

The 1364C captures an offeror's proposed interest rate and amortization period for the tenant improvements, in addition to the lessor's overhead fees.

The Succeeding and Superseding Lease Model uses GSA Form 1364D. These leases are negotiated with the existing lessor after advertisements and cost benefit analyses result in a determination that such a lease is in the best interests of the government. The form has less data input required than for a Standard lease; it also includes current rental rate information, supplied by the Government.

The 1364A-1, 1364B, and 1364C summarize an offeror's technical compliance with some important statutory and regulatory requirements to make the overall offer process easier for offerors to understand (e.g., accessibility and seismic standards, flood plain compliance, asbestos). The 1364C also limits the collection of tenant improvement overhead fees to the architect/engineering fees and lessor's project management fees. A notice was published in the **Federal Register** at 78 FR 303, on January 3, 2013. No comments were received.

SUPPLEMENTARY INFORMATION:

A. Background

After an analysis of the per diem rates established for FY 2013 (see the **Federal Register** notice at 77 FR 54578, September 5, 2012, and FTR Bulletin 13-01), non-standard area per diem rates are being established for the following locations:

State of Oklahoma

- Garfield County

State of Texas

- Midland County

CONUS per diem rates are published as FTR per diem bulletins available on the Internet at www.gsa.gov/perdiem and www.gsa.gov/bulletins. This process ensures timely notice of increases or decreases in per diem rates established by GSA for Federal employees on official travel within CONUS. Notices published periodically in the **Federal Register**, such as this one, now constitute the only notification of revisions in CONUS per diem rates to agencies.

Dated: March 22, 2013.

Acting Deputy Director, Office of Asset and Transportation Management, Office of Governmentwide Policy.

Information Collection Request Title: Doing It For Ourselves (DIFO) Program.

Abstract: The Office of Women's Health (OWH) and the Department of Health and Human Services (HHS) Coordinating Committee on Lesbian, Gay, Bi-sexual and Transgender (LGBT) Issues have prioritized the collection of health data on LGBT populations. In response, OWH funded an initiative to identify and test effective and innovative ways of reducing obesity in lesbian and bisexual women. The DIFO intervention has been developed in San Francisco to address what is known about local LB women's community norms, common barriers to health, patterns of physical and mental health access, and preferences for health services and health outcomes. The evaluation of the DIFO program will address the following research question: Does an intervention based on an ecological model of LB women's health result in improved health, as defined by: quality of life, decreased weight, improved nutrition, and increased physical activity? The project is scheduled for one year.
