[Docket No. FAA-2012-1345; Airspace Docket No. 12-ANM-31]

#### Proposed Modification of Class D and Class E Airspace and Establishment of Class E Airspace; Pasco, WA

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** This action proposes to establish Class E surface airspace at Tri-Cities Airport, Pasco, WA. Controlled airspace is necessary to accommodate aircraft using Area Navigation (RNAV) Global Positioning System (GPS) standard instrument approach procedures at Tri-Cities Airport, Pasco, WA. This action also would modify the Class D airspace and Class E airspace by adjusting the geographic coordinates of Tri-Cities Airport and Kennewick, Vista Field Airport. This will also correct the airport name from Vista Airport, Kennewick, WA to Kennewick, Vista Field Airport, WA. The FAA is proposing this action to enhance the safety and management of aircraft operations at Tri-Cities Airport, Pasco, WA.

**DATES:** Comments must be received on or before May 10, 2013.

**ADDRESSES:** Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590; telephone (202) 366-9826. #### The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by establishing Class E surface airspace at Tri-Cities Airport, Pasco, WA. Controlled airspace is necessary to accommodate aircraft using RNAV (GPS) standard instrument approach procedures at Tri-Cities Airport, Pasco, WA. Also, the geographic coordinates of Tri-Cities Airport and Kennewick, Vista Field Airport would be updated to coincide with the FAA's aeronautical database for the Class D airspace and Class E airspace designated as an extension to Class D surface area, and Class E airspace extending upward from 700 feet above the surface, at Pasco, WA. This action would enhance the safety and management of aircraft operations at Tri-Cities Airport, Pasco, WA. This will also correct the name from Vista Airport, Kennewick, WA to Kennewick, Vista Field Airport, WA.

Class E airspace designations are published in paragraphs 5000, 6002, 6004 and 6005, respectively, of FAA Order 7400.9W, dated August 8, 2012, and effective September 15, 2012, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designations listed in this document

will be published subsequently in this Order.

The FAA has determined this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation; (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would establish controlled airspace at Tri-Cities Airport, Pasco, WA.

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

##### The Proposal

This action proposes to amend Title 14, Code of Federal Regulations (14 CFR), Part 71 by amending Class E airspace extending upward from 700 feet above the surface to ensure that required controlled airspace extending from the 6.5-mile radius of the airport to 9.6 miles southwest of the airport is available to contain aircraft executing new standard instrument approach procedures at Gruver Municipal Airport, Gruver, TX. Controlled airspace is needed for the safety and management of IFR operations at the airport.

Class E airspace areas are published in Paragraph 6005 of FAA Order 7400.9W, dated August 8, 2012 and effective September 15, 2012, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
