### 47 CFR Parts 0, 1, 13, 80 and 87

[WT Docket No. 10–177; FCC 13–4]

#### Commercial Radio Operators

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** This document amends our rules concerning commercial radio operator licenses for maritime and aviation radio stations in order to reduce administrative burdens in the public's interest.

**DATES:** Effective May 20, 2013, except for amendments to §§ 1.913(d)(1)(vi), 13.9(c), and 13.13(c), which contain information collection requirements that are not effective until approved by the Office of Management and Budget (“OMB”). The FCC will publish a document in the **Federal Register** announcing the effective date for those sections.

**SUPPLEMENTARY INFORMATION:** This is a summary of the Federal Communications Commission's *Report and Order (R&O)*, WT Docket No. 10–177, FCC 13–4, adopted January 8, 2013, and released January 8, 2013. 1. The Federal Communications Commission's (Commission) rules require that a person who operates, maintains, or conducts the mandatory inspection of certain maritime and aviation radio stations hold an appropriate commercial radio operator license. The Commission initiated this proceeding to amend the part 13

Commercial Radio Operator rules, and related rules in parts 0, 1, 80, and 87 regarding certain functions performed by licensed commercial radio operators, to determine which rules could be clarified, streamlined, or eliminated in order to reduce administrative burdens and make the rules easier to use. The Commission takes the following significant actions in the *R&O* in WT Docket No. 10–177: (1) Consolidating the three classes of radiotelegraph operator's certificates; (2) eliminating redundant and outdated restrictive endorsements; (3) modifying certain procedural and recordkeeping requirements applicable to commercial operator license examination managers (COLEMs); and (4) clarifying the rules that pertain to log-keeping requirements. In addition, we decline to change the current process for maintaining question pools, and the rules that pertain to equipment testing intervals.

#### I. Procedural Matters

##### A. Paperwork Reduction Act Analysis

2. This document contains modified information collection requirements subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104–13. It has been submitted to the Office of Management and Budget (OMB) for review under section 3507(d) of the PRA. OMB, the general public, and other Federal agencies are invited to comment on the new or modified information collection requirements contained in this proceeding. In addition, the Commission notes that pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4), it previously sought specific comment on how it might further reduce the information collection burden for small business concerns with fewer than 25 employees.

3. In the present document, the Commission has assessed the effects of our requirements that COLEMs filing applications on behalf of applicants submit the information electronically, and believe the burden will be minimal. Therefore, we find that these modified information collection requirements will not impose a substantial burden on businesses with fewer than 25 employees.

##### B. Report to Congress

4. The Commission will send a copy of this *R&O* in a report to Congress and the Government Accountability Office pursuant to the Congressional Review Act, see 5 U.S.C. 801(a)(1)(A).

##### C. Final Regulatory Flexibility Analysis

5. As required by the Regulatory Flexibility Act of 1980, as amended (RFA), an Initial Regulatory Flexibility Analysis (IRFA) was incorporated in the *Notice of Proposed Rule Making NPRM*, in WT Docket 10–177, at 75 FR 66709, October 29, 2010. The Commission sought written public comment on the proposals in the *NPRM*, including comment on the IRFA. This present Final Regulatory Flexibility Analysis (FRFA) conforms to the RFA.

Need for, and Objectives of, the Report and Order

6. We believe it is appropriate to review our regulations relating to commercial radio operators to determine which rules can be clarified, streamlined or eliminated. In this *R&O*, we make miscellaneous amendments that are intended to clarify part 13 rules, including the elimination of rules that refer to outdated services, equipment, and technology. Specifically, to reflect advancements in the radio telegraph technology, by this *R&O*, the Commission ceases to grant new First Class Radiotelegraph Operator's Certificates because the one-year radiotelegraph experience requirement is almost impossible to meet, and consolidates the remaining two classes of radiotelegraph operator's certificates in one. It also eliminates redundant and outdated restrictive endorsements; modifies certain procedural and recordkeeping requirements applicable to COLEMs; and clarifies the rules that pertain to log-keeping requirements. In addition, this *R&O* makes changes to rules contained in parts 0, 1, 80, and 87 that relate to commercial radio operator services.

Summary of Significant Issues Raised by Public Comments in Response to the IRFA

7. There were no comments that specifically addressed the IRFA. Nonetheless, we have considered the potential impact of the rules adopted herein on small entities, and conclude that such impact would be minimal, in terms of measurable economic costs associated with compliance with the rules.

Description and Estimate of the Number of Small Entities to Which Rules Will Apply

8. The RFA directs agencies to provide a description of and, where feasible, an estimate of the number of small entities that may be affected by the rules adopted. The RFA generally defines the term “small entity” as having the same meaning as the terms

“small business,” “small organization,” and “small governmental jurisdiction.” In addition, the term “small business” has the same meaning as the term “small business concern” under the Small Business Act. A small business concern is one which: (1) Is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the Small Business Administration (SBA).

9. Commercial radio licenses are issued only to individuals. Individuals are not “small entities” under the RFA.

10. Individual licensees are tested by COLEMs. The Commission has not developed a definition for a small business or small organization that is applicable for COLEMs. All or almost all of the nine COLEM organizations would appear to meet the RFA definition for small business or small organization.

#### Description of Projected Reporting, Recordkeeping, and Other Compliance Requirements for Small Entities

11. COLEMs would be required to retain certain records for three years, instead of the existing one-year retention period; but would submit that information to the Commission only upon request, instead submitting it on a regular schedule as occurs presently. This would effectively eliminate the existing economic burden related to the reporting requirement, and it would not create any additional measurable economic burden in connection with the extended recordkeeping requirement. COLEMs would also be required to provide examination results to examinees within three business days, and to use electronic filing when submitting applications on behalf of examinees. Because almost all COLEMs already meet both of these requirements, this also would create no additional economic burden on COLEMs.

#### Steps Taken To Minimize the Significant Economic Impact on Small Entities, and Significant Alternatives Considered

12. The RFA requires an agency to describe the steps it has taken to minimize the significant economic impact on small entities consistent with the stated objectives of applicable statutes, including a statement of the factual, policy, and legal reasons for selecting the alternative adopted in the final rule and why each one of the other significant alternatives to the rule considered by the agency which affect the impact on small entities was rejected.

13. We believe the changes adopted in this *R&O* will promote flexibility and

more efficient use of the spectrum, without creating administrative burdens on COLEMs. Many of the adopted changes constitute clarification of existing requirements or elimination of reporting requirements and other rules that are outdated. No commenter identified any less burdensome alternatives that would be consistent with the item’s objectives and the Commission’s goals and responsibilities.

#### F. Report to Congress

14. The Commission will send a copy of the *R&O* in WT Docket No. 10–177, including the Final Regulatory Flexibility Analysis, in a report to be sent to Congress and the Congressional Budget Office pursuant to the Congressional Review Act. In addition, the Commission will send a copy of the *R&O* in WT Docket No. 10–177, including the Final Regulatory Flexibility Analysis, to the Chief Counsel for Advocacy of the SBA. A copy of the *R&O* in WT Docket No. 10–177 and the Final Regulatory Flexibility Analysis (or summaries thereof) will also be published in the **Federal Register**.

**BILLING CODE 6712-01-P**

**DEPARTMENT OF TRANSPORTATION**

**National Highway Traffic Safety Administration**

**49 CFR Part 501**

[Docket No. NHTSA-2013-0048]

**RIN 2127-AL44**

**Organization and Delegation of Duties**

**AGENCY:** National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

**ACTION:** Final rule.

**SUMMARY:** National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT) is updating its regulations. These regulations govern the organization of the National Highway Traffic Safety Administration and delegations of authority from the Administrator to Agency officers including the Deputy Administrator, Chief Counsel, and Senior Associate Administrators. This rule is a publication of delegations made by the Administrator to other Agency officials.

**DATES:** This rule is effective April 18, 2013.

**FOR FURTHER INFORMATION CONTACT:** Ms. Dana Sade, Office of the Chief Counsel, National Highway Traffic Safety Administration, 1200 New Jersey Avenue SE., Washington, DC 20590. Telephone: (202) 366-1834.

**SUPPLEMENTARY INFORMATION:**

**I. Background**

This final rule updates the Code of Federal Regulations (CFR) sections that set forth the organization of the National Highway Traffic Safety Administration (NHTSA) and delegations of authority from the NHTSA Administrator to other Departmental officials including the Deputy Administrator, Chief Counsel, and Senior Associate Administrators. The purpose of this rule is to provide a road map to the public and government officials regarding how NHTSA operates, which office is responsible for which tasks, and the authority pursuant to which Agency offices act.

The regulations set forth in 49 CFR Part 501 are outdated and do not accurately reflect how NHTSA operates. For example, Part 501 still references an

Executive Director, a position that no longer exists within the Agency. These and other inaccuracies in Part 501 create unnecessary confusion.

This rule amends Part 501 in three ways. First, it removes positions that are outdated and no longer exist within the Agency. Second, it updates the Administrator's delegations to reflect new statutory responsibilities and organizational changes within the Agency. Third, it clarifies the text and updates citations in Part 501 to increase transparency, accessibility, and readability.

This final rule does not impose substantive requirements. It simply updates the CFR to represent the current statutory and organizational posture of the Agency. The final rule is ministerial in nature and relates only to Agency management, organization, procedure, and practice. Therefore, the Agency has determined that notice and comment are unnecessary and that the rule is exempt from prior notice and comment requirements under 5 U.S.C. 553(b)(3)(A). As these changes will not have a substantive impact on the public, the Agency does not expect to receive significant comments on the substance of the rule. Therefore, the Department finds that there is good cause under 5 U.S.C. 553(d)(3) to make this rule effective less than 30 days after publication in the **Federal Register**.

**II. Executive Order 12866 and DOT Regulatory Policies and Procedures**

The final rule is not considered a significant regulatory action under Executive Order 12866 and DOT Regulatory Policies and Procedures (44 FR 11034). It was not reviewed by the Office of Management and Budget. There are no costs associated with this rule.

*Executive Order 13132*

This final rule has been analyzed in accordance with the principles and criteria contained in Executive Order 13132 ("Federalism"). This final rule does not have a substantial direct effect on, or sufficient federalism implications for, the States, nor would it limit the policymaking discretion of the States. Therefore, the consultation requirements of Executive Order 13132 do not apply.

*Executive Order 13175*

This final rule has been analyzed in accordance with the principles and criteria contained in Executive Order 13175 ("Consultation and Coordination with Indian Tribal Governments"). Because this final rule does not significantly or uniquely affect the
