Specific Exemption: EPA authorized the use of fipronil on turnip and rutabaga to control cabbage maggot; July 20, 2012 to September 30, 2012. In accordance with 40 CFR 166.24, a notice of receipt published in the **Federal Register** on May 1, 2012 (77 FR 84) (FRL-9344-3), to allow for public comment since the request proposed a use which is IR-4-supported, has been requested in 5 or more previous years, and a petition for tolerance has not been submitted to the Agency. The public comment period ended on May 16, 2012. No substantial comments were received. The rationale for emergency approval of this use is that no suitable insecticides are available to control the cabbage maggot in turnip and rutabaga production and significant economic losses will occur if this pest is not controlled. *Contact:* Andrea Conrath.
