least costly, most cost-effective, or least burdensome alternative that achieves the objectives of the rule. The provisions of section 205 do not apply when they are inconsistent with applicable law. Moreover, section 205 allows the agency to adopt an alternative other than the least costly, most cost-effective, or least burdensome alternative if the agency publishes with the final rule an explanation of why that alternative was not adopted.

This NPRM would not result in any expenditure by State, local, or tribal governments or the private sector of more than $100 million, adjusted for inflation.

I. National Environmental Policy Act

NHTSA has analyzed this rulemaking action for the purposes of the National Environmental Policy Act. The agency has determined that implementation of this action would not have any significant impact on the quality of the human environment.

J. Plain Language

Executive Order 12866 requires each agency to write all rules in plain language. Application of the principles of plain language includes consideration of the following questions:

- Have we organized the material to suit the public's needs?
- Are the requirements in the rule clearly stated?
- Does the rule contain technical language or jargon that isn't clear?
- Would a different format (grouping and order of sections, use of headings, paragraphing) make the rule easier to understand?
- Would more (but shorter) sections be better?
- Could we improve clarity by adding tables, lists, or diagrams?
- What else could we do to make the rule easier to understand?

If you have any responses to these questions, please include them in your comments on this proposal.

K. Regulatory Identifier Number (RIN)

The Department of Transportation assigns a regulation identifier number (RIN) to each regulatory action listed in the Unified Agenda of Federal Regulations. The Regulatory Information Service Center publishes the Unified Agenda in April and October of each year. You may use the RIN contained in the heading at the beginning of this document to find this action in the Unified Agenda.

L. Privacy Act

Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477–78).

List of Subjects in 49 CFR Parts 571

Imports, Motor vehicle safety, Reporting and recordkeeping requirements, Tires.

In consideration of the foregoing, NHTSA proposes to amend 49 CFR Part 571 as follows:

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

■ 1. The authority citation for part 571 of Title 49 continues to read as follows:

Authority: 49 U.S.C. 322, 30111, 30115, 30117, and 30166; delegation of authority at 49 CFR 1.95.

■ 2. Amend section 571.110 by revising S4.1 and S4.4.1(b) to read as follows:

§ 571.110 Tire selection and rims and motor home/recreation vehicle trailer load carrying capacity information for motor vehicles with a GVWR of 4,536 kilograms (10,000 pounds) or less.

* * * * *

S4.1 *General* (a) Subject to the exceptions set forth in S4.1(b), vehicles shall be equipped with tires that meet the requirements of § 571.139, New pneumatic tires for light vehicles.

(b) Notwithstanding the requirement in S4.1(a),

(1) Passenger cars may be equipped with pneumatic T-type temporary spare tire assemblies that meet the requirements of § 571.109, New pneumatic and certain specialty tires, or non-pneumatic spare tire assemblies that meet the requirements of § 571.129, New non-pneumatic tires for passenger cars, and S6 and S8 of this standard. Passenger cars equipped with a non-pneumatic spare tire assembly shall meet the requirements of S4.3(e), S5, and S7 of this standard.

(2) Trailers may be equipped with ST tires or tires with a rim diameter code of 12 or below that meet the requirements of § 571.109, New pneumatic and certain specialty tires.

* * * * *

S4.4.1 * * *

(b) Except for trailers, in the event of rapid loss of inflation pressure with the vehicle traveling in a straight line at a speed of 97 kilometers per hour, retain the deflated tire until the vehicle can be stopped with a controlled braking application

* * * * *

Issued on: March 4, 2013.

Christopher J. Bonanti,

Associate Administrator for Rulemaking.

RIN 1018–AZ20; RIN 1018–AX71

Endangered and Threatened Wildlife and Plants; Endangered Status and Critical Habitat Designation for Gunnison Sage-Grouse

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule; extension of comment period.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), are extending the public comment period on two proposed rules: to list the Gunnison sage-grouse (*Centrocercus minimus*) as endangered and to propose critical habitat for the Gunnison sage-grouse under the Endangered Species Act of 1973, as amended (Act). Both proposed rules were published in the **Federal Register** on January 11, 2013. We are extending the comment period to allow

the public an adequate opportunity to review and comment on the proposed rules. Comments already submitted need not be resubmitted, as they will be fully considered in preparation of the final rules, which we intend to issue by the end of Fiscal Year 2013 (September 30, 2013) as required by a court-approved settlement agreement.

DATES: The public comment period on the proposed rule to list the Gunnison sage-grouse as endangered and the proposed rule to designate critical habitat published in the **Federal Register** on January 11, 2013 (78 FR 2486 and 2540) is extended to April 2, 2013. Comments submitted electronically using the Federal eRulemaking Portal (see **ADDRESSES** section, below) must be received by 11:59 p.m. Eastern Time on the closing date.

ADDRESSES: You may submit comments by one of the following methods:

(1) Electronically: Go to the Federal eRulemaking Portal: *http://www.regulations.gov.* In the Search box, enter the appropriate Docket No.: FWS–R6–ES–2012–0108 for the proposed endangered status for Gunnison sage-grouse; or FWS–R6–ES–2011–0111 for the proposed designation of critical habitat for Gunnison sage-grouse. Then, in the Search panel on the left side of the screen, under the Document Type heading, check on the Proposed Rules link to locate the proposed rule. You may submit a comment by clicking on ''Comment Now!''

(2) *By hard copy: For the proposed endangered status for Gunnison sage-grouse,* submit by U.S. mail or hand-delivery to: Public Comments Processing, Attn: FWS–R6–ES–2012–0108; Division of Policy and Directives Management; U.S. Fish and Wildlife Service; 4401 N. Fairfax Drive, MS 2042–PDM; Arlington, VA 22203.

For the proposed designation of critical habitat for Gunnison sage-grouse, submit by U.S. mail or hand-delivery to: Public Comments Processing, Attn: FWS–R6–ES–2011–0111; Division of Policy and Directives Management; U.S. Fish and Wildlife Service; 4401 N. Fairfax Drive, MS 2042–PDM; Arlington, VA 22203.

We request that you send comments only by the methods described above. We will post all comments on *http://www.regulations.gov.* This generally means that we will post any personal information you provide us (see the Information Requested section below for more details).

FOR FURTHER INFORMATION CONTACT: Patty Gelatt, Western Colorado Supervisor, U.S. Fish and Wildlife Service, Western Colorado Field Office, 764 Horizon Drive, Building B, Grand Junction, CO 81506–3946; telephone 970–243–2778; facsimile 970–245–6933. If you use a telecommunications device for the deaf (TDD), call the Federal Information Relay Service (FIRS) at 800–877–8339.

SUPPLEMENTARY INFORMATION:

Background

On January 11, 2013, we published in the **Federal Register** a proposed rule to list the Gunnison sage-grouse as endangered (78 FR 2486), and a proposed rule to designate approximately 1.7 million acres of critical habitat for Gunnison sage-grouse (78 FR 2540) under the Endangered Species Act of 1973, as amended. Each proposed rule has a 60-day comment period, ending March 12, 2013. We received several requests from the public to extend the comment period for these proposals. To ensure the public has an adequate opportunity to review and comment on these proposed rules, we are extending the comment period to April 2, 2013 (see **DATES**). We intend to issue final determinations on each of these rules by September 30, 2013.

Information Requested

We will accept written comments and information during this extended comment period and will consider information and recommendations from all interested parties. If you previously submitted comments or information on the proposed rules, please do not resubmit them. We have incorporated them into the public record, and we will fully consider them in the preparation of our final determinations. We intend that any final action resulting from these proposals be based on the best scientific and commercial data available and be as accurate and as effective as possible.

We request comments or information from the public, other concerned governmental agencies, Native American tribes, the scientific community, industry, or any other interested parties concerning these proposed rules. We particularly seek comments concerning:

(1) The species' biology, range, and population trends, including:

(a) Habitat requirements for feeding, breeding, and sheltering;

(b) Genetics and taxonomy;

(c) Historical and current range, including distribution patterns;

(d) Historical and current population levels, and current and projected trends; and

(e) Past and ongoing conservation measures for the species, its habitat, or both.

(2) The factors that are the basis for making a listing determination for a species under section 4(a) of the Act (16 U.S.C. 1531 *et seq.*), which are:

(a) The present or threatened destruction, modification, or curtailment of its habitat or range;

(b) Overutilization for commercial, recreational, scientific, or educational purposes;

(c) Disease or predation;

(d) The inadequacy of existing regulatory mechanisms; or

(e) Other natural or manmade factors affecting its continued existence.

(3) Biological, commercial trade, or other relevant data concerning any threats (or lack thereof) to this species and existing regulations that may be addressing those threats.

(4) Additional information concerning the historical and current status, range, distribution, and population size of this species, including the locations of any additional populations of this species.

(5) Any information on the biological or ecological requirements of the species and ongoing conservation measures for the species and its habitat.

(6) The reasons why we should or should not designate habitat as ''critical habitat'' under section 4 of the Act, including whether there are threats to the species from human activity, the degree of which can be expected to increase due to the designation, and whether that increase in threats outweighs the benefit of designation such that the designation of critical habitat is not prudent.

(7) Specific information on:

(a) The amount and distribution of Gunnison sage-grouse habitat;

(b) What may constitute ''physical or biological features essential to the conservation of the species,'' within the geographical range currently occupied by the species;

(c) Where these features are currently found;

(d) Whether any of these features may require special management considerations or protection;

(e) What areas, that were occupied at the time of listing (or are currently occupied) and that contain features essential to the conservation of the species, should be included in the designation and why; and

(f) What areas not occupied at the time of listing (or the present time) are essential for the conservation of the species and why.

(8) Land use designations and current or planned activities in the areas occupied by the species or proposed to be designated as critical habitat, and possible impacts of these activities on this species and proposed critical habitat.

(9) Information on the projected and reasonably likely impacts of climate change on the Gunnison sage-grouse and proposed critical habitat.

(10) With respect to the proposed designation of critical habitat, any foreseeable economic, national security, or other relevant impacts that may result from designating any areas that may be included in the final designation. We are particularly interested in any impacts on small entities, and the benefits of including or excluding areas from the proposed designation that are subject to these impacts.

(11) Whether any specific areas we are proposing for critical habitat designation should be considered for exclusion under section 4(b)(2) of the Act, and particularly whether the benefits of potentially excluding any specific area outweigh the benefits of including that area as set out in section 4(b)(2) of the Act. For instance, should the proposed designation exclude properties currently enrolled in the Gunnison sage-grouse Candidate Conservation Agreement with Assurances, properties under conservation easement, or properties held by conservation organizations, and why?

(12) Whether our approach to designating critical habitat could be improved or modified in any way to provide for greater public participation and understanding, or to assist us in accommodating public concerns and comments.

(13) The likelihood of adverse social reactions to the designation of critical habitat and how the consequences of such reactions, if likely to occur, would relate to the conservation and regulatory benefits of the proposed critical habitat designation.

Please include sufficient information with your submission (such as scientific journal articles or other publications) to allow us to verify any scientific or commercial information you include. Please note that submissions merely stating support for or opposition to the action under consideration without providing supporting information, although noted, will not be considered in making a determination, as section 4(b)(1)(A) of the Act directs that determinations as to whether any species is a threatened or endangered species must be made ''solely on the basis of the best scientific and commercial data available.''

You may submit your comments and materials concerning this proposed rule by one of the methods listed in the **ADDRESSES** section above. We request that you send comments only by the methods described in the **ADDRESSES** section.

If you submit information via *http://www.regulations.gov,* your entire submission—including any personal identifying information—will be posted on the Web site. If your submission is made via a hardcopy that includes personal identifying information, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so. We will post all hardcopy submissions on *http://www.regulations.gov.*

Comments and materials we receive, as well as supporting documentation we used in preparing this proposed rule, will be available for public inspection on *http://www.regulations.gov,* or by appointment, during normal business hours, at the U.S. Fish and Wildlife Service, Western Colorado Field Office (see **FOR FURTHER INFORMATION CONTACT**). You may obtain copies of the proposed rules on the Internet at *http://www.regulations.gov* at Docket No. FWS–R6–ES–2012–0108 for the proposed endangered status for Gunnison sage-grouse; or Docket No. FWS–R6–ES–2011–0111 for the proposed designation of critical habitat for Gunnison sage-grouse. Copies of the proposed rules are also available at *http://www.fws.gov/mountain-prairie/species/birds/gunnisonsagegrouse/.*

Authority: The authority for this action is the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).

Dated: March 7, 2013.

Rowan W. Gould,

Deputy Director, U.S. Fish and Wildlife Service.
