In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purposes of this program are to (1) help address State-identified needs for highly qualified personnel in special education, related services, early intervention, and regular education to work with children, including infants and toddlers, with disabilities; and (2) ensure that those personnel have the necessary skills and knowledge, derived from practices that have been determined through scientifically based research and experience, to be successful in serving those children.

Priorities: This competition has one absolute priority and one competitive preference priority. In accordance with 34 CFR 75.105(b)(2)(iv), the absolute priority is from allowable activities specified in the statute (see sections 662 and 681 of the Individuals with Disabilities Education Act (IDEA)).

Absolute Priority: For FY 2013 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority. This priority is: Preparation of Special Education, Early Intervention, and Related Services Leadership Personnel.

Background: The purpose of the Preparation of Special Education, Early Intervention, and Related Services Leadership Personnel priority is to support programs that prepare special education, early intervention, and related services personnel at the graduate level who are well-qualified for, and can act effectively in, leadership positions in universities, State educational agencies (SEAs), lead agencies (LAs), local educational agencies (LEAs), early intervention services programs (EIS programs), or schools.

Over the last two decades, there has been a need for leadership personnel who are prepared at the doctoral and postdoctoral levels to fill faculty positions in special education, early intervention, and related services (Sindelar & Taylor, 1988; Smith & Lovett, 1987; Smith, Pion, & Tyler, 2004; Smith, Robb, West, & Tyler, 2010; Woods & Snyder, 2009). These leaders teach evidence-based practices to special education, early intervention, and related services professionals who...
work in a variety of educational settings and provide services directly to children and youth with disabilities. They also conduct research to increase the knowledge of effective interventions and services for these children (Smith et al., 2010).

State and local agencies also need leadership personnel who are prepared at the graduate level (i.e., master’s, education specialist, and doctoral degrees, depending on State certification requirements) to fill special education and early intervention administrator positions. These administrators supervise and evaluate the implementation of evidence-based instructional programs to make sure that State or local agencies are meeting the needs of children with disabilities. Administrators also ensure that schools and programs meet Federal, State, and local requirements for special education, early intervention, and related services (Lashley & Boscardin, 2003).

Federal support can increase the supply of personnel who have the necessary knowledge and skills to assume leadership positions in special education, early intervention, and related services in universities, SEAs, LAS, LEAs, EIS programs, or schools. Critical competencies for special education, early intervention, and related services personnel vary depending on the type of personnel and the requirements of the preparation program but can include, for example, skills needed for postsecondary instruction, policy development, professional practice, leadership, or research. However, all leadership personnel need to have current knowledge of effective interventions and services that improve outcomes for children with disabilities, including high-need children with disabilities.

Priority: The purpose of the Preparation of Special Education, Early Intervention, and Related Services Leadership Personnel priority is to support pre-existing degree programs that prepare special education, early intervention, and related services personnel at the graduate level who are well-qualified for, and can act effectively in, leadership positions in universities, SEAs, LAS, LEAs, EIS programs, or schools. This priority supports two types of programs:

Type A programs are designed to prepare special education, early intervention, or related services personnel to serve as higher education faculty. Type A programs culminate in a doctoral degree or provide postdoctoral learning opportunities.

Note: Preparation programs that lead to clinical doctoral degrees in related services (e.g., a Doctor of Audiology (AuD) degree or Doctor of Physical Therapy (DPT) degree) are not included in this priority. These types of preparation programs are eligible to apply for funding under the Personnel Preparation in Special Education, Early Intervention, and Related Services priority (CFDA 84.325K) that the Office of Special Education Programs (OSEP) intends to fund in FY 2013.

Type B programs are designed to prepare special education or early intervention administrators to work in SEAs, LAS, LEAs, EIS programs, or schools. Type B programs prepare personnel for positions such as SEA special education administrators, LEA or regional special education directors, school-based special education directors, preschool coordinators, and early intervention coordinators. Type B programs culminate in a master’s, education specialist, or doctoral degree.

Note: OSEP intends to fund in FY 2013 at least three high-quality applications proposing Type B programs and may fund applications out of rank order.

Note: The preparation of school principals is not included in this priority.

Note: Applicants must identify the specific program type, A or B, for which they are applying for funding as part of the competition title on the application cover sheet (SF form 424, item 15). Applicants may not submit the same proposal for more than one program type.

To be considered for funding under the Preparation of Special Education, Early Intervention, and Related Services Leadership Personnel absolute priority, all program applicants must meet the application requirements contained in the priority. All projects funded under the absolute priority also must meet the programmatic and administrative requirements specified in the priority. The requirements of this priority are as follows:

(a) Demonstrate, in the narrative section of the application, under “Significance of the Project” how—

(1) The project addresses national, State, or regional needs for leadership personnel to administer programs or provide, or prepare others to provide, interventions and services that improve outcomes of children with disabilities, ages birth through 21, including high-need children with disabilities; and

(ii) Provide data on the effectiveness of the program to date in areas such as: the effectiveness of program graduates as educators of teachers, service providers, or administrators, including any results from evaluating the impact of those teachers, service providers, or administrators on the outcomes of children with disabilities; the average amount of time it takes for program graduates to complete the program; the percentage of program graduates finding employment directly related to their pre-preparation; and the professional accomplishments of program graduates (e.g., public service, honors, or publications) that demonstrate their leadership in special education, early intervention, or related services; and

Note: Data on the effectiveness of a graduate program should be no older than five years prior to the start date of the project proposed in the application. When reporting percentages, the denominator (i.e., the total number of students) must be provided.

(2) Scholar competencies to be acquired in the program relate to knowledge and skills needed by the leadership personnel the applicant proposes to prepare, including knowledge of technologies designed to provide instruction. To address this requirement, the applicant must—

(i) Identify the competencies needed by leadership personnel in postsecondary instruction, administration, policy development, professional practice, leadership, or research in order to administer programs or provide, or prepare others to provide, interventions and services that improve outcomes of children with disabilities, ages birth through 21, including high-need children with disabilities; and

(ii) Provide the conceptual framework of the leadership preparation program, including any empirical support, that will promote the acquisition of the identified competencies needed by leadership personnel and, where applicable, how these competencies relate to the project’s specialized preparation area.

For purposes of this priority, “high-need children with disabilities” refers to children (ages birth through 21, depending on the State) who are eligible for services under IDEA, and who may be further disadvantaged and at risk of educational failure because they: (1) Are living in poverty, (2) are far below grade level, (3) are at risk of not graduating with a regular high school diploma on time, (4) are homeless, (5) are in foster care, (6) have been incarcerated, (7) are English learners, (8) are pregnant or parenting teenagers, (9) are new immigrants, (10) are migrant, or (11) are not on track to being college- or career-ready by graduation.
performing schools, including persistently lowest-achieving schools, priority schools (in the case of States that have received the Department’s approval of a request for ESEA flexibility), and early childhood programs located within the geographic boundaries of a high-need LEA; and

(iv) Demonstrate, through a letter of support from the partnering agency, school, or program, a relationship with one or more high-need LEAs; publicly funded preschool programs, including Head Start programs, located within the geographic boundaries of a high-need LEA; or programs serving children eligible for services under Part C or Part B, section 619 of IDEA located within the geographic boundaries of a high-need LEA that it has agreed to provide scholars with a high-quality internship or practicum experience in a school in a high-need LEA, publicly funded preschool, or early intervention program.

(v) Describe the approach the faculty members will use to mentor scholars with the goal of helping them acquire competencies needed by leadership personnel and promote career goals in special education, early intervention, or related services.

(c) Demonstrate, in the narrative section of the application, under “Quality of the Project Evaluation,” how—

(1) The applicant will evaluate the effectiveness of the proposed leadership project. The applicant must describe the outcomes to be measured for both the project and the scholars, particularly the acquisition of scholar competencies and their impact on the services provided by future teachers, service providers, or administrators; the evaluation methodologies to be employed, including proposed instruments, data collection methods, and possible analyses; and the proposed standards or targets for determining effectiveness;

(2) The applicant will collect and use data on current scholars and scholars who graduate from the program to improve the proposed program on an ongoing basis; and

(3) The grantee will report the evaluation results to OSEP in its annual and final performance reports.

(d) Include, in the narrative under “Required Project Assurances,” or appendices as directed, that the following program requirements are met. The applicant must—

(1) Include in the application appendix—

(i) Course syllabi for all coursework in the major and any required coursework for a minor;

(ii) Course syllabi for all research methods, evaluation methods, or data analysis courses required by the degree program and elective research methods, evaluation methods, or data analysis courses that have been completed by more than one student enrolled in the program in the last five years; and

(iii) For new coursework, proposed syllabi;

(2) Ensure that all scholars recruited into the program can graduate from the program by the end of the grant’s project period. The described scholar recruitment strategies, the program components and their sequence, and proposed budget must be consistent with this project requirement;
(3) Ensure that the project will meet the statutory requirements in section 662(e) through 662(h) of IDEA; 
(4) Ensure that at least 65 percent of the total requested annual budget will be used for scholar support or provide justification in the application narrative for any designation less than 65 percent. Examples of sufficient justification for proposing less than 65 percent of the budget for scholar support include—
   (i) A project servicing rural areas that provides long-distance coursework, and
   (ii) A project that expands or adds a new area of emphasis to special education, early intervention, or related services, and includes data on the need for the expansion and information on how these expanded or new areas will be sustained once Federal funding ends.
(5) Ensure that the institution will not require scholars enrolled in the program to work (e.g., as graduate assistants) as a condition of receiving a scholarship, unless the work is specifically related to the acquisition of scholars’ competencies and the requirements for completion of their personnel preparation program. Please note that this prohibition on work as a condition of receiving a scholarship does not apply to the service obligation requirements in section 662(h) of IDEA; 
(6) Ensure that the budget includes attendance of the project director at a three-day Project Directors’ meeting in Washington, DC, during each year of the project. The budget may also provide for the attendance of scholars at the three-day Project Directors’ meeting in Washington, DC; 
(7) Ensure that if the project maintains a Web site, relevant information and documents are in a format that meets government or industry-recognized standards for accessibility; and
(8) Ensure that annual data will be submitted on each scholar who receives grant support. Applicants are encouraged to visit the Personnel Development Program Scholar Data Report Web site at: http://oseppdp.ed.gov for further information about this data collection requirement. Typically, data collection begins in January of each year, and grantees are notified by email about the data collection period for their grant. This data collection must be submitted electronically by the grantee and does not supplant the annual grant performance report required of each grantee for continuation funding (see 34 CFR 75.590).

Competitive Preference Priority: Within this absolute priority, we give competitive preference to applications that meet the following priority. For FY 2013 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is a competitive preference priority. Under 34 CFR 75.105(c)(2)(i) we award an additional 5 points to an application that meets this priority. 
This priority is: Applicants for Type B programs that provide a syllabus or syllabi for a new or existing course, or series of courses, that show(s) that the course or courses include or will include: (1) A discussion of applicable research and evaluation findings on the use of data on early learning outcomes, student achievement, or growth in student achievement in evaluating the effectiveness of early intervention providers, related services providers, teachers, or principals; (2) methodological and statistical considerations in conducting an evaluation of the effectiveness of these personnel using data on early learning outcomes, student achievement, or growth in student achievement; and (3) an opportunity for scholars to review, critique, and, as appropriate, participate in one or more evaluations of the effectiveness of early intervention providers, related services providers, teachers, or principals.

V. Application Review Information

1. Selection Criteria: The selection criteria for this program are from 34 CFR 75.210 and are listed in the application package.

2. Review and Selection Process: We remind potential applicants that in reviewing applications in any discretionary grant competition, the Secretary may consider, under 34 CFR 75.217(d)(3), the past performance of the applicant in carrying out a previous award, such as the applicant’s use of funds, achievement of project objectives, and compliance with grant conditions. The Secretary may also consider whether the applicant failed to submit a timely performance report or submitted a report of unacceptable quality.

In addition, in making a competitive grant award, the Secretary also requires various assurances including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department of Education (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

3. Additional Review and Selection Process Factors: In the past, the Department has had difficulty finding peer reviewers for certain competitions because so many individuals who are eligible to serve as peer reviewers have conflicts of interest. The Standing Panel requires under section 682(b) of IDEA also have placed additional constraints on the availability of reviewers. Therefore, the Department has determined that for some discretionary grant competitions, applications may be separated into two or more groups and ranked and selected for funding within specific groups. This procedure will make it easier for the Department to find peer reviewers by ensuring that greater numbers of individuals who are eligible to serve as reviewers for any particular group of applicants will not have conflicts of interest. It also will increase the quality, independence, and fairness of the review process, while permitting panel members to review applications under discretionary grant competitions for which they also have submitted applications. However, if the Department decides to select an equal number of applications in each group for funding, this may result in different cut-off points for fundable applications in each group.

4. Special Conditions: Under 34 CFR 74.14 and 80.12, the Secretary may impose special conditions on a grant if the applicant or grantee is not financially stable; has a history of unsatisfactory performance; has a financial or other management system that does not meet the standards in 34 CFR parts 74 or 80, as applicable; has not fulfilled the conditions of a prior grant; or is otherwise not responsible.

VI. Award Administration Information

1. Award Notices: If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. Administrative and National Policy Requirements: We identify administrative and national policy
requirements in the application package and reference these and other requirements in the Applicable Regulations section of this notice.

We reference the regulations outlining the terms and conditions of an award in the Applicable Regulations section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. Reporting: (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive an award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/app/report/appforms.html.

4. Performance Measures: Under the Government Performance and Results Act of 1993 (GPRA), the Department has established a set of performance measures, including long-term measures, that are designed to yield information on various aspects of the effectiveness and quality of the Personnel Development to Improve Services and Results for Children with Disabilities Program. These measures include: (1) The percentage of projects that incorporate evidence-based practices into the curriculum; (2) the percentage of scholars completing Personnel Development to Improve Services and Results for Children with Disabilities-funded programs who are knowledgeable and skilled in evidence-based practices for children, including infants and toddlers, with disabilities; (3) the percentage of Personnel Development to Improve Services and Results for Children with Disabilities-funded scholars who exit preparation programs prior to completion due to poor academic performance; (4) the percentage of Personnel Development to Improve Services and Results for Children with Disabilities-funded degree/certification recipients who are working in the area(s) in which they were prepared upon program completion; (5) the percentage of Personnel Development to Improve Services and Results for Children with Disabilities-funded degree/certification recipients who are working in the area(s) for which they were prepared upon program completion and are fully qualified under IDEA; (6) the percentage of Personnel Development to Improve Services and Results for Children with Disabilities degree/certification recipients who maintain employment for three or more years in the area(s) for which they were prepared and who are fully qualified under IDEA; and (7) the Federal cost per fully qualified degree/certification recipient.

Grantees may be asked to participate in assessing and providing information on these aspects of program quality.

5. Continuation Awards: In making a continuation award, the Secretary may consider, under 34 CFR 75.253, the extent to which a grantee has made “substantial progress toward meeting the objectives of the approved application.” This consideration includes the review of a grantee’s progress in meeting the targets and projected outcomes in its approved application, and whether the grantee has expended funds in a manner that is consistent with its approved application and budget. In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).
