[Docket No. USCG–2012–1061]

Drawbridge Operation Regulation; Gulf Intracoastal Waterway, Louisiana

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Lapalco Boulevard bascule span drawbridge across the Harvey Canal Route, Gulf Intracoastal Waterway (GIWW), mile 2.8 at New Orleans, Jefferson Parish, Louisiana. The deviation is necessary to allow for the removal and replacement of the bridge's electrical components. This deviation allows the bridge to remain closed to navigation for eight consecutive days.

DATES: This deviation is effective from 6 a.m. on Thursday, January 10, 2013, until 6 a.m. on Friday, January 18, 2013.

ADDRESSES: The docket for this temporary deviation, USCG–2012–1061, is available online by going to <http://www.regulations.gov>, inserting USCG–2012–1061 in the “Search” box and

then clicking “Search”. The docket is also available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email Kay Wade, Bridge Branch Office, Coast Guard; telephone 504–671–2128, email Kay.B.Wade@uscg.mil. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202–366–9826.

SUPPLEMENTARY INFORMATION: Jefferson Parish has requested a temporary deviation from the operating schedule for the Bascule Span Bridge across the Harvey Canal Route, Intracoastal Waterway, mile 2.8 at New Orleans, Jefferson Parish, Louisiana. The bridge has a vertical clearance of 45 feet above mean high water in the closed-to-navigation position and unlimited in the open-to-navigation position. Vessels requiring a clearance of less than 45 feet may transit beneath the bridge during maintenance operations.

In accordance with 33 CFR 117.451(a), the bridge currently opens on signal for the passage of vessels; except that, from 6:30 a.m. to 8:30 a.m. and from 3:45 p.m. to 5:45 p.m. Monday through Friday except holidays, the draw need not be opened for the passage of vessels. This deviation allows the bridge to remain closed to navigation from 6 a.m. on Thursday, January 10, 2013, until 6 a.m. on Friday, January 18, 2013. At all other times, the bridge will open on signal for the passage of vessels in accordance with 33 CFR 117.451(a).

The closure is necessary in order to remove and replace the bridge's electrical system. This maintenance is essential for the continued operation of the bridge. Notices will be published in the Eighth Coast Guard District Local Notice to Mariners and will be broadcast via the Coast Guard Broadcast Notice to Mariners System.

Navigation on the waterway consists mainly of tugs with tows with some commercial fishing vessels and recreational craft. Coordination between the Coast Guard and the waterway users determined that there should not be any significant effects on these vessels. The bridge will be unable to open during these repairs; however, an alternate route is available via the GIWW (Algiers Alternate Route).

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular

operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: December 5, 2012.

David M. Frank,

Bridge Administrator.
