II. Background

A. How does EPA identify priority contaminants and collect information to judge their occurrence in drinking water?

The 1996 amendments to the Safe Drinking Water Act (SDWA) established the CCL and UCMR programs to provide information that EPA needs to determine whether particular drinking water contaminants should be regulated. The CCL is a list of contaminants that when published are not subject to any proposed or promulgated national primary drinking water regulations, are known or anticipated to occur in public drinking water systems, and may require regulations under SDWA. While the CCL process identifies contaminants that may require regulation, the UCMR program provides the framework to collect data to help determine whether a contaminant occurs at a frequency and concentration that would be of public health concern. EPA published the third CCL (CCL 3) containing 116 contaminants on October 8, 2009 (74 FR 51850) and the third UCMR (UCMR 3) on May 2, 2012 (77 FR 26072). Monitoring under UCMR 3 began January 1, 2013, and will continue until December 31, 2015.

On May 8, 2012, EPA published a **Federal Register** notice (77 FR 27057) requesting nominations of chemical and microbial contaminants for possible inclusion in the fourth drinking water Contaminant Candidate List (CCL 4). A summary of the contaminants nominated for inclusion in CCL 4 can be viewed at www.regulations.gov referencing Docket ID EPA-HQ-OW-2012-0217.

B. What is the basis for this action?

Under UCMR, a unique set of up to 30 contaminants is identified every five years for monitoring. In order to correctly identify and quantitate these contaminants in a national monitoring effort, robust testing methods must be available. This public meeting/webinar will provide a forum to hear about and

discuss EPA's current drinking water method development for priority contaminants—focusing on CCL 3 and possible CCL 4 contaminants—as well as other testing procedures that may be applicable to these contaminants.

Title: Rules and Regulations Implementing the Telephone Consumer Protection Act (TCPA) of 1991, Report and Order and Third Order on Reconsideration, CG Docket No. 05-338, FCC 06-42.

Form Number: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions; and Individuals or households.

Number of Respondents and Responses: 5,340,000 respondents; 6,057,305 responses.

Estimated Time per Response: 3 minutes (.05 hours) to 30 minutes (.50 hours).

Frequency of Response: Annual, monthly, and on occasion reporting requirements; Recordkeeping requirement; and Third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The authorizing statutes for this information collection are: Telephone Consumer Protection Act of 1991, Public Law 102-243, 105 Stat. 2394 (1991); Junk Fax Prevention Act, Public Law 109-21, 119 Stat. 359 (2005).

Total Annual Burden: 3,673,825 hours.

Total Annual Cost: \$10,223,000.

Nature and Extent of Confidentiality: Confidentiality is an issue to the extent that individuals and households provide personally identifiable information, which is covered under the FCC's updated system of records notice (SORN), FCC/CGB-1, "Informal Complaints and Inquiries", which became effective on January 25, 2010.

Privacy Impact Assessment: The Privacy Impact Assessment (PIA) for Informal Complaints and Inquiries was completed on June 28, 2007. It may be reviewed at <http://www.fcc.gov/omd/privacyact/Privacy-Impact-Assessment.html>. The Commission is in the process of updating the PIA to incorporate various revisions to it as a result of revisions to the SORN.

Needs and Uses: On April 5, 2006, the Commission adopted a Report and

Order and Third Order on Reconsideration, In the Matter of Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991; Junk Fax Prevention Act of 2005, CG Docket Nos. 02-278 and 05-338, FCC 06-42, which modified the Commission's facsimile advertising rules to implement the Junk Fax Prevention Act. The Report and Order and Third Order on Reconsideration contained information collection requirements pertaining to: (1) Opt-out Notice and Do-Not-Fax Requests Recordkeeping in which the rules require senders of unsolicited facsimile advertisements to include a notice on the first page of the facsimile that informs the recipient of the ability and means to request that they not receive future unsolicited facsimile advertisements from the sender; (2) Established Business Relationship Recordkeeping whereas the Junk Fax Prevention Act provides that the sender, e.g., a person, business, or a nonprofit/institution, is prohibited from faxing an unsolicited advertisement to a facsimile machine unless the sender has an "established business relationship" (EBR) with the recipient; (3) Facsimile Number Recordkeeping in which the Junk Fax Prevention Act provides that an EBR alone does not entitle a sender to fax an advertisement to an individual or business. The fax number must also be provided voluntarily by the recipient; and (4) Express Invitation or Permission Recordkeeping where in the absence of an EBR, the sender must obtain the prior express invitation or permission from the consumer before sending the facsimile advertisement.

On October 14, 2008, the Commission released an Order on Reconsideration, FCC 08-239, addressing certain issues raised in petitions for reconsideration and/or clarification filed in response to the Commission's Report and Order and Third Order on Reconsideration (Junk Fax Order), FCC 06-42. In document FCC 08-239, the Commission clarified that: (1) Facsimile numbers compiled by third parties on behalf of the facsimile sender will be presumed to have been made voluntarily available for public distribution so long as they are obtained from the intended recipient's own directory, advertisement, or Internet site; (2) Reasonable steps to verify that a recipient has agreed to make available a facsimile number for public distribution may include methods other than direct contact with the recipient; and (3) a description of the facsimile sender's opt-out mechanism on the first Web page to which recipients are directed in the opt-out notice satisfies

the requirement that such a description appear on the first page of the Web site.

The Commission believes these clarifications will assist senders of facsimile advertisements in complying with the Commission's rules in a manner that minimizes regulatory compliance costs while maintaining the protections afforded consumers under the Telephone Consumer Protection Act (TCPA).
