

(3) Define performance metrics and parameters used to understand the potential improvements of the mutually-agreeable representative TDL range enhancement software in accordance with the CRADA test plan;

(4) Coordinate Coast Guard platform engineering changes and enterprise architecture modifications to incorporate mutually-agreeable representative TDL range enhancement software and supporting hardware configurations in accordance with the CRADA test plan;

(5) Identify cooperative sortie opportunities with Coast Guard and Department of Defense (DOD) search and surveillance assets to understand the potential improvements of the mutually-agreeable representative TDL range enhancement software to link collected data with search platforms outside the information enterprise network;

(6) Develop the CRADA Final Report, which will document the methodologies, findings, conclusions, and recommendations of this CRADA work.

We anticipate that the non-Federal participants' contributions under the proposed CRADA will include the following:

(1) Provide input into the Coast Guard-developed CRADA test objectives and CRADA test plan;

(2) Provide mutually-agreeable representative TDL range enhancement software and supporting hardware configurations (as required) and conduct preliminary data information sharing validation and equipment "bench testing" in accordance with the CRADA test plan;

(3) Provide expertise needed for platform installation of mutually-agreeable representative TDL range enhancement software and supporting hardware, along with on-site technical support throughout the demonstration;

(4) Provide on-site mission specific training for Coast Guard platform operators throughout the operational demonstration; and

(5) Provide input into the Coast Guard-developed CRADA Final Report.

#### Selection Criteria

The Coast Guard reserves the right to select for CRADA participants all, some, or none of the proposals in response to this notice. The Coast Guard will provide no funding for reimbursement of proposal development costs. Proposals (or any other material) submitted in response to this notice will not be returned. Proposals submitted are expected to be unclassified and have no more than four single-sided pages

(excluding cover page and resumes). The Coast Guard will select proposals at its sole discretion on the basis of:

(1) How well they communicate an understanding of, and ability to meet, the proposed CRADA's goal; and

(2) How well they address the following criteria:

(a) Technical capability to support the non-Federal party contributions described; and

(b) Resources available for supporting the non-Federal party contributions described.

Currently, the Coast Guard is considering Engility Corporation for participation in this CRADA. This consideration is based on the fact that Engility has demonstrated its software-only solution, its product's compatibility with the Coast Guard's situational awareness system, and its product's widespread use throughout the DOD and coalition forces. However, we do not wish to exclude other viable participants from this or future similar CRADAs.

This is a technology transfer/development effort. Presently, the Coast Guard has no plan to procure a TDL capability. Since the goal of this CRADA is to identify and investigate the advantages, disadvantages, required technology enhancements, performance, costs, and other issues associated with using TDL capabilities, non-Federal CRADA participants will not be excluded from any future Coast Guard procurements based solely on their participation in this CRADA.

Special consideration will be given to small business firms/consortia, and preference will be given to business units located in the U.S.

#### Authority

This notice is issued under the authority of 15 U.S.C. 3710(a), 5 U.S.C. 552(a), and 33 CFR 1.05-1.

Dated: March 25, 2013.

#### Alan N. Arsenault,

*Captain, USCG, Commanding Officer, U.S. Coast Guard Research and Development Center.*

## DEPARTMENT OF HOMELAND SECURITY

### Federal Emergency Management Agency

[Internal Agency Docket No. FEMA-3354-EM; Docket ID FEMA-2013-0001]

#### New Jersey; Amendment No. 4 to Notice of an Emergency Declaration

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Notice.

**SUMMARY:** This notice amends the notice of an emergency declaration for State of New Jersey (FEMA-3354-EM), dated October 28, 2012, and related determinations.

**DATES:** *Effective Date:* March 20, 2013.

**FOR FURTHER INFORMATION CONTACT:** Dean Webster, Office of Response and Recovery, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-2833.

**SUPPLEMENTARY INFORMATION:** The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Administrator, under Executive Order 12148, as amended, Gracia B. Szczech, of FEMA is appointed to act as the Federal Coordinating Officer for this emergency.

This action terminates the appointment of William L. Vogel as Federal Coordinating Officer for this emergency.

The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund; 97.032, Crisis Counseling; 97.033, Disaster Legal Services; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance Grant; 97.048, Disaster Housing Assistance to Individuals and Households in Presidentially Declared Disaster Areas; 97.049, Presidentially Declared Disaster Assistance—Disaster Housing Operations for Individuals and Households; 97.050, Presidentially Declared Disaster Assistance to Individuals and Households—Other Needs; 97.036, Disaster Grants—Public Assistance (Presidentially Declared Disasters); 97.039, Hazard Mitigation Grant.
