

institutions require individuals to sign Form SSA-461-U2 to authorize them to disclose records to SSA. The

respondents are SSI applicants, recipients, and their deemors.

Type of Request: Revision of an OMB-approved information collection.

5. *Statement of Household Expenses and Contributions—20 CFR 416.1130–416.1148—0960–0456.* SSA bases eligibility for SSI on the needs of the recipient. In part, we assess need by determining the amount of income a recipient receives. This income includes in-kind support and maintenance in the

form of food and shelter provided by others. SSA uses Form SSA-8011-F3 to determine whether the claimant or recipient receives in-kind support and maintenance. This is necessary to determine (1) the claimant or recipient's eligibility for SSI and (2) the SSI payment amount. SSA only uses this

form in cases where SSA needs the householder's (head of household) corroboration of in-kind support and maintenance. Respondents are householders of homes in which an SSI applicant or recipient resides.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
SSA-8011-F3	428,100	1	15	107,025

6. *Notification of a Social Security Number (SSN) to An Employer for Wage Reporting—20 CFR 422.103(a)—0960–0778.* Individuals applying for employment must provide an SSN or indicate they have applied for one.

However, when an individual applies for an initial SSN, there is a delay between the assignment of the number and the delivery of the SSN card. At an individual's request, SSA uses Form SSA-132 to send the individual's SSN

to an employer. Mailing this information to the employer (1) ensures the employer has the correct SSN for the individual; (2) allows SSA to receive correct earnings information for wage reporting purposes; and (3) reduces the delay in the initial SSN assignment and delivery of the SSN information directly to the employer. It also enables SSA to verify the employer as a safeguard for the applicant's personally identifiable information. The majority of individuals

who take advantage of this option are in the United States with exchange visitor and student visas; however, we allow any applicant for an SSN to use the SSA-132. The respondents are individuals applying for an initial SSN who ask SSA to mail confirmation of their application or the SSN to their employers.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
SSA-132	249,000	1	2	8,300

Abstract of Proposed Collection

The DS–2029, Application for Consular Report of Birth Abroad of a Citizen of the United States of America,

is used by citizens of the United States to report the birth of a child while overseas. The information collected on this form will be used to certify the acquisition of U.S. citizenship at birth of a person born abroad and can be used by that person throughout life. 22 CFR § 50.5–50.7 are important legal authorities that permit the Department to use this form.

Methodology

The DS–2029 is currently available to download from the Internet. An application for a Consular Report of Birth is normally made in the consular district in which the birth occurred. The parent respondents will complete the form and present it to a United States Consulate or Embassy, who will examine the documentation and enter the information provided into the Department of State American Citizen Services (ACS) electronic database.

Dated: November 21, 2012.

Michelle Bernier-Toth,

Managing Director, Bureau of Consular Affairs, Overseas Citizen Services, Department of State.
