*Estimated average hours per response:* 3,600 hours, one-time implementation; 464 hours, ongoing.

*General description of report:* This information collection is authorized pursuant Section 165(i)(2) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) that specifically authorizes the Board to

<sup>1</sup> SLHCs would not be subject to Dodd-Frank annual company-run stress testing requirements until the next calendar year after the SLHCs become subject to regulatory capital requirements.

<sup>2</sup> "Covered companies" are defined as BHCs with at least \$50 billion in total assets and nonbank systemically important financial institutions, subject to annual supervisory stress tests and semi-annual company-run stress tests; "other financial companies" are defined as BHCs with total consolidated assets over \$10 billion but less than \$50 billion, SLHCs with assets over \$10 billion, and state-member banks with assets over \$10 billion, subject to annual company-run stress tests.

issue regulations implementing the annual stress testing requirements for its supervised institutions. 12 U.S.C. 5365(i)(2)(C). More generally, with respect to BHCs, Section 5(c) of the Bank Holding Company Act, 12 U.S.C. 1844(c), authorizes the Board to require a BHC and any subsidiary "to keep the Board informed as to—(i) its financial condition, [and] systems for monitoring and controlling financial and operating risks \* \* \*." Section 9(6) of the Federal Reserve Act, 12 U.S.C. 324, requires SMBs to make reports of condition to their supervising Reserve Bank in such form and containing such information as the Board may require. Finally, with respect to SLHCs, under Section 312 of the Dodd-Frank Act, 12 U.S.C. 5412, the Board succeeded to all powers and authorities of the OTS and its Director, including the authority to require SLHCs to "file \* \* \* such reports as may be required \* \* \* in such form and for such periods as the [agency] may prescribe." 12 U.S.C. 1467a(b)(2).

Obligation to Respond is Mandatory: Section 165(i)(2)(A) provides that "financial companies that have total consolidated assets [meeting the asset thresholds] \* \* \* and are regulated by a primary Federal financial regulatory agency shall conduct annual stress tests." Section 165(i)(2)(B) provides that a company required to conduct annual stress tests "shall submit a report to the Board of Governors and to its primary financial regulatory agency at such time, in such form, and containing such information as the primary financial regulatory agency shall require." 12 U.S.C. 5365(i)(2)(B).

*Confidentiality:* As noted under Section 165(i)(2)(C)(iv), companies conducting annual stress tests under these provisions are "require[d] \* \* \* to publish a summary of the results of the required stress tests." 12 U.S.C. 5365(i)(2)(C)(iv). Regarding the information collected by the Board, however, as such information will be collected as part of the Board's supervisory process, it may be accorded confidential treatment under Exemption 8 of the Freedom of Information Act (FOIA), 5 U.S.C. 552(b)(8). This information also is the type of confidential commercial and financial information that may be withheld under Exemption 4 of FOIA, 5 U.S.C. 552(b)(4). As required information, it may be withheld under Exemption 4 only if public disclosure could result in substantial competitive harm to the submitting institution, under *National Parks & Conservation Ass'n v. Morton*, 498 F.2d 765 (DC Cir. 1974).

*Abstract:* In October 2012, the Federal Reserve Board approved two final rules

for capital stress testing requirements pursuant to the Dodd-Frank Act. The final rules implemented the Dodd-Frank Act Stress Testing (DFAST) requirements, one for “covered companies” and one for “other financial companies.” The Federal Deposit Insurance Corporation (FDIC)<sup>3</sup> and the Office of the Comptroller of the Currency (OCC)<sup>4</sup> also issued final rules for DFAST in October 2012 that are nearly identical to the requirements for “other financial companies” issued by the Federal Reserve Board.

This proposed information collection is required under Section 165(i)(2) of the Dodd-Frank Act and the Federal Reserve’s final rule on annual company-run stress tests for organizations with total consolidated assets over \$10 billion (other than covered companies), which was published in the **Federal Register** on October 12, 2012 (77 FR 62396) (12 CFR part 252, subpart H). The annual FR Y–16 would collect quantitative projections of balance sheet, income, losses, and capital across three scenarios (baseline, adverse, and severely adverse) and qualitative information on methodologies used to develop internal projections of capital across these scenarios. Each of the banking agencies is developing very similar, if not identical, reporting templates for the institutions they supervise.

The proposed annual FR Y–16 reporting form would collect data through three primary schedules: (1) Results Schedule (which includes the quantitative results of the stress tests under the baseline, adverse, and severely adverse scenarios for each quarter of the planning horizon: i.e.; aggregate losses, pre-provision net revenue, provision for loan and lease losses, net income, and pro forma capital ratios (including regulatory and any other capital ratios specified by the Board)), (2) Scenario Variables Schedule, and (3) Contact Information Schedule. The supplemental report of the results of the stress test, as required under the Board’s rule, would include, the following qualitative information under the baseline, adverse, and severely adverse scenarios:

- A description of the types of risks included in the stress test;
- A summary description of the methodologies used in the stress test;
- An explanation of the most significant causes for the changes in regulatory capital ratios, and
- Any other information required by the Board.

It is also expected that, in order to fully evaluate the data submissions, the Federal Reserve may conduct follow up discussions with or request responses to follow up questions from respondents, as needed.

*Results Schedule (Baseline, Adverse, and Severely Adverse Scenarios and Summary of Results)*

For each of the three scenarios (Baseline, Adverse, and Severely Adverse), data would be reported for the (1) income statement and (2) balance sheet and capital. Therefore, two sets of worksheets for each scenario (baseline, adverse, and severely adverse) would be completed and submitted, along with the submission cover sheet and a summary of results worksheet.

Income statement data would be collected on a projected quarterly basis showing both projections of revenues and losses. These data are organized in a similar (but not identical) fashion to the mandatory Consolidated Financial Statements for Bank Holding Companies (FR Y–9C; OMB No. 7100–0128) and Schedule HI—Income Statement or the Consolidated Report of Condition and Income (FFIEC 031/041; OMB No. 7100–0036), Schedule RI—Income Statement. For example, respondents would project net charge-offs by loan type (stratified into twelve specific loan types); gains and losses on securities; pre-provision net revenue; and other key components of revenue (i.e., net interest income, provision for loan and lease losses, taxes, etc.).

Balance sheet data would be collected on a quarterly basis for projections of certain assets, liabilities, and capital. For example, respondents would project loans, allowance for loan and lease losses, deposits, and unrealized gains (losses) on securities. These data are organized in a similar (but not identical) fashion to the FR Y–9C, Schedule HC—Balance Sheet and FFIEC 031/041, Schedule RC—Balance Sheet.

Capital data would be collected on a projected quarterly basis and include components of equity and regulatory capital. Additionally, the capital data would capture projections of risk weighted assets and capital actions such as common dividends and share repurchases that affect a respondent’s equity capital and projections and deductions necessary to estimate regulatory capital.

The summary of results worksheet would be comprised of 12 key data points from each scenario. Therefore, all information on the summary worksheet would be automatically populated when the scenario projections are completed.

*Scenario Variables Schedule*

To conduct the stress tests according to the October 12, 2012 final rule, an institution would be able to choose to project additional economic and financial variables, beyond the mandatory supervisory scenarios provided, to estimate losses or revenues for some or all of its portfolios. In such cases, the institution would be required to complete the Scenario Variables Schedule for each scenario where the institution chooses to use additional variables.
