### Federal Railroad Administration

[Docket No. FRA-1999-5102]

#### Petition for Extension of Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated February 1, 2012, the Southeastern Pennsylvania Transportation Authority (SEPTA) has petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 213, Track Safety Standards. The docket number associated with this petition is FRA-1999-5102.

Specifically, SEPTA seeks to extend a waiver from 49 CFR 213.233(c), relating to the frequency of the required visual track inspections. FRA issued the initial waiver that granted SEPTA relief on July 24, 2000, and FRA extended the waiver on August 4, 2003, and February 28, 2008.

SEPTA requests an extension of approval to reduce the frequency of required, visual track inspections for certain tracks that carry passenger traffic, specifically only those tracks that are constructed with continuous welded rail. SEPTA proposes to conduct one visual track inspection per week, instead of the two inspections per week that are required in 49 CFR part 213, and to supplement its visual inspections with the operation of an automated track geometry measuring vehicle over the affected main tracks and sidings four times per year. SEPTA has owned and operated such a measuring vehicle since 1990.

### Federal Railroad Administration

[Docket Number FRA-2009-0077]

#### Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations, this document provides the public notice that by a document dated December 5, 2011, the Central California Traction Company (CCT) and the United Transportation Union (UTU) have jointly petitioned the Federal Railroad Administration (FRA) for an extension of their waiver of compliance from certain provisions of the Federal hours of service laws contained at 49 U.S.C. 21103(a)(4). FRA assigned the petition Docket Number FRA-2009-0077.

In their petition, CCT and UTU seek relief from 49 U.S.C. 21103(a)(4), which, in part, requires a train employee to receive 48 hours off duty after initiating an on-duty period for 6 consecutive days. Specifically, CCT and UTU seek an extension of the existing waiver to allow a train employee to initiate an on-duty period for 6 consecutive days followed by 24 hours off duty. In support of their request, CCT explained that the waiver allows for better flexibility and responsiveness to its customers, and that FRA inspectors monitoring CCT's operations have found no violations of the regulations. CCT also stated that this type of schedule has not compromised rail safety.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](http://www.regulations.gov) and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.
