

(OFP) data, loading of munitions mission planning data, loading of Global Positioning System (GPS) cryptographic keys, and declassification of munitions memory. CMBRE is a system that manages data and information classified up to Secret.

7. Software, hardware, and other data/information, which is classified or sensitive, is reviewed prior to release to protect system vulnerabilities, design data, and performance parameters. Some end-item hardware, software, and other data identified above are classified at the Confidential and Secret level. Potential compromise of these systems is controlled through management of the hardware and software weapon systems on a case-by-case basis.

8. If a technologically advanced adversary were to obtain knowledge of

the specific hardware or software source code in this proposed sale, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of systems with similar or advance capabilities.

[Transmittal Nos. 12-69]

36(b)(1) Arms Sales Notification

AGENCY: Department of Defense, Defense Security Cooperation Agency.

ACTION: Notice.

SUMMARY: The Department of Defense is publishing the unclassified text of a section 36(b)(1) arms sales notification. This is published to fulfill the requirements of section 155 of Public Law 104-164 dated July 21, 1996.

FOR FURTHER INFORMATION CONTACT: Ms. B. English, DSCA/DBO/CFM, (703) 601-3740.

The following is a copy of a letter to the Speaker of the House of Representatives, Transmittals 12-69 with attached transmittal, policy justification, and Sensitivity of Technology.

Dated: December 26, 2012.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

DEC 14 2012

The Honorable John A. Boehner
Speaker of the House
U.S. House of Representatives
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding a revised Transmittal No. 12-69, concerning the Department of the Air Force's proposed Letter(s) of Offer and Acceptance to Israel for defense articles and services. On December 10, 2012 we notified this sale with an estimated value of \$647 million. Subsequently, we discovered an error in Transmittal 12-69. The enclosed revised transmittal supersedes the transmittal dated December 10, 2012, which contained incorrect information regarding the contractors listed in the Policy Justification. We regret the error.

Sincerely,

William E. Landay III
William E. Landay III
Vice Admiral, USN
Director

BILLING CODE 5001-06-C

Transmittal No. 12-69

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: Israel

(ii) Total Estimated Value:

Major Defense Equipment* .. \$466 million
Other \$181 million

Total \$647 million
* as defined in Section 47(6) of the Arms Export Control Act.

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase: 6,900 Joint Direct Attack Munitions (JDAM) tail kits (which include 3,450 JDAM Anti-Jam KMU-556 (GBU-31) for MK-84 warheads; 1,725 KMU-557 (GBU-31) for BLU-109 warheads and 1,725 KMU-

572 (GBU-38) for MK-82 warheads); 3,450 MK-84 2000 lb General Purpose Bombs; 1,725 MK-82 500 lb General Purpose Bombs; 1,725 BLU-109 Bombs; 3,450 GBU-39 Small Diameter Bombs; 11,500 FMU-139 Fuses; 11,500 FMU-143 Fuses; and 11,500 FMU-152 Fuses. Also included are spare and repair parts, support equipment, personnel training and training equipment, publications and technical

documentation, U.S. Government and contractor engineering and technical support, and other related elements of program support.

POLICY JUSTIFICATION

Israel—Munitions

The Government of Israel has requested a possible sale of 6,900 Joint Direct Attack Munitions (JDAM) tail kits (which include 3,450 JDAM Anti-Jam KMU-556 (GBU-31) for MK-84 warheads; 1,725 KMU-557 (GBU-31) for BLU-109 warheads and 1,725 KMU-572 (GBU-38) for MK-82 warheads); 3,450 MK-84 2000 lb General Purpose Bombs; 1,725 MK-82 500 lb General Purpose Bombs; 1,725 BLU-109 Bombs; 3,450 GBU-39 Small Diameter Bombs; 11,500 FMU-139 Fuses; 11,500 FMU-143 Fuses; and 11,500 FMU-152 Fuses. Also included are spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering and technical support, and other related elements of program support.

The estimated cost is \$647 million.

The United States is committed to the security of Israel, and it is vital to U.S. national interests to assist Israel to develop and maintain a strong and ready self-defense capability. This proposed sale is consistent with those objectives.

The proposed sale of munitions will enable Israel to maintain operational capability of its existing systems. Israel, which already has these munitions in its inventory, will have no difficulty absorbing these additional munitions into its armed forces.

The proposed sale of munitions will not alter the basic military balance in the region.

The principal contractors will be The Boeing Company in St. Charles, Missouri; KDI Precision Products in Cincinnati, Ohio; ATK (Alliant Tech Systems, Inc.) in Edina, Minnesota; Kaman Dayron in Orlando, Florida; General Dynamics in Garland, Texas; and Elwood National Forge Co. in Irvine, Pennsylvania. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 12-69

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended Annex

Item No. vii

(vii) *Sensitivity of Technology*

1. The Joint Direct Attack Munition is a weapon guidance kit that converts existing unguided free-fall bombs into precision-guided “smart” munitions. By adding a new tail section containing Inertial Navigation System (INS) guidance/Global Positioning System (GPS) guidance to unguided bombs, the cost effective JDAM provides precise weapon delivery in any weather, given an accurate set of coordinates. The INS, using updates from the GPS, helps guide the bomb to the target via the use of movable tail fins. Weapon accuracy is dependent on the quality of target coordinates and present position as entered into the guidance control unit. After weapon release, movable tail fins guide the weapon to the target coordinates. In addition to the tail kit, other elements in the overall system that are essential for successful employment include:

Access to accurate target coordinates
 INS/GPS capability

Operational Test and Evaluation Plan

2. The Guided Bomb Unit-39 (GBU-39) Small Diameter Bomb (SDB) is a 250-lb precision guided munition that is intended to provide aircraft with the potential to simultaneously strike an

increased number of targets per sortie. Aircraft are able to carry four SDBs in place of one 2,000-lb bomb. The GBU-39 is a conventional munition that is currently integrated in the F-15 air-to-ground platform. The SDB is equipped with a GPS-aided inertial navigation system to attack fixed/stationary targets such as fuel depots and bunkers.

3. If a technologically advanced adversary were to obtain knowledge of specific hardware, the information could be used to develop countermeasures which might reduce weapons system effectiveness or be used in the development of a system with similar or advanced capabilities.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Office of the Secretary

Establishment of Department of Defense Federal Advisory Committees

AGENCY: DoD.

ACTION: Establishment of Federal Advisory Committee.

SUMMARY: Under the provisions of 10 U.S.C. 2166(e), the Federal Advisory Committee Act of 1972 (5 U.S.C. Appendix), the Government in the Sunshine Act of 1976 (5 U.S.C. 552b), and 41 CFR 102-3.50(a), the Department of Defense gives notice that it is establishing the charter for the Vietnam War Commemoration Advisory Committee (hereafter referred to as “the Committee”).

The Committee shall provide the Secretary of Defense and the Deputy Secretary of Defense, through the Director of Administration and Management (DA&M), independent advice and recommendations on the Department of Defense’s (DoD) program to commemorate the 50th Anniversary of the Vietnam War.

The Committee shall report to the Secretary and Deputy Secretary of Defense, through the DA&M. The DA&M may act upon the Committee’s advice and recommendations. The Committee shall be composed of no more than 20 members, who are appointed by the Secretary of Defense. These members shall represent Vietnam Veterans, their families, and the American public. Candidates for the Committee shall be selected from the Military Services (both retired veterans and active members who served during the Vietnam era), the Department of Defense, the Department of State, the Department of Veterans Affairs, and the Intelligence Community. In addition, candidates
