Beazer East, Inc.* Civil Action No. 1:13cv29-SPM-GRJ.

Pursuant to Sections 106 and 107(a) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. 9606, 9607(a), the United States' complaint sought to recover costs it has incurred and will incur in response to the release and threatened release of hazardous substances at or from the Cabot/Koppers Superfund Site, located in the City of Gainesville, Alachua County, Florida (the Site). The United States also sought an Order enjoining the Defendant to perform the remedial action at the Site selected by EPA in the Amended Record of Decision dated February 2011 (Amended ROD) and included as Appendix A to the Decree.

The United States has agreed to resolve the claims alleged in the complaint through the proposed Consent Decree in which Beazer will perform the Amended ROD at the Site. In the Decree, Beazer has also agreed to pay all of EPA's future costs including oversight costs. The United States covants not to sue under CERCLA Sections 106 and 107 relating to the Site subject to statutory reopeners.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accord with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the extent possible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The collections of information contained in the Walking and Working Surfaces Standard for General Industry are necessary to protect workers from the collapse of overloaded floors, outrigger scaffolds, and failure of defective portable metal ladders. The following describes the information collection requirements in subpart D:
