SUPPLEMENTARY INFORMATION:

2001 Approval of Maine's Base NPDES Permitting Program

On December 17, 1999, EPA determined that the State of Maine had submitted a complete application to administer the National Pollutant Discharge Elimination System (NPDES) permitting program in the state under the Clean Water Act (CWA). 33 U.S.C. 1251, *et seq.*, see 64 FR 73552 (Dec. 30, 1999). Maine's application included an assertion of authority to implement the program in the territories of the federally-recognized Indian tribes within the state, based on the jurisdictional provisions of the Maine Indian Claims Settlement Act (MICSA), which ratified the Maine Implementing Act (MIA). 25 U.S.C. 1721, *et seq.* and 30 M.R.S.A. § 6201, *et seq.*, respectively.

On January 12, 2001, EPA approved the State of Maine's application to administer the NPDES program for all areas of the state other than Indian country. At that point EPA did not take any action on Maine's application to administer the program within the territories of the federally-recognized Indian tribes in Maine. EPA published notice of its action on February 28, 2001. 56 FR 12791. As described in the **Federal Register**, EPA approved the state's application to administer both the NPDES permit program covering point source dischargers and the pretreatment program covering industrial dischargers into publicly owned treatment works (POTWs). EPA did not authorize the state to regulate cooling water intake structures under CWA section 316(b) (33 U.S.C. 1326(b)). 56 FR at 12792.
