This proposed rule is not subject to Executive Order 13211, entitled "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001), because this action is not expected to affect energy supply, distribution, or use and because this action is not a significant regulatory action under Executive Order 12866.

I. National Technology Transfer and Advancement Act

Since this action does not involve any technical standards, section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, (15 U.S.C. 272 note), does not apply to this action.

J. Executive Order 12898

This action does not entail special considerations of environmental justice related issues as delineated by Executive Order 12898, entitled "Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations" (59 FR 7629, February 16, 1994).

SUPPLEMENTARY INFORMATION:

I. Background

DoD, GSA, and NASA are proposing to revise the FAR to implement a temporary policy that will provide for the acceleration of payments to small business subcontractors. On July 11, 2012, OMB released Policy Memorandum M–12–16, Providing Prompt Payment to Small Business Subcontractors, that outlined steps agencies shall take to ensure that prime contractors pay their small business subcontractors as promptly as possible. The temporary OMB policy of accelerating payments ends on July 10, 2013.

II. Discussion and Analysis

The proposed rule establishes a new FAR clause at 52.232–XX, Providing Accelerated Payments to Small Business Subcontractors, which will require the

prime contractor, upon receipt of accelerated payments from the Government, to make accelerated payments to small business subcontractors, to the maximum extent practicable, after receipt of a proper invoice and all proper documentation from small business subcontractors. The clause will be inserted into all new solicitations issued after the effective date of the final rule and resultant contracts, including solicitations and contracts for the acquisition of commercial items. This proposed rule does not provide any new rights under the Prompt Payment Act and does not affect the application of the Prompt Payment Act late payment interest provisions.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is a significant regulatory action and, therefore, was subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

The change may have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because small business subcontractors should be paid more expeditiously by their prime contractors, improving small business cash flow overall. Therefore, an Initial Regulatory Flexibility Analysis (IRFA) has been prepared consistent with 5 U.S.C. 603, and is summarized as follows:

This proposed rule implements the temporary policy provided by OMB Policy Memorandum M–12–16, Providing Prompt Payment to Small Business Subcontractors, dated July 11, 2012, which is designed to accelerate payment from Federal contractors to their small business subcontractors. The rule imposes no reporting, recordkeeping, or other information collection requirements. The rule does not duplicate, overlap, or conflict with any other Federal rules, and there are no known significant alternatives to the rule.

The Regulatory Secretariat will be submitting a copy of the IRFA to the Chief Counsel for Advocacy of the Small Business Administration. A copy of the IRFA may be obtained from the Regulatory Secretariat. DoD, GSA, and NASA invite comments from small business concerns and other interested parties on the expected impact.

DoD, GSA, and NASA will also consider comments from small entities concerning the existing regulations in subparts affected by this proposed rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (FAR case 2012–031) in correspondence.

V. Paperwork Reduction Act

The proposed rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

Endangered and Threatened Wildlife and Plants; 90-Day Finding on a Petition To Delist the Southern Selkirk Mountains Population of Woodland Caribou

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 90-day petition finding and initiation of status review.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce a 90-day finding on a petition to delist the southern Selkirk Mountains population of woodland caribou (*Rangifer tarandus caribou*) from the Federal List of Endangered and Threatened Wildlife and Plants as determined under the Endangered Species Act of 1973, as amended (Act). Based on our review, we find that the petition presents substantial information indicating that delisting this population of the woodland caribou subspecies may be warranted. Therefore, with the publication of this notice, we initiate a review of the status of the subspecies to determine if delisting the southern Selkirk Mountains population of woodland caribou is warranted. To ensure that this status review is comprehensive, we are requesting scientific and commercial data and other information regarding the status of the woodland caribou subspecies (*Rangifer tarandus caribou*), the southern Selkirk Mountains population of woodland caribou, the mountain ecotype of the woodland caribou, and other possible woodland caribou distinct population segment configurations. Based on the status review, we will issue a 12-month finding on the petition, which will address whether the petitioned action is warranted, as provided in section 4(b)(3)(B) of the Act.

DATES: We request that we receive scientific and commercial data and other information pertinent to the petitioned action and the rangewide status review of the subspecies on or before January 18, 2013. The deadline for submitting information using the Federal eRulemaking Portal (see the **ADDRESSES** section below) is 11:59 p.m. Eastern Time on this date. After January 18, 2013, you must submit information directly to the Division of Policy and Directives Management (see the **ADDRESSES** section below). SUPPLEMENTARY INFORMATION:**Request for Information**

When we make a finding that a petition presents substantial information indicating that listing, delisting, or reclassifying a species may be warranted, we are required to promptly initiate review of the status of the species (status review). For the status review to be complete and based on the best available scientific and commercial information, we request information on the woodland caribou subspecies (*Rangifer tarandus caribou*), including the southern Selkirk Mountains population and the mountain ecotype to which this
