#### Cyromazine, Silica Silicates (Silica Dioxide and Silica Gel), Glufosinate Ammonium, Dioctyl Sodium Sulfosuccinate (DSS) and Undecylenic Acid (UDA) Registration Review; Draft Human Health and Ecological Risk Assessments; Notice of Availability

**AGENCY**: Environmental Protection Agency (EPA).

**ACTION**: Notice.

**SUMMARY**: This notice announces the availability of EPA's draft human health and ecological risk assessments for the registration review of cyromazine, silica silicates (silica dioxide and silica gel), glufosinate ammonium, dioctyl sodium sulfosuccinate (DSS) and undecylenic acid (UDA) and opens a public comment period on these documents. Registration review is EPA's periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory standard for registration, that is, the pesticide can perform its intended function without unreasonable adverse effects on human health or the environment. As part of the registration review process, the Agency has completed draft risk assessments for each of the subject chemicals and is making them available for public comment. After reviewing comments received during the public comment period, EPA will issue a revised risk assessment, if appropriate, explain any changes to the draft risk assessment, and respond to comments and may request public input on risk mitigation. Through this program, EPA is ensuring that each pesticide's registration is based on current scientific and other knowledge, including its effects on human health and the environment.

**DATES**: Comments must be received on or before May 6, 2013.

**ADDRESSES**: Submit your comments, identified by the docket identification (ID) number for the specific pesticide of interest provided in the table in Unit III., by one of the following methods:

- *Federal eRulemaking Portal*: <http://www.regulations.gov>. Follow the online instructions for submitting comments.
