

interact with the endocrine system, principally the estrogen, androgen, and thyroid hormonal pathways. Test chemicals determined to have the potential to interact with the endocrine system, based on a weight-of-evidence analysis of the results of Tier 1 screening and inclusive of other scientifically relevant information, would be considered for Tier 2 testing. Tier 2 tests consist of more comprehensive, long-term tests during various life stages and multiple generations enhanced with endocrine-specific endpoints across multiple taxonomic groups, including mammals, birds, fish, amphibians, and invertebrates. The purpose of Tier 2 testing is to identify any potential adverse outcome and provide quantitative concentration-response information that may be used for risk assessment.

The EDSP is mandated under FFCA to use "validated" assays to screen and test for endocrine disrupting chemicals. The focus of this SAP review is on the validation status, based on Organization for Economic Co-Operation and Development (OECD) and Interagency Coordinating Committee on the Validation of Alternative Methods (ICCVAM) validation principles, for the proposed EDSP Tier 2 ecotoxicity tests including:

1. Japanese quail two-generation toxicity test.
2. Larval amphibian growth and development assay.
3. Medaka multigeneration test.
4. Mysid two-generation toxicity test.

The EDSP Tier 2 ecotoxicity tests have been developed and validated based on selected chemicals known to interact with the estrogen, androgen and/or thyroid hormonal pathways of the endocrine system. In general, the performance of respective Tier 2 ecotoxicity tests to determine the magnitude and duration of endocrine mediated effects and quantitatively assess concentration-response relationships will be the focus of this SAP. The SAP will be asked to comment on the reproducibility of results and factors that may impact interpretation of whether or not the proposed Tier 2 tests are sufficient to provide a more comprehensive assessment of the potential of a test chemical to cause endocrine mediated adverse effects in the subject taxa.

C. FIFRA SAP Documents and Meeting Minutes

EPA's background paper, related supporting materials, charge/questions to FIFRA SAP, FIFRA SAP composition (i.e., members and ad hoc members for

this meeting), and the meeting agenda will be available approximately 15 days prior to the meeting. In addition, the Agency may provide additional background documents as the materials become available. You may obtain electronic copies of these documents, and certain other related documents that might be available electronically, at <http://www.regulations.gov> and the FIFRA SAP homepage at <http://www.epa.gov/scipoly/sap>.

FIFRA SAP will prepare meeting minutes summarizing its recommendations to the Agency approximately 90 days after the meeting. The meeting minutes will be posted on the FIFRA SAP Web site or may be obtained from the OPP Docket or at <http://www.regulations.gov>.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

[Document Identifier HHS-OS-18521-30D]

Agency Information Collection Activities; Proposed Collection; Public Comment Request

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: In compliance with section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, has submitted an Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). The ICR is for a new collection. Comments submitted during the first public review of this ICR will be provided to OMB. OMB will accept further comments from the public on this ICR during the review and approval period.

DATES: Comments on the ICR must be received on or before May 2, 2013.

ADDRESSES: Submit your comments to OIRA_submission@omb.eop.gov or via facsimile to (202) 395-5806.

FOR FURTHER INFORMATION CONTACT: Information Collection Clearance staff, *InformationCollectionClearance@hhs.gov* or (202) 690-6162.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the document identifier HHS-OS-18521-30D for reference.

Information Collection Request Title: Evaluation of Implementation of the Viral Hepatitis Action Plan.

Abstract: In response to the viral hepatitis epidemic in the United States, the Department of Health and Human Services (HHS) released the Action Plan for the Prevention, Care, and Treatment of Viral Hepatitis (Action Plan) in May 2011 to provide a comprehensive strategic plan to address viral hepatitis B and C. Implementation of the Action Plan requires actions across a variety of

agencies including national, state/local government, community-based organizations, and the private sector. The Evaluation of Implementation of the Viral Hepatitis Action Plan will assess state and local response to and activities that support the Action Plan, identify barriers to implementation and strategies to address these barriers, and inform future viral hepatitis efforts.

Need and Proposed Use of the Information: The purpose of this project is to evaluate the state and local response to and implementation of the Action Plan and examine viral hepatitis activities that are occurring in the four jurisdictions that have been pre-selected for the evaluation: Alabama, Massachusetts, New York, and Washington State. The information collected through the evaluation will position OASH to better understand implementation of the Action Plan at the state and local levels and barriers that might be occurring in the selected jurisdictions. The evaluation will also serve to examine the landscape of viral hepatitis activities that are taking place in the selected jurisdictions. The results of the evaluation will enable OASH to understand and identify potential strategies to strengthen local implementation of the Action Plan, address barriers, and inform future implementation efforts.

Likely Respondents: State Viral Hepatitis Prevention Coordinators (CDC-funded state health department staff); other state and local health department stakeholders such as HIV and Immunization Program staff; national organization representatives who are involved in viral hepatitis program development and advocacy; local viral hepatitis stakeholders including health care and substance abuse treatment providers, non-profit community-based organization staff and volunteers, and others identified by the State Viral Hepatitis Prevention Coordinator (see above).

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions, to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information, to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information, and to transmit or otherwise disclose the information.
