

specific environmental resource area. The NRC documented its assessments and conclusions in the Draft SEIS.

In addition to the action proposed by Strata, the NRC staff addressed the no-action alternative, as well as alternative location for proposed facility. All the alternatives were analyzed in detail. The no-action alternative serves as a baseline for comparing the potential environmental impacts of the proposed action.

After weighing the impacts of the proposed action and comparing the alternatives, the NRC staff, in accordance with 10 CFR 51.71(f), sets forth its preliminary recommendation regarding the proposed action. Unless safety issues mandate otherwise, the NRC staff preliminarily recommends that the proposed action be approved (*i.e.*, the NRC should issue a source material license for the proposed Ross Project).

The Draft SEIS is being issued for public comment. The public comment period on the Draft SEIS begins with publication of this notice and continues until May 13, 2013. Written comments should be submitted as described in the **ADDRESSES** section of this document. The NRC will consider comments received or postmarked after that date to the extent practical.

Dated at Rockville, Maryland, this 20th day of March 2013.

For the U.S. Nuclear Regulatory Commission.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION: The PRA and its implementing regulations, 5 CFR part 1320, require federal agencies to provide 60 days notice to the public for comment on information collection activities—including renewals of currently approved information collections—before seeking approval of such activities by the Office of Management and Budget (OMB). Accordingly, the Board invites interested respondents to comment on the following summary of proposed information collection activities regarding (i) whether the information collection activities are necessary for the Board to properly execute its functions; (ii) the accuracy of the Board's estimates of the burden of the information collection activities; (iii) ways for the Board to enhance the quality, utility, and clarity of the information being collected; and (iv) ways for the Board to minimize the burden of information collection activities on the public.

The Board is planning to submit the following currently approved information collection to OMB for review and approval of renewal under the PRA:

Title of Collection: Section 1512 Data Elements—Federal Financial Assistance.

ICR Reference No.: 201004-0430-001.

OMB Control No.: 0430-0004.

ICR Status: The approval for this ICR is scheduled to expire on 07/31/2013.

Description: Section 1512 of the American Recovery and Reinvestment Act of 2009, Public Law 111-5, 123 Stat. 115 (2009) (Recovery Act), requires recipients of Recovery Act funds to report on the use of those funds. These reports are submitted to FederalReporting.gov, and certain information from these reports is then posted publically. This collection pertains only to recipients of federal financial assistance.

More specifically, prime recipients, sub-recipients, and vendors who receive federal financial assistance Recovery Act funds are required to submit section 1512 data elements as set forth in the *Recipient Reporting Data Dictionary* (available electronically at <https://www.federalreporting.gov/federalreporting/downloads.do>). The

following is a cumulative summary of the reporting guidance issued by the Office of Management and Budget (OMB) in its June 22, 2009, guidance entitled, "Implementing Guidance for the Reports on Use of Funds Pursuant to the American Recovery and Reinvestment Act of 2009" (M-09-21), and its December 18, 2009, guidance entitled, "Updated Guidance on the American Recovery and Reinvestment Act—Data Quality, Non-Reporting Recipients, and Reporting of Job Estimates" (M-10-08):

Prime Recipients: The prime recipient is ultimately responsible for the reporting of all data required by section 1512 of the Recovery Act and the OMB Guidance, including the Federal Funding Accountability and Transparency Act (FFATA) data elements for the sub-recipients of the prime recipient required under section 1512(c)(4). In addition, the prime recipient must report three additional data elements associated with any vendors receiving funds from the prime recipient for any payments greater than \$25,000. Specifically, the prime recipient must report the identity of the vendor by reporting the DUNS number, the amount of the payment, and a description of what was obtained in exchange for the payment. If the vendor does not have a DUNS number, then the name and zip code of the vendor's headquarters will be used for identification.

Sub-Recipients of the Prime Recipient: The sub-recipients of the prime recipient may be required by the prime recipient to report the FFATA data elements required under section 1512(c)(4) for payments from the prime recipient to the sub-recipient. The reporting sub-recipients must also report one data element associated with any vendors receiving funds from that sub-recipient. Specifically, the sub-recipient must report, for any payments greater than \$25,000, the identity of the vendor by reporting the DUNS number, if available, or otherwise the name and zip code of the vendor's headquarters.

Required Data: The specific data elements to be reported by prime recipients and sub-recipients are included in the *Recipient Reporting Data Dictionary*. Below are the basic reporting requirements to be reported on prime recipients, recipient vendors, sub-recipients, and sub-recipient vendors. Where noted, the information is not entered by the recipient but rather is derived from another source:
