BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2004-17099]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated November 20, 2012, the Metro-North Railroad (MNR) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations at 49 CFR Section 238.309(b)(3) regarding periodic brake maintenance for multiple unit (MU) locomotives and the special approval procedure under 49 CFR Section 238.21(b). This petition is filed to increase the duration of the periodic brake equipment maintenance interval for the MNR MU M8 Air Brake System (KB-CT1a) and to include by amendment this 405-unit fleet to the age exploration M7 waiver. FRA assigned the petition Docket Number FRA-2004-17099.

MNR is also requesting to exclude test requirements for all the air brake valves in the KB-CT1a (M8) System that are currently part of the KB-CT1 (M7) System. MNR requests that these components be considered to have the same standard life expectancy as determined by the M7 waiver (Docket Number FRA-2004-17099). The MNR M7 fleet is currently undergoing age exploration tests. The MNR M7 fleet is averaging 68,000 miles a year per car. The current MNR fleets that the M8 fleet is replacing average 64,000 miles a year per car, which delineates a similar wear and life expectancy to that of the M7. MNR proposes to test only those components not yet captured by the KB-CT1 (M7) age exploration testing in support of this request.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m.

to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Project name and location: Dulles Corridor Metrorail Project, Phase 2 Preliminary Engineering Design Refinements, Fairfax and Loudoun Counties, VA. *Project sponsor:* Metropolitan Washington Airports Authority (Airports Authority). *Project description:* The Airports Authority is proposing to construct the second phase of the Dulles Corridor Metrorail Project (Project), a two-phase extension of the Washington Metropolitan Area Transit Authority (WMATA) Metrorail system to the Washington Dulles International Airport in Loudoun County, VA. The FTA and the Airports Authority originally evaluated the Project through a Final Environmental Impact Statement (FEIS) in December 2004. The FTA and the Airports Authority, as joint lead agencies, and the Federal Aviation Administration, as a cooperating agency, evaluated the potential environmental and socioeconomic effects from design refinements for Phase 2 of the Project in an Environmental Assessment (EA) in May 2012. The Phase 2 design refinements are the result of preliminary engineering performed following publication of the FEIS and issuance of an Amended Record of Decision for the Project by FTA in November 2006. The Phase 2 design refinements included changes to parking facilities, side station facilities, ancillary facilities, and relocation of the Dulles International Airport Station from below to above ground. This action is on the December 2012 Finding of No Significant Impact. Nothing in this notice affects FTA's previous decisions, or notice thereof, for this project. More specifically, the statute of limitations for the approvals documented in the project's November 17, 2006 Amended Record of Decision and the environmental documents on which it is based expired on June 4, 2007, as noticed in the **Federal Register** on December 4, 2006 (71 FR 70449).
