

DEPARTMENT OF TRANSPORTATION**Pipeline and Hazardous Materials Safety Administration****[Docket No. PHMSA–2013–0017; Notice No. 13–02]****Hazardous Materials Packaging—Composite Cylinder Standards; Public Meeting**

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), Department of Transportation.

ACTION: Notice of public meeting.

SUMMARY: This notice is to advise interested persons that PHMSA will conduct a public meeting to provide further clarification regarding PHMSA's intent to modify certain special permits in accordance with 49 CFR 107.121. These special permits authorize the manufacture, marking, sale and use of non-DOT specification composite cylinders. The non-DOT specification cylinders authorized by PHMSA's special permits conform to the basic requirements for fiber reinforced plastic (DOT-FRP) or fully wrapped carbon-fiber reinforced aluminum lined cylinders (DOT-CFFC) standards. PHMSA believes that these special permits should be modified to reflect the appropriate International Standards Organization (ISO) standards for composite cylinders ISO 11119 Parts –1, –2, –3 incorporated by reference into the Hazardous Materials Regulations (HMR).

DATES: The meeting will be held on Thursday, April 18, 2013, from 9 a.m. to 3 p.m. Questions, comments, or recommendations must be submitted by April 4, 2013 to be considered at the public meeting.

ADDRESSES: The meeting will be held at the DOT Headquarters, West Building, Oklahoma City Conference Room, 1200 New Jersey Avenue SE., Washington, DC 20590. The main visitor's entrance is located in the West Building, on New Jersey Avenue and M Street. Upon entering the lobby, visitors must report to the security desk. Visitors should indicate that they will be attending the Composite Cylinder Standards Public Meeting and wait to be escorted to the Conference Center.

Written Comments: PHMSA invites interested parties, whether or not they attend the public meeting to submit any relevant data or information to the docket of this proceeding (PHMSA–2013–0017) by any of the following methods:

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Fax:* 1–202–493–2251.

- *Mail:* Docket Management System; US Department of Transportation, West Building, Ground Floor, Room W12–140, Routing Symbol M–30, 1200 New Jersey Avenue SE., Washington, DC 20590.

- *Hand Delivery:* To the Docket Management System; Room W12–140 on the ground floor of the West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Instructions: All submissions must include the agency name and docket number for this notice at the beginning of the comment. To avoid duplication, please use only one of these four methods. All comments received will be posted without change to the Federal Docket Management System (FDMS), including any personal information.

Docket: For access to the dockets to read background documents or comments received, go to <http://www.regulations.gov> or DOT's Docket Operations Office (see **ADDRESSES**).

Privacy Act: Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the document (or signing the document, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477) which may be viewed at <http://www.gpo.gov/fdsys/pkg/FR-2000-04-11/pdf/00-8505.pdf>.

Registration: Any person wishing to participate in the public meeting should send an email to specialpermits@dot.gov and include their name and contact information (Organization/Address/Telephone Number) no later than the close of business on April 9, 2013. Please indicate whether you plan to attend on-site or by conference call. To expedite processing please include "Composite Cylinder Standards; Public Meeting" as the email subject. Failure to preregister may delay access to the building and call in information. Attendees are encouraged to arrive early to allow time for security checks necessary to obtain access to the building.

Conference Call Capability/Live Meeting Information: Remote access/call-in information will be located at <http://phmsa.dot.gov/hazmat/permits-approvals/special-permits>.

SUPPLEMENTARY INFORMATION:**I. Background**

On June 4, 2012, PHMSA sent a letter proposing to modify all special permits that authorize the manufacture, marking, sale and use of DOT-FRP and DOT-CFFC cylinders to reflect the standards outlined in the appropriate ISO 11119 standards. PHMSA proposed to modify these special permits to reflect the ISO 11119 standards, which has been incorporated in to the HMR, rather than DOT-FRP and DOT-CFFC standards that are not referenced in the HMR. If a grantee cannot manufacture, mark, sale and use a cylinder identical to that authorized in the current special permit, relief would be provided based upon deviations of the ISO-11119 standards. The goal of this proposal is to update the special permits to reflect current regulations. PHMSA intends to allow continued manufacturing of DOT-FRP or DOT-CFFC cylinders under existing special permits, without affecting the service life of cylinders already manufactured or adding any additional testing requirements. However, in the future, any relief provided by a special permit will be an exemption from the ISO 11119 standards. A transitional provision will be provided for adequate adjustment to the proposed modification. Currently, an application submitted in accordance with § 107.105 requesting the manufacture, marking, sale and use of DOT-FRP and DOT-CFFC cylinders would be denied in accordance with § 107.113, and the applicant would be required to submit a new application for a special permit seeking relief from the ISO 11119 standard.

A copy of the June 4, 2012 letter can be found in the docket. PHMSA proposed to modify the following special permits: 7218 7235 7277 8023 8059 8162 8391 8718 8725 8814 8965 9634 9716 9894 10019 10147 10664 10905 10915 10945 10970 11005 11194 11382 12706 13105 13173 13381 13583 14003 14154 14266 14339 14387 14509 14562 14576 14621 14787 14932 15260.

The composite cylinder standards referenced in § 178.71 of the HMR, ISO 11119 Parts-1, -2 and -3, contain design, construction and testing requirements that are similar to the DOT-FRP, and DOT-CFFC standards. For more information, and a comparison between

ISO 11119 standards and DOT-FRP and DOT-CFFC standards, please go to <http://phmsa.dot.gov/hazmat/permits-approvals/special-permits>.

II. Public Meeting Topics

During this public meeting, PHMSA will discuss the following topics; (i) design and testing differences between DOT-FRP, DOT-CFFC and ISO 11119 standards, (ii) when cylinders authorized under the current special permits should be manufactured in accordance with or based upon ISO 11119 standards; (iii) a proposal in which these special permits are modified to provide relief from applicable provisions of ISO 11119.

Prior to this public meeting, PHMSA would like the stakeholders to define and submit to the docket the design testing and manufacturing differences between ISO 11119 standards and relevant DOT-FRP and DOT-CFFC standards and what would be affected if we modified the special permit as proposed. PHMSA will not take action on our proposed modification until the merit of the comments received through this notice and public meeting has been reviewed.

Issued in Washington, DC, on March 7, 2013.

R. Ryan Posten,

Deputy Associate Administrator for Hazardous Materials Safety.

Pipeline and Hazardous Materials Safety Administration

[Docket No. PHMSA-2013-0019; Notice No. 13-03]

Safety Advisory: Unauthorized Marking of Compressed Gas Cylinders

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: Safety Advisory Notice.

SUMMARY: This notice advises the public that PHMSA has confirmed the marking, service and/or sale of certain high pressure DOT specification cylinders marked with a requalification identification number (RIN) without performing a valid hydrostatic requalification test. Kraus Fire Equipment Co. marked DOT cylinders as tested without approval from the Associate Administrator to requalify DOT cylinders and without calibrating its required systems. This advisory addresses cylinders serviced or

purchased from Flint Welding Supply Co, Flint, MI from approximately June 2010 to December 2012 and marked with an "A978" or a partial "A978" or just the Month/Year, without a RIN mark in the middle.

FOR FURTHER INFORMATION CONTACT:

Kraus Fire Equipment Co., G-4080 S. Dort Highway, Burton, MI Telephone 810-744-4780, Mr. Richard Battstone, Jr., Owner.

SUPPLEMENTARY INFORMATION:

Approximately 496 DOT 3AA and 3AL cylinders used in carbon dioxide service were improperly marked from approximately June 2010 to December 2012. Cylinders subject to this notice were serviced or purchased from Flint Welding Supply Co, Flint, MI and were marked with an "A978" or a partial "A978" or just the Month/Year, without a RIN mark in the middle. Kraus Fire Equipment Co. requalified cylinders provided by Flint Welding Supply Co. without performing the series of safety tests and inspections required by the Hazardous Materials Regulations. These improperly marked cylinders were not properly tested and may not possess the structural integrity to safely contain their contents under pressure during normal transportation and use. Extensive property damage, serious personal injury, or death could result from a rupture of a cylinder. These cylinders should be considered unsafe and unauthorized for the filling of hazardous material unless and until they are first tested properly by an individual or company authorized by DOT to requalify DOT specification cylinders. Cylinders described in this safety advisory that are filled with an atmospheric gas should be vented or otherwise safely discharged by authorized personnel. Individuals who identify a cylinder subject to this notice are advised to remove it from service and return it to Flint Welding Supply Co, Flint MI.

Issued in Washington, DC, on March 7, 2013.

R. Ryan Posten,

Deputy Associate Administrator for Hazardous Materials Safety.

BILLING CODE 4910-60-P

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[Docket No. AB 55 (Sub-No. 726X); Docket No. AB 290 (Sub-No. 303X)]

CSX Transportation, Inc.— Abandonment and Discontinuance of Service Exemption—in the City of Richmond and Henrico County, VA; Norfolk Southern Railway Company— Abandonment and Discontinuance of Service Exemption—in the City of Richmond and Henrico County, VA

On February 21, 2013, CSX Transportation, Inc. (CSXT) and Norfolk Southern Railway Company (NSR) (collectively, Petitioners) jointly filed with the Surface Transportation Board a petition under 49 U.S.C. 10502 for exemption from the provisions of 49 U.S.C. 10903 for CSXT and NSR to abandon and discontinue service over a 1.55-mile railroad line known as the James River Industrial Track, between State Road 5 and the end of the line in the City of Richmond and Henrico County, VA.¹ Petitioners explain that they have made this joint filing because they jointly own a portion of the line, they each individually own different portions of the line, and they both are authorized to operate over the entire line. The line traverses United States Postal Service Zip Code 23231 and serves the station of Richmond.²

Petitioners state that, based on information in CSXT's and NSR's possession, the line does not contain Federally granted rights-of-way. Any documentation in Petitioners' possession will be made available to those requesting it.

The interest of railroad employees will be protected by the conditions set forth in *Oregon Short Line Railroad—Abandonment Portion Goshen Branch Between Firth & Ammon, in Bingham & Bonneville Counties, Idaho*, 360 I.C.C. 91 (1979).

By issuing this notice, the Board is instituting an exemption proceeding pursuant to 49 U.S.C. 10502(b). A final decision will be issued by June 11, 2013.

Any offer of financial assistance (OFA) under 49 CFR 1152.27(b)(2) will be due no later than 10 days after service of a decision granting the petition for exemption. Each OFA must be accompanied by a \$1,600 filing fee. See 49 CFR 1002.2(f)(25).

¹ Petitioners state that there are no mileposts on the line.

² Petitioners state that the only shipper on the line, Lehigh Cement Company, LLC, has relocated its facility from the line and does not oppose the proposed abandonment and discontinuance.
