Semiannual Regulatory Agenda, Fall 2012

AGENCY: Office of the Secretary, USDA.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda provides summary descriptions of significant and not significant regulations being developed in agencies of the U.S. Department of Agriculture (USDA) in conformance with Executive Orders (EO) 12866 “Regulatory Planning and Review,” and 13563 “Improving

Regulation and Regulatory Review.” The agenda also describes regulations affecting small entities as required by section 602 of the Regulatory Flexibility Act, Public Law 96–354. This agenda also identifies regulatory actions that are being reviewed in compliance with section 610(c) of the Regulatory Flexibility Act. We invite public comment on those actions as well as any regulation consistent with EO 13563.

USDA has attempted to list all regulations and regulatory reviews pending at the time of publication except for minor and routine or repetitive actions, but some may have been inadvertently missed. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the date shown.

USDA’s complete regulatory agenda is available online at www.reginfo.gov. Because publication in the **Federal Register** is mandated for the regulatory flexibility agendas required by the Regulatory Flexibility Act (5 U.S.C. 602), USDA’s printed agenda entries include only:

(1) Rules that are likely to have a significant economic impact on a substantial number of small entities; and

(2) Rules identified for periodic review under section 610 of the Regulatory Flexibility Act.

For this edition of the USDA regulatory agenda, the most important significant regulatory actions and a Statement of Regulatory Priorities are included in the Regulatory Plan, which appears in both the online regulatory agenda and in part II of the **Federal Register** that includes the abbreviated regulatory agenda.

FOR FURTHER INFORMATION CONTACT: For further information on any specific entry shown in this agenda, please contact the person listed for that action. For general comments or inquiries about the agenda, please contact Michael Poe, Office of Budget and Program Analysis, U.S. Department of Agriculture, Washington, DC 20250, (202) 720–3257.

Dated: October 22, 2012.

Michael Poe,

Chief, Legislative and Regulatory Staff.

AGRICULTURAL MARKETING SERVICE—PROPOSED RULE STAGE

DEPARTMENT OF AGRICULTURE (USDA)

Agricultural Marketing Service (AMS)

Proposed Rule Stage

123. National Organic Program, Organic Pet Food Standards

Legal Authority: 7 U.S.C. 6501
Abstract: The National Organic Program (NOP) is establishing national standards governing the marketing of organically produced agricultural products. In 2004, the National Organic Standards Board (NOSB) initiated the development of organic pet food standards, which had not been incorporated into the NOP regulations, by forming a task force which included pet food manufacturers, organic consultants, etc. Collectively, these experts drafted organic pet food standards consistent with the Organic

Foods Production Act of 1990, Food and Drug Administration requirements, and the Association of American Feed Control Officials (AAFCO) Model Regulations for Pet and Specialty Pet Food. The AAFCO regulations are scientifically-based regulations for voluntary adoption by State jurisdictions to ensure the safety, quality and effectiveness of feed. In November 2008, the NOSB approval a final recommendation for organic pet food standards incorporating the provisions drafted by the pet food task force.

124. National Organic Program; Sunset Review (2012) for Sodium Nitrate

Legal Authority: 7 U.S.C. 6501
Abstract: This action proposes to amend the listing for sodium nitrate on the National List of Allowed and Prohibited Substances as part of the 2012 Sunset Review process. Consistent with the recommendation from the National Organic Standards Board, this amendment would prohibit the use of

the substance in its entirety from organic crop production.

Agricultural Marketing Service (AMS)

Final Rule Stage

125. National Organic Program: Sunset Review For Nutrient Vitamins and Minerals

Legal Authority: 7 U.S.C. 6501
Abstract: This action renews the listing for nutrient vitamins and minerals on the National List of Allowed and Prohibited Substances (National List) as part of the 2012 Sunset Review process. Consistent with the recommendation from the National Organic Standards Board (NOSB), this action ensures that the U.S. organic industry can continue using vitamins and minerals in organic products (e.g., the addition of Vitamin A and D in organic milk, the addition of B vitamins in organic cereal). Under this action, the status quo will remain in effect such that nutrients currently used in organic products can continue to be used until the Agricultural Marketing Service (AMS) addresses any changes in their allowance through a final rule.

Completed Actions

126. Wholesale Pork Reporting Program

Legal Authority: 7 U.S.C. 1635 to 1636
Abstract: On September 15, 2010, Congress passed the Mandatory Price Reporting Act of 2010 reauthorizing Livestock Mandatory Reporting for 5 years and adding a provision for mandatory reporting of wholesale pork cuts. The Act was signed by the President on September 28, 2010. Congress directed the Secretary to engage in negotiated rulemaking to make required regulatory changes for mandatory wholesale pork reporting. Further, Congress required that the negotiated rulemaking committee include representatives from (i) organizations representing swine producers; (ii) organizations representing packers of pork, processors of pork, retailers of pork, and buyers of wholesale pork; (iii) the Department of Agriculture; and (iv) interested parties that participate in swine or pork production.

127. National Organic Program, Periodic Pesticide Residue Testing, NOP-10-0102

Legal Authority: 7 U.S.C. 6501
Abstract: Under the Organic Foods Production Act (OFPA) of 1990, the National Organic Program is authorized to require pre-harvest residue testing for products sold or labeled as organic. This requirement is promulgated in section 205.670(b) of the NOP regulations which provides that the Secretary, state programs, and certifying agents may require pre-harvest or post-harvest testing of organic products when there is reason to believe that the product has come into contact with a prohibited

substance or has been produced using excluded methods.

Based on recommendations from a March 2010 OIG audit, the NOP published a proposed rule that would amend regulations such that certifying agents would be required to conduct periodic testing of agricultural products that are to be sold, labeled or represented as “100 percent organic, organic,” or “made with organic (specified ingredients or food group(s))”. Specifically, the proposed rule specified that certifying agents would be required, on an annual basis, to randomly sample and test agricultural products from a minimum of 5 percent of the operations they certify.

DEPARTMENT OF AGRICULTURE (USDA)

Farm Service Agency (FSA)

Final Rule Stage

128. Farm Loan Programs, Clarification and Improvement

Legal Authority: 5 U.S.C. 301; 7 U.S.C. 1989

Abstract: The rule will amend Farm Loan Programs (FLP) regulations for loan servicing including the following areas:

- Real estate appraisals;
- Lease, subordination, and disposition of security; and
- Conservation contracts.

FSA is also making technical and conforming amendments. The amendments are technical corrections, clarifications, and procedural improvements that will allow FSA to further streamline normal servicing activities and reduce burden on borrowers while still protecting the loan security.

129. Microloan Operating Loans

Legal Authority: 7 U.S.C. 1946; 5 U.S.C. 301; 7 U.S.C. 1989

Abstract: The rule will establish a new small loan category within the existing direct Operating Loan Program regulations. The microloan program is expected to serve the unique operating needs of very small family farm operations. The intended effect is to make the Operating Loan Program more widely available and attractive to smaller operators through reduced application requirements, more timely application processing, and added flexibility in meeting the managerial ability eligibility requirement.

Proposed Rule Stage

130. Animal Welfare: Marine Mammals; Nonconsensus Language and Interactive Programs (Rulemaking Resulting From a Section 610 Review)

Legal Authority: 7 U.S.C. 2131 to 2159

Abstract: The U.S. Department of Agriculture regulates the humane handling, care, treatment, and transportation of certain marine mammals under the Animal Welfare

Act. The present standards for these animals have been in effect since 1979 and amended in 1984. During this time, advances have been made and new information has been developed with regard to the housing and care of marine mammals. This rulemaking addresses marine mammal standards on which consensus was not reached during negotiated rulemaking conducted between September 1995 and July 1996. These actions appear necessary to ensure that the minimum standards for the humane handling, care, treatment, and transportation of marine mammals in captivity are based on current general, industry, and scientific knowledge and experience.

RIN: 0579-AC02

132. Scrapie in Sheep and Goats

Legal Authority: 7 U.S.C. 8301 to 8317

Abstract: This rulemaking would amend the scrapie regulations by changing the risk groups and categories established for individual animals and

for flocks. It would simplify, reduce, or remove certain recordkeeping requirements. This action would provide designated scrapie epidemiologists with more alternatives and flexibility when testing animals in order to determine flock designations under the regulations. It would also make the identification and recordkeeping requirements for goat owners consistent with those for sheep owners. These changes would affect sheep and goat producers and State governments.

134. Bovine Spongiform Encephalopathy and Scrapie; Importation of Small Ruminants and Their Germplasm, Products, and Byproducts

Legal Authority: 7 U.S.C. 450; 7 U.S.C. 1622; 7 U.S.C. 7701 to 7772; 7 U.S.C. 7781 to 7786; 7 U.S.C. 8301 to 8317; 21 U.S.C. 136 and 136a; 31 U.S.C. 9701

Abstract: This rulemaking would amend the bovine spongiform encephalopathy (BSE) and scrapie regulations regarding the importation of live sheep, goats, and wild ruminants and their embryos, semen, products, and byproducts. The proposed scrapie revisions regarding the importation of sheep, goats, and susceptible wild ruminants for other than immediate slaughter are similar to those recommended by the World Organization for Animal Health in restricting the importation of such animals to those from scrapie-free regions or certified scrapie-free flocks.

135. Importation of Beef From a Region in Brazil

Legal Authority: 7 U.S.C. 450; 7 U.S.C. 7701 to 7772; 7 U.S.C. 7781 to 7786; 7 U.S.C. 8301 to 8317; 21 U.S.C. 136 and 136a; 31 U.S.C. 9701

Abstract: This rulemaking would amend the regulations governing the importation of certain animals, meat, and other animal products by allowing, under certain conditions, the importation of fresh (chilled or frozen) beef from a region in Brazil (the States of Bahia, Distrito Federal, Espirito Santo, Goias, Mato Grosso, Mato Grosso do Sul, Minas Gerais, Parana, Rio Grande do Sul, Rio de Janeiro, Rondonia, Sao Paulo, Sergipe, and Tocantis). Based on the evidence in a recent risk assessment, we have determined that fresh (chilled or frozen) beef can be safely imported from those Brazilian States provided certain conditions are met. This action would provide for the importation of beef from the designated region in Brazil into the United States while continuing to protect the United States against the introduction of foot-and-mouth disease.

141. Handling of Animals; Contingency Plans

Legal Authority: 7 U.S.C. 2131 to 2159
Abstract: This rulemaking will amend the Animal Welfare Act regulations to add requirements for contingency planning and training of personnel by research facilities and by dealers, exhibitors, intermediate handlers, and carriers. This action will heighten the awareness of licensees and registrants regarding their responsibilities and help ensure a timely and appropriate response should an emergency or disaster occur.

142. Agricultural Bioterrorism Protection Act of 2002; Biennial Review and Republication of the Select Agent and Toxin List; Amendments to the Select Agent and Toxin Regulations

Legal Authority: 7 U.S.C. 8401

Abstract: In accordance with the Agricultural Bioterrorism Protection Act of 2002, we are amending and republishing the list of select agents and toxins that have the potential to pose a severe threat to animal or plant health, or to animal or plant products. The Act requires the biennial review and republication of the list of select agents and toxins and the revision of the list as necessary. This action implements the findings of the third biennial review of the list. In addition, we are reorganizing the list of select agents and toxins based on the relative potential of each select agent or toxin to be misused to adversely affect human, plant, or animal health. Such tiering of the list allows for the optimization of security measures for those select agents or toxins that present the greatest risk of deliberate misuse with the most significant potential for mass casualties or devastating effects to the economy, critical infrastructure, or public confidence. We are also making a number of amendments to the regulations, including the addition of definitions and clarification of language concerning security, training, biosafety, biocontainment, and incident response. These changes will increase the usability of the select agent regulations as well as provide for enhanced program oversight.

143. Lacey Act Implementation Plan; Definitions for Exempt and Regulated Articles

Legal Authority: 16 U.S.C. 3371 *et seq.*

Abstract: In response to recent amendments to the Lacey Act, we are establishing definitions for the terms “common cultivar” and “common food crop” and several related terms. The amendments to the Act expanded its protections to a broader range of plant species, extended its reach to encompass products, including timber, that derive from illegally harvested plants, and require that importers submit a declaration at the time of importation for certain plants and plant products. Common cultivars and common food crops are among the categorical exemptions to the provisions of the Act. The Act does not define the terms “common cultivar” and “common food crop” but instead gives authority to the U.S. Department of Agriculture and the U.S. Department of the Interior to define these terms by regulation. Our definitions specify which plants and plant products will be subject to the provisions of the Act, including the declaration requirement.

146. Citrus Canker, Citrus Greening, and Asian Citrus Psyllid; Interstate Movement of Regulated Nursery Stock

Legal Authority: 7 U.S.C. 7701 to 7772; 7 U.S.C. 7781 to 7786

Abstract: This rulemaking will amend the regulations governing the interstate movement of regulated articles from areas quarantined for citrus canker, citrus greening, and/or Asian citrus psyllid (ACP) to allow the movement of regulated nursery stock under a certificate to any area within the United States. In order to be eligible to move regulated nursery stock, a nursery must enter into a compliance agreement with APHIS that specifies the conditions under which the nursery stock must be grown, maintained, and shipped. It will also amend the regulations that allow the movement of regulated nursery stock from an area quarantined for ACP, but not for citrus greening, to amend the existing regulatory requirements for the issuance of limited permits for the

interstate movement of the nursery stock. We are making these changes on an immediate basis in order to provide nursery stock producers in areas quarantined for citrus canker, citrus greening, or ACP with the ability to ship regulated nursery stock to markets within the United States that would otherwise be unavailable to them due to the prohibitions and restrictions contained in the regulations while continuing to provide adequate safeguards to prevent the spread of the three pests into currently unaffected areas of the United States.

Legal Authority: 7 U.S.C. 450; 7 U.S.C. 7701 to 7772; 7 U.S.C. 7781 to 7786; 21 U.S.C. 136 and 136a

Abstract: This rulemaking will amend the regulations to require firewood of all species imported from Canada, including treated lumber (furniture scraps) sold as kindling, and all spruce logs imported from Nova Scotia to be heat-treated and to be accompanied by either a certificate of treatment or an attached commercial treatment label. This action is necessary to prevent the artificial spread of pests including emerald ash borer, Asian longhorned beetle, gypsy moth, European spruce bark beetle, and brown spruce longhorn beetle to noninfested areas of the United States and to prevent further introductions of these pests into the United States.

148. • Importation of Fresh Pitaya Fruit From Central America Into the Continental United States

Legal Authority: 7 U.S.C. 450; 7 U.S.C. 7701 to 7772; 7 U.S.C. 7781 to 7786; 21 U.S.C. 136 and 136a

Abstract: This rulemaking amends the fruits and vegetables regulations to allow the importation of fresh pitaya fruit from Central America into the continental United States. As a condition of entry, the pitaya fruit must be produced in accordance with a systems approach that includes requirements for monitoring and oversight, establishment of pest-free places of production, and procedures for packing the pitaya fruit. This action will allow for the importation of pitaya fruit from Central America into the continental United States while continuing to provide protection against the introduction of plant pests.

149. • Importation of Dracaena Plants From Costa Rica

Legal Authority: 7 U.S.C. 450; 7 U.S.C. 7701 to 7772; 7 U.S.C. 7781 to 7786; 21 U.S.C. 136 and 136a

Abstract: This rulemaking amends the plants for planting regulations to provide conditions for the importation into the continental United States of

Dracaena spp. plants from Costa Rica. These conditions will apply to plants less than 460 mm in length, which are currently allowed to be imported, and will also allow for the importation of plants over 460 mm and up to 1,371.6 mm in length, which are currently prohibited. As a condition of entry, Dracaena spp. plants from Costa Rica will have to be produced in accordance with integrated pest risk management measures that will include requirements for registration of place of production and packinghouses, a pest management plan, inspection for quarantine pests, sanitation, and traceability from place of production through the packing and export facility and to the port of entry into the United States. All Dracaena spp. plants from Costa Rica will also be required to be accompanied by a phytosanitary certificate with an additional declaration stating that all conditions for the importation of the plants have been met and that the consignment of plants has been inspected and found free of quarantine pests. This action will allow for the importation of oversized Dracaena spp. plants from Costa Rica into the United States while continuing to provide protection against the introduction of quarantine pests.

Legal Authority: 5 U.S.C. 301; 7 U.S.C. 1989; 42 U.S.C. 1480

Abstract: The Guaranteed Single-Family Housing Loan Program is taking the proposed action to implement

authorities granted the Secretary of the USDA, in section 102 of the Supplemental Appropriations Act, 2010 (Pub. L. 111-212, July 29, 2010) to collect from the lender an annual fee not to exceed 0.5 percent of the outstanding principal balance of the loan for the life of the loan. The intent of the annual fee is to make the SFHGLP subsidy neutral when used in conjunction with the one-time guarantee fee, thus eliminating the need for taxpayer support of the program.

155. Performance Standards for the Production of Processed Meat and Poultry Products

Legal Authority: 21 U.S.C. 451 *et seq.*; 21 U.S.C. 601 *et seq.*

Abstract: FSIS is proposing to establish pathogen reduction performance standards for all ready-to-eat (RTE) and partially heat-treated meat and poultry products. The performance standards spell out the objective level of pathogen reduction that establishments must meet during their operations in order to produce safe products, but allow the use of customized, plant-specific processing procedures other than those prescribed in their earlier regulations. With HACCP, food safety performance standards give establishments the incentive and flexibility to adopt innovative, science-based food safety processing procedures and controls, while providing objective, measurable standards that can be verified by Agency inspectional oversight. This set of performance standards will include and be consistent with standards already in place for certain ready-to-eat meat and poultry products.

157. Mandatory Inspection of Catfish and Catfish Products

Legal Authority: 21 U.S.C. 601 *et seq.*; Pub. L. 110-249, sec 11016

Abstract: The Food, Conservation, and Energy Act of 2008 (Pub. L. 110-246, sec. 11016), known as the 2008 Farm Bill, amended the Federal Meat Inspection Act (FMIA) to make catfish an amenable species under the FMIA. Amenable species must be inspected, so this rule will define inspection requirements for catfish. The regulations

will define “catfish” and the scope of coverage of the regulations to apply to establishments that process farm-raised species of catfish and to catfish and catfish products. The regulations will take into account the conditions under which the catfish are raised and transported to a processing establishment.

Final Rule Stage

159. Land Management Planning Rule Policy

Legal Authority: 5 U.S.C. 302; 16 U.S.C. 1604; 16 U.S.C. 1613

Abstract: Background: Describe what the current directives require or allow, and what the problem is.

The Forest Service is promulgating a new land management planning regulation at 36 CFR part 219 (RIN 0596-AC94). A proposed land management planning rule was published for public comment February 14, 2011 (70 FR 8480). The agency intends to issue interim directives to implement the new planning rule shortly after publishing the final rule in the **Federal Register** around the end of calendar year 2011. An interim directive is an issuance that modifies previous direction or establishes new direction for a period of up to 18 months. Release of the interim directives will include a 60-day public comment period. The current directives implement the provisions of the 2000 planning rule that is being replaced by the new rule.

Proposed Action: Briefly describe the action you wish to take.

The US Forest Service is proposing to amend the Forest Service Manual (FSM) 1900—Planning and Forest Service Handbook (FSH) 1909.12—Land Management Planning Handbook. Within the FSM 1900, the agency proposes to change the Zero Code and Chapter 1920—Land Management Planning. Direction would be revised to implement the new planning rule.

Specifics: List the exact regulatory language that this directive will modify, and describe, generally, how this will be changed or what will be added. Use bullets.

* FSM 1905—Definitions. Amend definitions to include those in the planning rule.

* FSM 1920—Land Management Planning. Amend the entire chapter to implement the rule.

* FSH 1909.12—Land Management Planning Handbook. Amend the entire handbook to implement the rule.
