SUPPLEMENTARY INFORMATION:

Background

Don Edwards San Francisco Bay National Wildlife Refuge was established in 1972 pursuant to the Act Authorizing the Transfer of Certain Real Property for Wildlife, or other purposes (16 U.S.C. 667b), Endangered Species Act of 1973 (16 U.S.C. 1531 *et seq.*), and the Fish and Wildlife Act of 1956 (16 U.S.C. 742f(b)(1)). The roughly 30,000-acre Don Edwards San Francisco Bay National Wildlife Refuge, located in the Alameda, Santa Clara, and San Mateo Counties of California, consists of several noncontiguous parcels divided into four management units that surround the southern edge of the San Francisco Bay. The Refuge was established to preserve and enhance wildlife habitat, protect migratory birds, and protect threatened and endangered species. The Refuge also provides opportunities for wildlife-dependent recreation and environmental education.

We announce our decision and the availability of the FONSI for the final CCP for Don Edwards San Francisco Bay in accordance with National Environmental Policy Act (NEPA) (40 CFR 1506.6(b)) requirements. We completed a thorough analysis of impacts on the human environment, which we included in the environmental assessment (EA) that accompanied the draft CCP.

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd–668ee) (Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and
