Agency Information Collection Activities; Submission for OMB Review; Comment Request; Occupational Safety and Health Administration Data Initiative

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: The OSHA has a broad mandate to reduce injuries and illnesses in American workplaces. The OSHA has responded to this mandate by developing several programs, including the promulgation and enforcement of standards, training and educational programs, and cooperative programs.

The annual collection of employer specific injury and illness data through the ODI improves the ability of the OSHA more effectively to use its limited resources in more hazardous workplaces and to reduce OSHA interventions at relatively safe and healthy workplaces. The ODI also supports OSHA compliance with the Government Performance and Results Act, by allowing the agency to monitor the results of its activities, to evaluate its various programs based on program results, to identify the most efficient and effective program mix, and to promote the development of programs and policies based on outcome data.

This information collection is subject to the PRA. The ICR is classified as a revision, because it will implement a DOL Office of the Inspector General recommendation to expand the coverage of the ODI and the Site Specific Targeting Plan for enforcement to include establishments with between 11 and 19 employees. In addition, the ICR will no longer include American Recovery and Reinvestment Act funded construction projects.

A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a
