Atlantic Highly Migratory Species; 2006 Consolidated Atlantic Highly Migratory Species Fishery Management Plan; Amendment 8

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public hearings; extension of comment period.

SUMMARY: On February 22, 2013, NMFS published a proposed rule for Draft Amendment 8 to the 2006 Consolidated Atlantic Highly Migratory Species (HMS) Fishery Management Plan (FMP) to address several new proposed North Atlantic swordfish commercial fishery management measures, including a new open access permit that would allow the retention and sale of swordfish caught with certain handgears. We announced the date and location for six public hearings and a comment period ending on April 23, 2013. In this notice, NMFS announces the dates and logistics for two additional public hearings, and an extension of the comment period from April 23, 2013, to May 8, 2013, to provide additional opportunities for the five Fishery Management Councils, the Atlantic and Gulf States Marine Fisheries Commissions, and other interested parties to comment on the swordfish management measures proposed in Draft Amendment 8.

DATES: The deadline for comments has been extended from April 23, 2013, to May 8, 2013. Two additional public hearings will be held, one on April 10, 2013 from 5:00 to 8:00 p.m., and the second on April 30, 2013 from 2:30 to 4:30 p.m., via public conference call and webinar.

SUPPLEMENTARY INFORMATION: Atlantic tunas and swordfish are managed under the dual authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) and the Atlantic Tunas Convention Act (ATCA). Under the Magnuson-Stevens Act, the National Marine Fisheries Service (NMFS) must, consistent with the National Standards, prevent overfishing while achieving, on

a continuing basis, the optimum yield (OY) from each fishery and rebuild overfished fisheries. Under ATCA, the Secretary of Commerce (Secretary) shall promulgate regulations as may be necessary and appropriate to carry out recommendations by the International Commission for the Conservation of Atlantic Tunas (ICCAT). The authority to issue regulations under the Magnuson-Stevens Act and ATCA has been delegated from the Secretary to the Assistant Administrator for Fisheries, NOAA (AA). Atlantic HMS regulations are found at 50 CFR part 635.

Consistent with these legal obligations and based on the rebuilt status of North Atlantic swordfish, the renewed interest in commercial handgears, and the goal to more fully utilize the U.S. ICCAT-recommended swordfish quota allocation, NMFS proposed fishery management measures for Draft Amendment 8 to the 2006 Consolidated HMS FMP in a proposed rule published on February 22, 2013 (78 FR 12273).

The proposed rule provides additional details.

The preferred alternatives in Amendment 8 would establish a new open-access commercial swordfish vessel permit to allow for the retention and sale of a limited number (zero to six fish) of swordfish caught on rod and reel, handline, harpoon, bandit gear, or green-stick. HMS Charter/Headboat vessel permit holders would also be authorized to fish with rod and reel and handline under open-access swordfish commercial retention limits when they are not on a for-hire trip. In addition, the preferred alternatives would establish swordfish management regions. We have proposed an initial one-fish retention limit for the Florida Swordfish Management Area, a two-fish retention limit for the Caribbean region (to be consistent with the newly created HMS Commercial Caribbean Handgear Permit), and a three-fish retention limit for the Northwest Atlantic and Gulf of Mexico regions.
