The public review draft of EPA's *Climate Change Adaptation Plan* has been posted to a public docket and is available on the Agency docket Web site at this URL address: <http://www.epa.gov/dockets/index.htm>. It is Docket Number EPA–HQ–OA–2012–0247.

SUPPLEMENTARY INFORMATION: EPA is working to fulfill its mission to protect human health and the environment. Many of the goals EPA is working to attain (e.g., clean air, safe drinking water) are sensitive to changes in weather and climate. Until now, EPA has been able to assume that climate is relatively stable and future climate would mirror past climate. However, with climate changing at an increasingly rapid rate and outside the range to which society has adapted in the past, climate change is posing new challenges to EPA's ability to fulfill its mission.

This Plan will help guide the Agency to prepare for future changes in climate and to incorporate considerations of climate change into its mission-driven activities. Climate adaptation planning will help EPA continue to fulfill its mission of protecting human health and the environment even as the climate changes.

EPA considers public input to be essential for the development of this *Plan*. This input will also help the Agency strengthen its partnerships with states, tribes, local communities, and non-governmental organizations—many of which have already begun to develop and implement adaptation measures.
