

Public Participation: The Agency invites interested parties to participate and collaborate on this proposal and analysis. Publication of this Notice initiates the 30-day scoping process. Comments received concerning this proposed plan amendment will be used to develop the proposal and the Draft Environmental Impact Statement (EIS).

Once the Draft EIS is prepared, publication of its Notice of Availability in the **Federal Register** will begin a formal 90-day opportunity to provide written comments. Comments on the Draft EIS will be used to prepare the Final EIS and Draft Record of Decision. Notice of Availability of the Final EIS and Draft Record of Decision will be made in the **Federal Register**. Public notice to begin the 60-day opportunity to file an objection will be published in the newspaper of record. Public notice of all objections will be published in the newspaper of record and begin the 10 day period for an interested person to request participation in meetings between the reviewing officer and objector(s) to discuss issues raised in the objection and potential resolution. All meetings are open to observation by the public. After the reviewing officer responds in writing to objections, the responsible official will issue the Final Record of Decision, consistent with responses to objections, and issue a public notice of the decision and, if applicable, the approved amendment.

The newspaper of record is the *Post Register*. The Draft EIS, Final EIS, Draft Record of Decision, responses to objections, Final Record of Decision, approved amendment, and all public notices and **Federal Register** notices will be made available online. Additional opportunities for public involvement will be offered prior to the Final EIS if determined necessary by the responsible official.

DATES: The Draft EIS for the Amendment is expected in July 2013. The Final EIS and Draft Record of Decision are expected in December 2013. The Final Record of Decision is expected in 2014.

ADDRESSES: Send written comments in response to this Notice to: Targhee Lynx Analysis, Caribou-Targhee National Forest, 1405 Hollipark Drive, Idaho Falls, ID 83401. Comments may also be sent via email to comments-intermtn-caribou-targhee@fs.fed.us or via facsimile to 208/557-5826.

FOR FURTHER INFORMATION CONTACT: Megan Bogle, Forest Planner (208)354-6613 or mbogle@fs.fed.us. Additional information about this analysis will be posted at <http://www.fs.fed.us/nepa/fs-usda-pop.php?project=40275>.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: The Canada lynx was listed as a Threatened species under the Endangered Species Act in 2000. The 1997 Targhee Revised Forest Plan did not identify lynx habitat. The NRLMD ROD established programmatic management direction for lynx habitat on the Targhee but did not make a decision about what lynx habitat is, where linkage area boundaries are, or how they are identified.

This analysis has been initiated in response to a June 6, 2012, District of Idaho Court Order. In that order, the Court determined that the Agency may not rely upon its 2005 Lynx Analysis Unit Map which delineates the areas subject to the NRLMD until it is analyzed in an EIS pursuant to the National Environmental Policy Act.

The project area is located in the Idaho counties of Bonneville, Butte, Clark, Fremont, Jefferson, Lemhi, Madison, Teton; and the Wyoming counties of Lincoln and Teton.

Proposed Action

The proposed action is to amend the 1997 Targhee Revised Forest Plan to incorporate a map that will identify lynx habitat, lynx analysis units, and linkage areas. The map will incorporate the finest-scale vegetation information and best data available. The analysis will be completed in compliance with the National Environmental Policy Act, the NRLMD and other applicable laws, rules, regulations and policies. The effects of such an amendment will be analyzed and disclosed in the EIS. Consultation with the US Fish and Wildlife Service will occur to ensure compliance with the Endangered Species Act.

Responsible Official

The Caribou-Targhee National Forest Supervisor is the responsible official and will make the decision.

Nature of Decision to Be Made

In the decision, the responsible official will decide whether or not to amend the 1997 Targhee Revised Forest Plan.

Preliminary Issues

1. Disagreement regarding the extent and distribution of lynx habitat across the Targhee portion of the Caribou-Targhee National Forest.

Possible Alternatives

At a minimum, the proposed action and a no action alternative will be analyzed. The no action alternative would not incorporate the lynx habitat, LAU, and linkage area map as an amendment to the 1997 Targhee Revised Forest Plan.

Scoping Process

This Notice initiates the public involvement process, which guides the development of the alternatives and the analysis. It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the Draft EIS. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns.

Comments received in response to this scoping notice, including names and addresses of those who comment, will become part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered.

Dated: March 15, 2013.

Brent Larson,

Forest Supervisor.

Rural Housing Service

Notice of Request for Extension of a Currently Approved Information Collection

AGENCY: Rural Housing Service, USDA.

ACTION: Proposed collection; comments requested.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of USDA Rural Development to request an extension for a currently approved information collection in support of compliance with the National Environmental Policy Act (NEPA) and other applicable environmental requirements.

DATES: Comments on this notice must be received by May 21, 2013 to be assured of consideration.

FOR FURTHER INFORMATION CONTACT: Juliet Bochicchio, Environmental Protection Specialist, Program Support Staff, Housing and Community Facilities Programs, U.S. Department of Agriculture, Stop 0761, 1400 Independence Ave. SW., Washington, DC 20250-0761, Telephone (202) 205-

8242, email:
juliet.bochicchio@wdc.usda.gov.

SUPPLEMENTARY INFORMATION:

Title: 7 CFR 1940 Subpart G, "Environmental Program."

OMB Number: 0575-0094.

Expiration Date of Approval: May 31, 2013.

Type of Request: Extension of a currently approved information collection.

Abstract: The information collection under OMB Number 0575-0094 enables the Agencies to effectively administer the policies, methods, and responsibilities for compliance with the NEPA and other applicable environmental laws, executive orders, and regulations.

The NEPA requires Federal agencies to consider the potential environmental impacts of proposed major Federal actions on the quality of the human environment during agency planning and decision-making processes. For Rural Development to comply, it is necessary that they have information on the types of environmental resources on site or in the vicinity of an Applicant's proposed project that could be impacted by Rural Development Federal action. The Applicant is the logical source for providing this information. In fact, the vast majority of Federal Agencies that assist non-Federal Applicants in sponsoring projects require their Applicants to submit such environmental data to allow the agency to make an informed decision.

Both Rural Development provide forms and/or other guidance to assist in the collection and submission of necessary information. The information is usually submitted via email, U.S. Postal Service, or hand delivery to the appropriate Agency office.

The information is used by the Agency official who is processing the application for financial assistance or request for approval. Having environmental information on the Applicant's proposed project and the construction and operation activities enables the Agency official to determine the magnitude of any potential environmental impacts and to take such impacts into consideration during planning and decision-making as required by NEPA. The analysis of potential environmental impacts of an Applicant's proposed project and Rural Development decision is a full disclosure process, and therefore, can involve public information meetings and public notification.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 3.7 hours per response.

Respondents: Individuals, non-Federal agency governments, farmers, ranchers, business owners, for-profit or non-profit institutions, and organizations.

Estimated Number of Respondents: 1,684.

Estimated Number of Responses per Respondent: 1.

Estimated Number of Responses: 3,344.

Estimated Total Annual Burden on Respondents: 12,470 hours.

Copies of this information collection can be obtained from Jeanne Jacobs, Regulations and Paperwork Management Branch, at (202) 692-0035.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agencies, including whether the information will have practical utility; (b) the accuracy of Agencies' estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments may be sent to Jeanne Jacobs, Regulations and Paperwork Management Branch, Support Services Division, U.S. Department of Agriculture, Rural Development, STOP 0742, 1400 Independence Ave. SW., Washington, DC 20250-0742. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: March 5, 2013.

Administrator, Rural Housing Service.
