

clients and that the information being submitted was a type of information for which there was a clear and compelling need to withhold from disclosure.

Commission staff informed the attorney that he was required to serve the law firm in question by noon the next day or the questionnaires would be rejected. Since the attorney did not do so, the questionnaire responses were rejected.

The Commission considered several mitigating factors. The attorney involved had not been sanctioned for an APO breach within the two year period generally examined by the Commission for purposes of determining sanctions nor had he previously violated the Commission's rules. Moreover, no party was prejudiced by the breach as the attorney later filed the same questionnaire responses and served them on all authorized applicants, including the law firm not previously served.

The Commission also considered the aggravating circumstances that the APO breach was intentional and was caused by the attorney substituting his judgment for the Commission's as to which parties to serve.

Case 3

Attorneys who were APO signatories in two law firms were found by the Commission to have breached the APO in a section 337 investigation by retaining confidential business information (CBI) after the appeal of the investigation had terminated. Two of the attorneys breached the APO by retaining the CBI and by disclosing third party CBI to non-signatories in response to discovery requests in separate district

court litigation. Those two attorneys were issued private letters of reprimand by the Commission and the attorneys who had retained but not disclosed the CBI were issued warning letters. The Commission did not find a violation of the APO by attorneys in several other law firms who were not signatories to the APO but who received the CBI that had been disclosed by the two aforementioned attorneys. They were instead issued letters instructing them to return or destroy the CBI.

With respect to the attorneys who retained and disclosed the CBI, the Commission considered the mitigating circumstances that the breach was unintentional, that the attorneys acted quickly to cure the breach, and that they had not previously breached an APO within the two-year period generally considered by the Commission in determining what sanctions to impose for a breach. The Commission also took into account the aggravating circumstances that the CBI was viewed by unauthorized persons, and that the breach was not discovered by the attorneys or their firm.

With respect to the attorneys who retained but did not disclose the CBI, the Commission considered the mitigating circumstances that the breach was unintentional, that the CBI that they retained was not read by any person not subject to the APO, that their firm moved to remedy the breach expeditiously after being informed of it by the Commission staff, and that this is the only breach in which they had been involved in the two-year period generally examined by the Commission for the purpose of determining sanctions. The Commission also

considered the aggravating circumstances that their firm did not discover the breach and that it appeared that their firm had a policy to retain CBI following any case or investigation.

Issued: December 21, 2012.

By order of the Commission.

Lisa R. Barton,

Acting Secretary to the Commission.

¹ Disbursements are cash outlays rather than expenditures.

² These measures are the same Key Performance Indicators that MCC reports each quarter. The Key Performance Indicators may change over time to more accurately reflect compact implementation progress. The unit for these measures is “number of” unless otherwise specified.

³ Program administration funds are used to pay items such as salaries, rent, and the cost of office equipment.

⁴ These amounts represent disbursements made that will be allocated to individual projects in the subsequent quarter(s) and reported as such in subsequent quarterly report(s).

The following MCC compacts are closed and, therefore, do not have any quarterly disbursements: Armenia, Cape Verde, Georgia, Honduras, Madagascar, Nicaragua and Vanuatu.

MILLENNIUM CHALLENGE CORPORATION

[MCC FR 12–13]

Report on the Selection of Eligible Countries for Fiscal Year 2013

AGENCY: Millennium Challenge Corporation.

ACTION: Notice.

SUMMARY: This report is provided in accordance with section 608(d)(1) of the Millennium Challenge Act of 2003, Public Law 108–199, Division D, (the “Act”), 22 U.S.C. 7708(d)(1).

Dated: December 21, 2012.

Melvin F. Williams, Jr.,

VP/General Counsel and Corporate Secretary, Millennium Challenge Corporation.

Report on the Selection of Eligible Countries for Fiscal Year 2013

Summary

This report is provided in accordance with section 608(d)(1) of the Millennium Challenge Act of 2003, Public Law 108–199, Division D, (the “Act”) (22 U.S.C. 7707(d)(1)).

The Act authorizes the provision of Millennium Challenge Account (“MCA”) assistance under section 605

of the Act (22 U.S.C. 7704) to countries that enter into compacts with the United States to support policies and programs that advance the progress of such countries in achieving lasting economic growth and poverty reduction, and are in furtherance of the Act. The Act requires the Millennium Challenge Corporation (“MCC”) to determine the countries that will be eligible to receive MCA assistance during the fiscal year, based on their demonstrated commitment to just and democratic governance, economic freedom, and investing in their people, as well as on the opportunity to reduce poverty and generate economic growth in the country. The Act also requires the submission of reports to appropriate congressional committees and the publication of notices in the **Federal Register** that identify, among other things:

The countries that are “candidate countries” for MCA assistance during fiscal year 2013 (“FY13”) based on their per-capita income levels and their eligibility to receive assistance under U.S. law, and countries that would be candidate countries but for specified legal prohibitions on assistance (section 608(a) of the Act (22 U.S.C. 7707(a)));

The criteria and methodology that the Board of Directors of MCC (the “Board”) will use to measure and evaluate the policy performance of the “candidate countries” consistent with the requirements of section 607 of the Act in order to select “MCA eligible countries” from among the “candidate countries” (section 608(b) of the Act (22 U.S.C. 7707(b))); and

The list of countries determined by the Board to be “MCA eligible countries” for FY13, with justification

for eligibility determination and selection for compact negotiation, including with which of the MCA eligible countries the Board will seek to enter into MCA compacts (section 608(d) of the Act (22 U.S.C. 7707(d))).

This is the third of the above-described reports by MCC for FY13. It identifies countries determined by the Board to be eligible under section 607 of the Act (22 U.S.C. 7706) for FY13 and countries with which the MCC will seek to enter into compacts under section 609 of the Act (22 U.S.C. 7708), as well as the justification for such decisions. The report also identifies countries determined by the Board to be eligible for MCC’s Threshold Program under section 616 of the Act (22 U.S.C. 7715).

Eligible Countries

The Board met on December 19, 2012, to select countries that will be eligible for MCA compact assistance under section 607 of the Act (22 U.S.C. 7706) for FY13. The Board selected the following countries as eligible for such assistance for FY13: Liberia, Morocco, Niger, Sierra Leone, and Tanzania. The Board also reselected the following countries as eligible for MCA compact assistance: Benin, El Salvador, Georgia, and Ghana.

Criteria

In accordance with the Act and with the “Report on the Criteria and Methodology for Determining the Eligibility of Candidate Countries for Millennium Challenge Account Assistance in Fiscal Year 2013” formally submitted to Congress on September 14, 2012, selection was based primarily on a country’s overall performance in three broad policy
