1-Methyl-3,5,7-Triaza-1-Azoniatricyclodecane Chloride (Busan1024); Amendment To Terminate Uses

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the amendment to terminate uses, voluntarily requested by the registrant and accepted by the Agency, of products containing the pesticide, Busan 1024, pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This cancellation order follows an August 13, 2008 **Federal Register** Notice of Receipt of Request for Amendments to Delete Uses from the registrant listed in Table 2, to voluntarily amend to terminate uses of this product registration. This is the last product containing this pesticide registered for use in the United States. In the August 13, 2008 notice, EPA indicated that it would issue an order implementing the amendment to terminate uses, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of this request,

or unless the registrant withdrew the request within this period. The Agency did not receive any comments on the notice. Further, the registrant did not withdraw the request. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested amendment to terminate uses. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are effective January 9, 2013.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale,

distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2006-0243, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), EPA West Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPP Docket is (703) 305-5805. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

II. What action is the agency taking?

This notice announces the amendment to terminate uses, as requested by the registrant, of a product registered under FIFRA section 3. This registration is listed in Table 1 of this unit.

IV. Cancellation Order

Pursuant to FIFRA section 6(f), EPA hereby approves the requested amendment to terminate uses of 1-Methyl-3,5,7-Triaza-1-Azoniatricyclodecane Chloride (Busan 1024) registration identified in Table 1 of Unit II. Accordingly, the Agency orders that the product registration identified in Table 1 of Unit II. is hereby amended to terminate the affected uses. Any distribution, sale, or use of existing stocks of the product identified in Table 1 of Unit II. in a manner inconsistent with any of the Provisions for Disposition of Existing Stocks set forth in Unit VI. will be considered a violation of FIFRA.

VI. Provisions for Disposition of Existing Stocks

The Agency has authorized the registrants to sell or distribute product under the previously approved labeling for a period of 12 months after approval of the revision, unless other restrictions

III. Summary of Public Comments Received and Agency Response to Comments

During the public comment period provided, EPA received no comments in response to the August 13, 2008 **Federal Register** notice announcing the

have been imposed, as in special review actions.

EPA's existing stocks policy (56 FR 29362) provides that: "If a registrant requests to voluntarily cancel a registration where the Agency has identified no particular risk concerns, the registrant has complied with all applicable conditions of reregistration, conditional registration, and data call ins, and the registration is not subject to a Registration Standard, Label Improvement Program, or reregistration decision, the Agency will generally permit a registrant to sell or distribute existing stocks for 1 year after the cancellation request was received. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted."

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The effective date of this cancellation is January 9, 2013. The cancellation order that is the subject of this notice includes the following existing stock provisions:

The registrant may sell and distribute existing stocks of the product listed in Table 1 until January 9, 2014. Persons other than the registrant may sell and distribute existing stocks of the product listed in Table 1 until exhausted. Use of the product listed in Table 1 may continue until existing stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled product.

Availability of Draft Chemical Risk Assessments; Public Comment Opportunity

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: With this document, EPA is announcing the availability of and opening the 60-day public comment period for several draft chemical risk assessments. These draft risk assessments address five of the initial seven chemicals from the Agency's TSCA Work Plan identified on March 1, 2012, for assessment during 2012. The chemicals are antimony trioxide, methylene chloride, n-methylpyrrolidone, trichloroethylene, and 1,3,4,6,7,8-hexahydro-4,6,6,7,8,8-hexamethylcyclopenta[g]-2-benzopyran. Methylene chloride and n-methylpyrrolidone are included in a single docket because both assessments will be addressed by the same peer review panel. EPA is also asking the public for nominations of expert peer reviewers and to submit names with contact information (full name, address, affiliation, telephone, and email) within 30 days of the opening of this public comment period. The nominations of expert peer reviewers from the public will be relayed to the independent peer review contractor setting up the individual peer review panels. Public comments submitted on these draft risk assessments will be included in materials submitted to peer review panels for their reviews of the assessments after this public comment period closes.

DATES: Comments for nominations of peer reviewers must be received on or before February 8, 2013 and comments on the draft assessments and the charge questions for the external peer reviews must be received on or before March 11, 2013.

ADDRESSES: Submit your comments, identified by the docket identification (ID) number for the corresponding chemical risk assessment as identified in this document, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- *Mail:* Document Control Office (7407M), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001.

- *Hand Delivery:* OPPT Document Control Office (DCO), EPA East Bldg., Rm. 6428, 1201 Constitution Ave., NW., Washington, DC. ATTN: Docket ID Number [Please include the applicable docket ID number as identified in this document]. The DCO is open from 8

a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The telephone number for the DCO is (202) 564-8930. Such deliveries are only accepted during the DCO's normal hours of operation, and special arrangements should be made for deliveries of boxed information. To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.htm>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

SUPPLEMENTARY INFORMATION:

I. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including those interested in environmental and human health; the chemical industry; chemical users; consumer product companies and members of the public interested in the assessment of chemical risks. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

II. What authorities apply to this action?

In the Agency's February 2012 *TSCA Work Plan Chemicals Methods Document* (<http://www.epa.gov/oppt/existingchemicals/pubs/wpmethods.pdf>), released to the public on March 1, 2012, EPA described the two-step process the Agency used to identify potential candidate chemicals for near-term review and assessment under the Toxic Substances Control Act (TSCA) (15 U.S.C. 2601, *et seq.*). The Agency announced its intent to use the TSCA Work Plan to help focus and direct the activities of the Existing Chemicals Program in the Office of Pollution Prevention and Toxics (OPPT). EPA also identified an initial group of seven of the Work Plan Chemicals to begin assessment in 2012. EPA invited public comment throughout this process through a non-regulatory docket created for this activity, EPA-HQ-OPPT-2011-0516,
