

SUPPLEMENTARY INFORMATION: See the “Additional Information” section for information on how to comment on this proposal and how the FAA will handle comments received. The “Additional Information” section also contains related information about the docket. In addition, there is information on obtaining copies of related rulemaking documents.

Background

On November 13, 2012, the FAA issued Notice No. 12–07, entitled “Air Carrier Contract Maintenance Requirements” (77 FR 67584). Comments to that document were to be received on or before February 11, 2013.

By letter dated January 13, 2013, the Regional Air Cargo Carriers Association (RACCA) requested a 48-day extension of the comment period, to March 31, 2013. The petitioner requested this extension to allow time to adequately assess the impact of the requirements proposed in the NPRM, prepare comments, and develop proposed alternatives. If enacted in its currently-proposed form, RACCA believes the proposed rulemaking would result in significant unintended consequences, including greater operator cost and manpower requirements than those estimated in the NPRM, loss of efficiency, unbudgeted loss of aircraft availability, and a substantial additional workload for the FAA that would result in a diversion of FAA resources from more safety-critical tasks. It further believes that the rulemaking would add complication to the contract maintenance process without a quantifiable improvement in safety, and therefore it would not serve the public’s interest.

While the FAA concurs with the petitioner’s request for an extension of the comment period on Notice No. 12–07, it does not support a 48-day extension. The FAA finds that an additional 30 days is sufficient for the petitioner to analyze the NPRM and provide meaningful comment to Notice No. 12–07.

Absent unusual circumstances, the FAA does not anticipate any further extension of the comment period for this rulemaking.

Extension of Comment Period

In accordance with § 11.47(c) of Title 14, Code of Federal Regulations, the FAA has reviewed the petition made by RACCA for extension of the comment period to Notice No. 12–07. This petitioner has shown a substantive interest in the proposed rule and good cause for the extension. The FAA has determined that extension of the

comment period is consistent with the public interest, and that good cause exists for taking this action.

Accordingly, the comment period for Notice No. 12–07 is extended until March 13, 2013.

Please explain why you believe a public meeting would be beneficial. B. Regulatory History and Information

The Coast Guard previously created a temporary special local regulation for this event when it was held in 2012. That rule was published in the **Federal Register** on March 14, 2012 (77 FR 14963), and the requirements of that rule are the same as those in this proposed rule.

C. Basis and Purpose

The Moss Point Main Street Association applied for a Marine Event Permit to conduct a high speed boat race on Robertson Lake & O’Leary Lake, Moss Point, MS on April 27–28, 2013. This event will draw in a large number of pleasure craft and the high speed boats pose a significant safety hazard to both vessels and mariners operating in or near the area. The COTP Mobile proposes to establish a temporary special local regulation for a portion of Robertson Lake & O’Leary Lake, Moss Point, MS. This proposed temporary special local regulation is deemed necessary to safeguard persons and vessels during the high speed boat races. The legal basis and authorities for this proposed rule are found in 33 U.S.C. 1233 and 33 CFR part 100, which authorizes the Coast Guard to propose, establish, and define regulatory special local regulations for safety during marine events.

The COTP anticipates minimal impact on vessel traffic due to this proposed regulation. However, the proposed temporary special local regulation is deemed necessary for the safeguard of life and property within the COTP Mobile zone.

D. Discussion of Proposed Rule

The Coast Guard proposes to establish a temporary special local regulation for a portion of Robertson Lake & O’Leary Lake, Moss Point, MS, enclosed by a bounded area starting at a point on the shore at approximately 30° 25’ 11.0” N, 088 32’ 24.4” W, then east to 30° 25’ 12.9” N, 088 32’ 18.0” W, then south to 30° 24’ 50.9” N, 088 32’ 09.6” W, then west following the shore line back to the starting point at 30° 25’ 11.0” N, 088 32’ 24.4” W. This temporary rule will safeguard life and property in this area. Entry into, transiting or anchoring in this zone is prohibited to all vessels not registered with the sponsor as participants or not part of the regatta patrol, unless specifically authorized by the COTP Mobile or a designated representative. They may be contacted on VHF-FM Channel 16 or through Coast Guard Sector Mobile at 251-441-5976.

The COTP Mobile or a designated representative will inform the public through broadcast notice to mariners of changes in the effective period for the proposed temporary special local regulation. This proposed rule will be effective from 11:00 a.m. until 4:00 p.m. on April 27–28, 2013.

E. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and

executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes or executive orders.

1. Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders.

The temporary special local regulation listed in this proposed rule will only restrict vessel traffic from entering or transiting a small portion of Robertson Lake & O'Leary Lake, Moss Point, MS. The effect of this regulation will not be significant for several reasons: (1) This rule will only affect vessel traffic for a short duration; (2) vessels may request permission from the COTP to transit through the regulated area; and (3) the impacts on routine navigation are expected to be minimal. Notifications to the marine community will be made through Local Notice to Mariners and Broadcast Notice to Mariners. These notifications will allow the public to plan operations around the affected area.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule will not have a significant economic impact on a substantial number of small entities. This proposed rule will affect the following entities, some of which may be small entities: the owners or operators of vessels intending to transit or anchor in the affected portion of the Robertson Lake & O'Leary Lake during the high speed boat races. This proposed temporary special local regulation will not have a significant economic impact on a substantial number of small entities for the following reasons. The regulated area is limited in size, is of short duration and vessel traffic may request permission

from the COTP Mobile or a designated representative to enter or transit through the regulated area.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this proposed rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this proposed rule would economically affect it.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule. If the proposed rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT**, above. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

4. Collection of Information

This proposed rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a

State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such expenditure, we do discuss the effects of this proposed rule elsewhere in this preamble.

8. Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children From Environmental Health Risks

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This proposed rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

11. Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This proposed rule is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01

and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves safety for the public and is not expected to result in any significant adverse environmental impact as described in NEPA. This rule is categorically excluded from further review under paragraph 34(h) of Figure 2–1 of the Commandant Instruction. A preliminary environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.
