

comply with the Federal motor vehicle safety standards and to provide a copy to the owner of the vehicle modified (see 49 CFR 595.7 (b) and (e) as published in the final rule).

We estimate that:

1. There are approximately 4013 vehicles modified for persons with disabilities per year by 700 businesses;²

2. If 85 percent of the 700 businesses use the exemptions provided by 49 CFR 595.7, those 595 businesses will modify 3411 vehicles annually; and

3. The burden for producing the record required by 49 CFR 595.7 in accordance with paragraph (e) for those vehicles will be 1137 hours per year nationwide.

In the final rule we anticipated that the least costly way for a repair business to comply with this portion of the new rule would be to annotate the vehicle modification invoice as to the exemption, if any, involved with each item on the invoice. The cost of preparing the invoice is not a portion of our burden calculation, as that preparation would be done in the normal course of business. The time needed to annotate the invoice, we estimate, is 20 minutes. Therefore, the burden hours for a full year are calculated as: 3411 vehicles × 20 minutes/vehicle = 1137 hours.

This burden includes the calculation required by 49 CFR 595.7(e), but not the gathering of the information required for the calculation. That information would be gathered in the normal course of the vehicle modification. The only extra burden required by the rule is the calculation of the reduction in loading carrying capacity and conveying this information to the vehicle owner. Again, we are assuming that annotation on the invoice is the least burdensome way to accomplish this customer notification.

There will be no additional material cost associated with compliance with this requirement since no additional materials need be used above those used to prepare the invoice in the normal course of business. We are assuming it is normal and customary in the course of vehicle modification business to prepare an invoice, to provide a copy of the invoice to the vehicle owner, and to keep a copy of the invoice for five years after the vehicle is delivered to the owner in finished form.

We seek comment on whether our assumptions about the following are reasonable:

1. The document required by 49 CFR 595.7(b) and specified in paragraph

(e) will need to be prepared for approximately 3411 vehicles modified nationwide per year,

2. Annotation of each vehicle modification invoice as to which exemptions were used will take an average of 20 minutes, and

3. It is normal in the course of vehicle modification business to prepare an invoice, to provide a copy of the invoice to the vehicle owner, and to keep a copy of the invoice for five years after the vehicle is delivered to the owner in finished form.

Affected Public: Business or other for profit.

Estimated Annual Burden: 1152 hours, and \$50.04

Estimated Number of Respondents: 595.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.
