

Humanities will hold a meeting of the Arts and Artifacts International Indemnity Panel. The purpose of the meeting is for panel review, discussion, evaluation, and recommendation of applications for Certificates of Indemnity submitted to the Federal Council on the Arts and the Humanities for exhibitions beginning on or after July 1, 2013.

**DATES:** The meeting will be held on Wednesday, May 8, 2013, from 9:30 a.m. to 5:00 p.m.

**ADDRESSES:** The meeting will be held at the Old Post Office Building, 1100 Pennsylvania Ave. NW., Washington, DC 20506, in Room 730.

**FOR FURTHER INFORMATION CONTACT:** Lisette Voyatzis, Committee Management Officer, 1100 Pennsylvania Avenue NW., Room 529, Washington, DC 20506, or call (202) 606-8322. Hearing-impaired individuals are advised that information on this matter may be obtained by contacting the National Endowment for the Humanities' TDD terminal at (202) 606-8282.

**SUPPLEMENTARY INFORMATION:** Because the meeting will consider proprietary financial and commercial data provided in confidence by indemnity applicants, and material that is likely to disclose trade secrets or other privileged or confidential information, and because it is important to keep the values of objects to be indemnified and the methods of transportation and security measures confidential, the meeting will be closed to the public pursuant to section 552b(c)(4) of Title 5 U.S.C., as amended. I have made this determination under the authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings dated July 19, 1993.

Dated: April 10, 2013

**Lisette Voyatzis,**

*Committee Management Officer.*

## NATIONAL SCIENCE FOUNDATION

### Astronomy and Astrophysics Advisory Committee #13883; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science

Foundation announces the following meeting:

*Name:* Astronomy and Astrophysics Advisory Committee (#13883).

*Date and Time:* May 2, 2013, 11:00 a.m.–4:00 p.m. EDT.

*Place:* Teleconference. National Science Foundation, Room 390, Stafford I Building, 4201 Wilson Blvd., Arlington, VA 22230.

*Type of Meeting:* Open.

*Contact Person:* Dr. James Ulvestad, Division Director, Division of Astronomical Sciences, Suite 1045, National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230. Telephone: 703-292-7165.

*Purpose of Meeting:* To provide advice and recommendations to the National Science Foundation (NSF), the National Aeronautics and Space Administration (NASA) and the U.S. Department of Energy (DOE) on issues within the field of astronomy and astrophysics that are of mutual interest and concern to the agencies.

*Agenda:* To hear presentations of current programming by representatives from NSF, NASA, DOE and other agencies relevant to astronomy and astrophysics; to discuss current and potential areas of cooperation between the agencies; to formulate recommendations for continued and new areas of cooperation and mechanisms for achieving them.

Dated: April 9, 2013.

**Susanne E. Bolton,**

*Committee Management Officer.*

[FR Doc. 2013-08701 Filed 4-12-13; 8:45 am]

## NATIONAL SCIENCE FOUNDATION

### Request of Recommendations for Membership for Directorate and Office Advisory Committees

**ACTION:** Notice.

**SUMMARY:** The National Science Foundation (NSF) requests recommendations for membership on its scientific and technical Federal advisory committees. Recommendations should consist of the submitting person's or organization's name and affiliation, the name of the recommended individual, the recommended individual's curriculum vita (2-5 pages), an expression of the individual's interest in serving, and the following recommended individual's contact information: employment address, telephone number, FAX number, and email address. Self recommendations are accepted. If you would like to make a recommendation for membership on any of our committees, please send your

recommendation to the committee contact person listed below.

**ADDRESSES:** The mailing address for the National Science Foundation is 4201 Wilson Boulevard, Arlington, VA 22230.

Web links to individual committee information may be found on NSF Web site: *NSF Advisory Committees*.

**SUPPLEMENTARY INFORMATION:** Each Directorate and Office has an external advisory committee that typically meets twice a year to review and provide advice on program management; discuss current issues; and review and provide advice on the impact of policies, programs, and activities in the disciplines and fields encompassed by the Directorate or Office. In addition to Directorate and Office advisory committees, NSF has several committees that provide advice and recommendation on specific topics: astronomy and astrophysics; environmental research and education; equal opportunities in science and engineering; direction, development, and enhancements of innovations; advanced cyberinfrastructure; international and integrative activities; and business and operations.

A primary consideration when formulating committee membership is recognized knowledge, expertise, or demonstrated ability<sup>1</sup>. Other factors that may be considered are balance among diverse institutions, regions, and groups underrepresented in science, technology, engineering, and mathematics. Committee members serve for varying term lengths, depending on the nature of the individual committee. Although we welcome the recommendations we receive, we regret that NSF will not be able to acknowledge or respond positively to each person who contacts NSF or has been recommended. NSF intends to publish a similar notice to this on an annual basis. NSF will keep recommendations active for 12 months from the date of receipt.

The chart below is a listing of the committees seeking recommendations for membership. Recommendations should be sent to the contact person identified below. The chart contains web addresses where additional information about individual committees is available.

<sup>1</sup> Federally registered lobbyists are not eligible for appointment to these Federal advisory committees.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-320; NRC-2013-0065]

### GPU Nuclear Inc., Three Mile Island Nuclear Power Station, Unit 2, Exemption From Certain Security Requirements

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Exemption.

**FOR FURTHER INFORMATION CONTACT:** John B. Hickman, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-3017; email: [John.Hickman@nrc.gov](mailto:John.Hickman@nrc.gov).

#### SUPPLEMENTARY INFORMATION:

##### 1.0 Background

GPU Nuclear, Inc. (GPUN, the licensee) is the licensee and holder of Facility Operating License No. DPR-73 issued for Three Mile Island Nuclear Power Station (TMI), Unit 2, located in Dauphin County, Pennsylvania. TMI Unit 2 is a permanently shutdown

nuclear reactor facility. TMI Unit 2 was a pressurized water reactor that was operated from December 1978 until March 28, 1979, when the unit experienced an accident which resulted in severe damage to the reactor core.

As a result of this accident, small quantities of core debris and fission products were transported through the Reactor Coolant System and the reactor building during the accident. In addition, a small quantity of core debris was transported to the auxiliary and fuel handling buildings. Further spread of the debris also occurred as part of the post-accident water processing cleanup activities.

TMI Unit 2 has been placed in a safe, inherently stable condition suitable for long-term management. Fuel and core material was removed in the defueling and has been shipped off site. The removed fuel is currently in storage at Idaho National and Environmental Engineering Laboratory (INEEL), and the U.S. Department of Energy has taken title and possession of the fuel.

Substantial contaminated areas still exist at the facility, as well as trace quantities of spent nuclear fuel (SNF). The quantity of fuel remaining at TMI Unit 2 is a small fraction of the initial fuel load; approximately 99% was successfully removed in the defueling. Additionally, large quantities of radioactive fission products were released into various systems and

structures. Most of this radioactivity was removed as part of the waste processing activities during the TMI Unit 2 Clean-up Program. Significant quantities of radioactive fission products were removed from the reactor coolant system. Most of the residual fuel remaining is fixed in the form of fine and granular debris that is inaccessible to defueling, tightly adherent surface deposits not readily removable by available dynamic defueling techniques, and resolidified material that is either tightly adherent to the reactor vessel components or inaccessible to defueling. There is no physical inventory requirement for special nuclear material (SNM) quantities at TMI Unit 2 during post-defueled monitored storage because the remaining materials are of low enrichment, highly radioactive and relatively inaccessible.

Part 73 of Title 10 of the *Code of Federal Regulations* (10 CFR), "Physical Protection of Plants and Materials" "prescribes requirements for the establishment and maintenance of a physical protection system which will have capabilities for the protection of special nuclear material at fixed sites and in transit and of plants in which special nuclear material is used." Section 73.55(b)(1), entitled "Requirements for physical protection of licensed activities in nuclear power reactors against radiological sabotage,"
