

“Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations” (59 FR 7629, February 16, 1994).

Since tolerances and exemptions that are established on the basis of a petition under FFDCA section 408(d), such as the tolerance exemption in this final rule, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*), do not apply.

This final rule directly regulates growers, food processors, food handlers, and food retailers, not States or tribes. As a result, this action does not alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of FFDCA section 408(n)(4). As such, EPA has determined that this action will not have a substantial direct effect on States or tribal governments, on the relationship between the national government and the States or tribal governments, or on the distribution of power and responsibilities among the various levels of government or between the Federal Government and Indian tribes. Thus, EPA has determined that Executive Order 13132, entitled “Federalism” (64 FR 43255, August 10, 1999), and Executive Order 13175, entitled “Consultation and Coordination with Indian Tribal Governments” (65 FR 67249, November 9, 2000), do not apply to this final rule. In addition, this final rule does not impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (2 U.S.C. 1501 *et seq.*).

This action does not involve any technical standards that would require EPA consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA) (15 U.S.C. 272 note).

#### XI. Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

#### Synopsis

Under 5 CFR part 1320, an agency may not conduct or sponsor a collection of information unless it displays a current, valid OMB Control Number.

No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a current, valid OMB Control Number. The OMB Control Number is 3060–0678.

The foregoing notice is required by the Paperwork Reduction Act of 1995, Public Law 104–13, October 1, 1995, and 44 U.S.C. 3507.

With two exceptions, the amendments are non-substantive; that is, they neither impose new requirements nor eliminate or alter existing requirements. The two substantive amendments adopted in the R&O do not increase paperwork burdens. Therefore, the number of respondents, number of responses, annual burden hours and annual costs have not been amended from the previous submission to the Office of

Management and Budget (OMB) on September 2, 2010.

In this Report and Order, the Commission amended various provisions of Part 25 of its rules pertaining to licensing and operation of satellite service radio stations. Among other things, the Commission added definitions for several technical terms that appear in Part 25 but are not defined there, and it deleted definitions of terms that are not used in Part 25. The Commission also eliminated redundant text from several rule sections, revised the wording of other provisions that were ambiguous or unduly confusing, updated cross-references to Commission rules or recommendations of the International Telecommunication Union (ITU), and corrected grammatical, spelling, and typographical errors. The two substantive amendments the Commission adopted in this Report and

Order amended the rules in minor ways by: (1) Eliminating requirements to identify a radio service and station location in correspondence in 47 CFR 25.110 and (2) codifying an established practice of allowing applicants to cross-reference, rather than re-submit, previously filed information regarding non-U.S.-licensed satellites in 47 CFR 25.137. Collectively, the changes adopted in this Report and Order will facilitate preparation of earth and space station applications, promote compliance with the Commission’s operating rules, and ease administrative burdens for applicants, licensees, and the Commission.

Federal Communications Commission.
