Tires involved: Affected are approximately 4,291 size ST235/ 85R16/ 14 ply Samson and Advance brand ST Trailer Tires manufactured from December 4, 2011 through March 31, 2012.

Noncompliance: GTC explains that the noncompliance is that, due to a mold labeling error, the sidewall marking on the tires incorrectly identifies the load range as "F" when in fact it should be "G".

Summary of GTS's Analysis and Arguments

GTC states that while the tire sidewall labeling incorrectly identifies the load range as "F" when in fact it should be identified as "G" it does not pose a safety issue because if a consumer followed the load range "F" designation they would actually fall below the actual recommended load carrying capacity. Since the tire load range designation "F" falls below the actual recommended load carrying capacity, the tires will perform without incident causing no safety issue.

GTC also stated that all other required sidewall markings are present and correct.

GTC has additionally informed NHTSA that it has stopped production of the subject tires, is correcting the tire molds so that the subject noncompliance does not occur in future production, and has notified dealers to discontinue selling the tires.

In summation, GTC believes that the described noncompliance of its tires is inconsequential to motor vehicle safety, and that its petition, to exempt from providing recall notification of noncompliance as required by 49 U.S.C. 30118 and remedying the recall noncompliance as required by 49 U.S.C. 30120 should be granted.

NHTSA Decision

The primary safety purpose of requiring the load range label on a motor vehicle tire is to ensure that the

end-users can select a tire load range appropriate for their vehicles. The absence of the vehicle label specifying the tire load range would likely result in an improper tire selection by the tire dealer or vehicle owner. In this case, GTC understated the load carrying capability of the tire. GTC's tire, in effect, is has more load carrying capability than the label would indicate to the end-user. The agency agrees with GTC's rational that a vehicle equipped with the subject tires and loaded per the incorrect maximum load rating would not cause an unsafe condition, because the end-user would carry a lighter load than the load for which the tires are designed.

In consideration of the foregoing, NHTSA has decided that GTC has met its burden of persuasion that the FMVSS No. 119 noncompliance in the tires identified in GTC's Noncompliance Information Report is inconsequential to motor vehicle safety. Accordingly, GTC's petition is granted and the petitioner is exempted from the obligation of providing notification of, and a remedy for, that noncompliance under 49 U.S.C. 30118 and 30120.

NHTSA notes that the statutory provisions (49 U.S.C. 30118(d) and 30120(h)) that permit manufacturers to file petitions for a determination of inconsequentiality allow NHTSA to exempt manufacturers only from the duties found in sections 30118 and 30120, respectively, to notify owners, purchasers, and dealers of a defect or noncompliance and to remedy the defect or noncompliance. Therefore, this decision only applies to the tires¹ that GTC no longer controlled at the time that it determined that a noncompliance existed in the subject vehicles.

Authority: (49 U.S.C. 30118, 30120; delegations of authority at 49 CFR 1.95 and 501.8).

BILLING CODE 4910-59-P

¹ GTC's petition, which was filed under 49 CFR Part 556, requests an agency decision to exempt GTC as a manufacturer from the notification and recall responsibilities of 49 CFR Part 573 for the affected tires. However, the decision on this petition does not relieve distributors and dealers of the prohibitions on the sale, offer for sale, or introduction or delivery for introduction into interstate commerce of the noncompliant tires under their control after GTC notified them that the subject noncompliance existed.

Internal Revenue Service

Proposed Collection; Comment Request for Form 14420

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice and request for comments.

SUMMARY: The Department of the Treasury, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C.

3506(c)(2)(A)). Currently, the IRS is soliciting comments concerning Form 14420, Verification of Reported Income.

DATES: Written comments should be received on or before April 26, 2013 to be assured of consideration.

ADDRESSES: Direct all written comments to Yvette Lawrence, Internal Revenue Service, Room 6129, 1111 Constitution Avenue NW., Washington, DC 20224.

SUPPLEMENTARY INFORMATION:

Title: Verification of Reported Income.

OMB Number: 1545-2236.

Form Number: Form 14420.

Abstract: The Pilots are aimed at determining the best method for and value of using the new Form 1099-K information to identify and treat non-compliance. This is expected to result in the identification of many new cases of gross receipts underreporting. As a result, this effort will also test new treatment streams to allow the IRS to work these cases. One of these treatment streams is a new notice process. Requesting the books and records needed to verify the gross receipts discrepancy through a notice process would result in extensive taxpayer burden. Instead, the taxpayer can fill out this form, which requests the minimum information needed for us to refine our analysis of the taxpayer's return and determine if there are any reporting errors/business characteristics that may explain their outlier reported figures.

Current Actions: There are no changes being made to this form at this time.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses and other for-profit organizations, Individuals or Households.

Estimated Number of Respondents: 5,600.

Estimated Time per Respondent: 4 hours.

Estimated Total Annual Burden Hours: 22,400.
