The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individuals. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The decision in the ROD selects a modified version of Alternative 2(b), the proposed

plan in the Final Oil Shale and Tar Sands Programmatic Environmental Impact Statement (EIS), as the Approved Land Use Plan Amendments, which would amend 10 land use plans in Colorado, Utah, and Wyoming to make approximately 679,000 acres of lands containing oil shale resources open for application for future leasing and development and approximately 132,000 acres open for application for future leasing and development of tar sands.

The Environmental Protection Agency published a Notice of Availability for the Final Programmatic EIS in the **Federal Register** on November 9, 2012 (77 FR 67362), initiating the BLM's 30-day protest period on the Proposed Plan Amendments for oil shale and tar sands allocation. The protest period closed on December 10, 2012. Eighteen protests were received; protests came from local governments, the State of Utah, industry, industry interest groups, environmental groups, and an individual. The BLM has resolved all valid protest issues.

The BLM has made minor modifications and editorial clarifications to the Approved Plan Amendments. These modifications provided further clarification of some of the decisions.
