On March 14, 2013, the Department of Justice and the State of Missouri lodged with the United States District Court for the Eastern District of Missouri a consent decree in the lawsuit entitled *United States v. Teva Pharmaceuticals USA, Inc.* 2:13–cv–00027–HEA.

The lawsuit is a civil action brought pursuant to the Clean Air Act, the Missouri Air Conservation Law, the Clean Water Act, the Missouri Clean Water Law, the Resource Conservation and Recovery Act, and the Missouri Hazardous Waste Management Law. The complaint seeks civil penalties and injunctive relief against Teva Pharmaceuticals USA, Inc., for violations of the requirements applicable to hazardous air pollutants and hazardous waste, and of requirements applicable to Teva's

discharge of pollutants to a city-owned wastewater treatment plant. The violations occurred at a chemical manufacturing facility located in Mexico, Missouri.

The consent decree requires Teva to pay a civil penalty of \$2,250,000 and to implement a series of projects and changes at its Mexico Facility to bring the facility into compliance and mitigate its past violations. Among other things, Teva will be required to develop a pretreatment plan; conduct vacuum stripping of wastewater streams to remove methylene chloride; install an automated diffused aeration rate system in its wastewater treatment plant; implement an enhanced leak detection program; and establish an Environmental Management System that calls for environmental audits of its facility.
