Circular Welded Carbon Steel Pipes and Tubes From Thailand: Preliminary Results of Antidumping Duty Administrative Review; 2011-2012

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on circular welded carbon steel pipes and tubes from Thailand. This review covers two producers/exporters of the subject merchandise, Saha Thai Steel Pipe (Public) Company, Ltd. (Saha Thai), and Pacific Pipe Company Limited (Pacific Pipe). The period of review (POR) is March 1, 2011, through February 29, 2012. The Department preliminarily determines that Saha Thai has not sold subject merchandise at less than normal value (NV), and that Pacific Pipe had no shipments of subject merchandise during the POR. The preliminary results are listed below in the section titled "Preliminary Results of Review."

Interested parties are invited to comment on these preliminary results.

DATES: *Effective Date:* April 9, 2013.

Preliminary Determination of No Shipments

Pacific Pipe, in a letter dated May 31, 2012, reported that it made no shipments or sales of subject merchandise during the POR. On September 12, 2012, the Department issued a "No Shipment Inquiry" to CBP to confirm that there were no shipments or entries of circular welded carbon steel pipes and tubes from Thailand exported by Pacific Pipe during the POR. In addition, we obtained other documentation from CBP to evaluate the accuracy of Pacific Pipe's no shipment claim.

Based on the certification of Pacific Pipe and our analysis of CBP information, we preliminarily determine that Pacific Pipe had no shipments during the POR. However, the Department finds that it is not appropriate to rescind the review with respect to Pacific Pipe, but rather to complete the review with respect to Pacific Pipe and issue appropriate instructions to CBP based on the final results of this review.²

Methodology

The Department has conducted this review in accordance with section 751(a)(2) of the Tariff Act of 1930, as amended (the Act). Export price is calculated in accordance with section 772 of the Act. NV is calculated in accordance with section 773 of the Act. In accordance with section 773(b) of the Act, we disregarded certain sales by Saha Thai in the home market which were made at below-cost prices and which were otherwise outside of the ordinary course of trade. To determine the appropriate comparison method, the Department applied a "differential pricing" analysis and has preliminarily determined to use the average-to-average method in making comparisons of export price and NV for Saha Thai.

For a full description of the methodology underlying our conclusions, see Preliminary Decision Memorandum, which is hereby adopted

Preliminary Results of Review

As a result of our review, we preliminarily determine the following weighted-average dumping margins exist for the period March 1, 2011, through February 29, 2012.

Producer/Exporter	Weighted-average dumping margin (percent)
Saha Thai Steel Pipe (Public) Company, Ltd	0.00
Pacific Pipe Company Limited	*

* No shipments or sales subject to this review. The firm has an individual rate from the last segment of the proceeding in which the firm had shipments or sales.

Assessment Rates

Upon completion of this administrative review, the Department shall determine and CBP shall assess antidumping duties on all appropriate entries. If Saha Thai's weighted-average dumping margin is not zero or *de minimis* in the final results of this review, we will calculate importer-specific assessment rates on the basis of the ratio of the total amount of dumping calculated for an importer's examined sales and the total entered value of such sales in accordance with 19 CFR 351.212(b)(1). Where Saha Thai did not report the entered value for its sales, we will calculate importer-specific (or customer-specific) per unit duty assessment rates. Where an importer-specific assessment rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties in accordance with 19 CFR 351.106(c)(2). If Saha Thai's weighted-average dumping margin continues to be zero or *de minimis* in the final results of this review, we will instruct CBP not to

liquidate the appropriate entries without regard to antidumping duties in accordance with the *Final Modification for Reviews*, i.e., “{w}here the weighted-average margin of dumping for the exporter is determined to be zero or *de minimis*, no antidumping duties will be assessed.”³

The Department clarified its “automatic assessment” regulation on May 6, 2003.⁴ This clarification applies to entries of subject merchandise during the POR produced by Saha Thai for which it did not know its merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.

Consistent with the *Assessment Policy Notice*, if we continue to find that Pacific Pipe had no shipments of subject merchandise to the United States in the final results of this review, we intend to instruct CBP to liquidate all existing entries of merchandise produced by Pacific Pipe and exported by other parties at the all-others rate.

We intend to issue instructions to CBP 15 days after publication of the final results of this review.

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of circular welded carbon steel pipes and tubes from Thailand entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review, as provided for by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for the company under review will be the rate established in the final results of this review (except, if the rate is zero or *de minimis*, i.e., less than 0.5 percent, then no cash deposit will be required); (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the less than fair value (LTFV) investigation, but the manufacturer is, then the cash deposit rate will be the rate established for the most recent period for the manufacturer

of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review or the LTFV investigation, then the cash deposit rate will be the “all-others” rate of 15.67 percent established in the LTFV investigation. See *Order*. These deposit rates, when imposed, shall remain in effect until further notice.
