AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Forest Service will prepare an Environmental Impact Statement (EIS) on a proposal to accomplish vegetation management in the Beaver Creek Resource Area, which is located on National Forest System lands administered by the Idaho Panhandle National Forests in Shoshone County, Idaho.

The proposed action would include timber harvest (commercial thin, shelterwood, improvement cut, and seed tree treatments); hazardous fuels treatment (underburning, jackpot burning, mastication, grapple piling and yarding tops associated with the timber harvest); prescribed burning not associated with timber harvest; and watershed restoration (decommissioning roads currently not open to motorized use, upgrading aquatic organism passage barriers; and road construction (both permanent and temporary). Other activities included in the proposed action are road storage, road reconstruction and maintenance, site preparation, reforestation, and fuel break development.

This project is designed to achieve the goals of enhanced forest stand resilience and resistance, hazardous fuel reduction, and restoration of water quality and aquatic habitats.

DATES: Comments concerning the scope of the analysis must be received by February 21, 2013. Additional opportunity for formal comments will be accepted after release of the Draft Environmental Impact Statement (DEIS), which is expected to be published in April 2013.
