SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (e.g., an employee filing a retaliation complaint) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate.

The Agency is responsible for investigating alleged violations of "whistleblower" provisions contained in a number of statutes. These whistleblower provisions generally prohibit retaliation by employers against employees who report alleged violations

of certain laws or regulations. Accordingly, these provisions prohibit an employer from discharging or taking any other retaliatory action against an employee because the employee engages in any of the protected activities specified by the whistleblower provisions of the statutes. These statutes are covered under the following regulations: 29 CFR part 24, Procedures for the Handling of Retaliation Complaints under the Employee Protection Provisions of Six Environmental Statutes and Section 211 of the Energy Reorganization Act of 1974, As Amended (29 CFR part 24 covers the: Safe Drinking Water Act, 42 U.S.C. 300j–9(i); Federal Water Pollution Control Act, 33 U.S.C. 1367; Toxic Substances Control Act, 15 U.S.C. 2622; Solid Waste Disposal Act, 42 U.S.C. 6971; Clean Air Act, 42 U.S.C. 7622; Energy Reorganization Act of 1974, 42 U.S.C. 5851; and Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. 9610); 29 CFR part 1977, Discrimination Against Employees Exercising Rights under the Williams-Steiger Occupational Safety and Health Act (29 CFR part 1977 covers the: Occupational Safety and Health Act, 29 U.S.C. 660; Asbestos Hazard Emergency Response Act, 15 U.S.C. 2651; and International Safe Container Act, 46 U.S.C. 80507); 29 CFR part 1978, Procedures for the Handling of Retaliation Complaints under the Employee Protection Provision of the Surface Transportation Assistance Act of 1982; 29 CFR part 1979, Procedures for Handling Discrimination Complaints Under the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century; 29 CFR part 1980, Procedures for Handling of Discrimination Complaints Under Section 806 of the Corporate and Criminal Fraud Accountability Act of 2002 (Title VIII of the Sarbanes-Oxley Act of 2002); 29 CFR part 1981, Procedures for the Handling of Discrimination Complaints under Section 6 of the Pipeline Safety and Improvement Act of 2002; 29 CFR part 1982, Procedures for the Handling of Retaliation Complaints Under the National Transit Systems Security Act and the Federal Railroad Safety Act; and 29 CFR Part 1983, Procedures for the Handling of Retaliation Complaints Under Section 219 of the Consumer Product Safety Improvement Act of 2008.

In addition, OSHA investigates complaints of retaliation filed under the following recently-enacted whistleblower provisions: The Affordable Care Act, 29 U.S.C. 218C; the

Consumer Financial Protection Act, Section 1057 of the Dodd Frank Wall Street Reform and Consumer Protection Act, Public Law 111–203; the Seaman’s Protection Act, 46 U.S.C. 2114, as amended by Section 611 of the Coast Guard Authorization Act of 2010, Public Law 111–281; Section 402 of the FDA Food Safety and Modernization Act, Public Law 111–353; and Section 31307 of the Moving Ahead for Progress in the 21st Century Act, 49 U.S.C. 30171. These statutory provisions are included in the existing ICR. Information collection requirements contained in future regulations promulgated by the Agency with respect to a whistleblower provision of any other Federal law, except those that are assigned to another DOL agency, will be added to this information collection.

OSHA’s whistleblower regulations specify the procedures that an employee must use to file a complaint alleging that their employer violated a whistleblower provision for which the Agency has investigative responsibility. Any employee who believes that such a violation occurred may file a complaint, or have the complaint filed on their behalf. Two of these regulations, 29 CFR parts 1979 and 1981, state that complaints must be filed in writing and should include a full statement of the acts and omissions, with pertinent dates, that the employee believes constitute the violation. The other regulations, 29 CFR parts 24, 1977, 1978, 1980, 1982, and 1983, require no particular form of filing for complaints. However, it is OSHA’s policy to accept complaints in any form (*i.e.* orally or in writing) under all statutes. This policy helps ensure that employees of all circumstances and education levels will have equal access to the complaint filing process.

OSHA proposes to revise this ICR to include a new form, titled, “Notice of Whistleblower Complaint” (OSHA8–60.1), that will provide additional methods for employees to submit complaints of retaliation to OSHA: Either by submitting the form electronically directly through the Internet; or by downloading, completing and submitting the form to OSHA by fax, mail, or hand-delivery. The proposed form will enable workers to electronically submit whistleblower complaints directly to OSHA 24-hours a day, which will provide workers with greater flexibility for meeting statutory filing deadlines. Additionally, by streamlining the Agency’s electronic complaint filing process, the form will reduce the Agency’s complaint processing time, which will improve the

quality of the customer service that the Agency can offer the public.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency’s functions, including whether the information is useful;
- The accuracy of OSHA’s estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on individuals who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB approve the proposed revision of the information collection requirements contained in OSHA’s statutory authorities and the regulations containing procedures for handling retaliation complaints at 29 CFR parts 24, 1978, 1979, 1980, 1981, 1982, and 1983.¹ Specifically, this revision contains a new information collection instrument, a form, which employees may use to file complaints. In addition, OSHA is requesting an adjustment increase in burden hours from 2,503 burden hours to 2,686 burden hours (a total increase of 183 hours). The adjustment increase is due to updated data showing an increase in the annual number of complaints filed. The Agency will summarize the comments submitted in response to this notice, and will include this summary in the request to OMB.

Type of Review: Revision of a currently approved collection.

Title: Regulations Containing Procedures for Handling Retaliation Complaints.

OMB Number: 1218–0236.

Affected Public: Individuals.

Number of Respondents: 2,686.

Frequency of Response: Once per complaint.

Average Time per Response: 1 hour.

Estimated Total Burden Hours: 2,686.

Estimated Cost (Operation and Maintenance): \$0.

¹ Several of these regulations use the term “discrimination” or “discrimination complaints” in their titles. These terms are synonymous with “retaliation” and “retaliation complaints,” respectively.

OFFICE OF NATIONAL DRUG CONTROL POLICY

Information Collection; Paperwork Reduction Act; 60-Day Notice

AGENCY: Office of National Drug Control Policy.

ACTION: 60-Day Notice of Information Collection; Public Comment.

Pursuant to the Paperwork Reduction Act and in accordance with 5 CFR 1320.10, the Office of National Drug Control Policy (ONDCP), Executive Office of the President, submits the following information collection request for review and approval by the Office of Management and Budget.

Overview of the information collection activity:

(1) *Type of Information Collection:* New Collection.

(2) *Title of the Form/Collection:* Arrestee Drug Abuse Monitoring (ADAM II) Program Questionnaire.

(3) ONDCP Form Number 3201–0016. Office of National Drug Control Policy.

(4) *Affected public:* A probability based sample of persons arrested in selected booking facilities in five U.S. counties. Data is collected during a 3-week period in each county. The total effort will be conducted within three months.

Abstract: The ADAM II survey will collect data concerning the personal drug use, drug and alcohol treatment, arrests, and drug market participation of the arrestee. Data will be collected from a sample of 350 arrestees in each of the five counties. Data collected include a personal interview and urine specimen taken within 48 hours of arrest. Participation is voluntary and confidential.

Key study goals are to:

(1) Provide data on drug use in particular areas of the county that is directly comparable to data collected from 2000–20003 in ADAM;

(2) Obtain consistent data collection points to support statistical trend analysis for the use of heroin, cocaine, crack, marijuana and methamphetamine;

(3) Provide data used to support the Office of National Drug Control Policy's efforts to estimate chronic drug use and examine market behavior;

(4) Estimate of the total number of respondents and the average respondent burden: The estimated number of respondents is 1750, 350 per data collection cycle in five sites. Based on the prior ADAM data collection information and estimates of any instrument changes, it is estimated that the survey will take an average of approximately 26 minutes to complete.

Estimate of the total public burden (in hours) associated with this collection: An estimated 765 hours of public burden is associated with this collection.

Written comments and suggestions from the public and affected agencies concerning proposed collection of information are encouraged. Your comments should address one or more of the following four points:

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

You may submit comments to, or request additional information from, Fe Caces, Office of National Drug Control Policy, Washington, DC 20503 or by email to MCaces@ONDCP.EOP.GOV.
