

teachers with requisite language capabilities available to staff an ANA grant. In addition, the commenter stated that the by-laws are written so that teacher members do not have decision-making authority regarding personnel actions, nor to make financial decisions that are of personal benefit, thus insuring internal controls.

Response: ANA offers no change in response to this comment. While ANA is sympathetic to the commenter's concern, it is important that this policy remains as written. Under the standard terms and conditions for discretionary HHS awards (Grants Policy Statement, page II-7 at <https://www.acf.hhs.gov/grants/terms-and-conditions>), grant recipients are required to establish safeguards to prevent employees, consultants, members of governing bodies, and others who may be involved in grant-supported activities, from using their positions for purposes that are, or give the appearance of being, motivated by a desire for private financial gain for themselves or others, such as those with whom they have family, business, or other ties.

This has been a long-standing policy of the Administration for Children and Families. All prospective applicants are required to submit the SF-424B Assurances (Non-Construction) agreeing to these terms and conditions at the time of submission. ANA understands this can cause challenges for applicants but it is important that applicants are reminded of the requirement to establish safeguards that prohibit employees from using their position for a purpose that presents a conflict of interest or the appearance of a conflict of interest.
