BILLING CODE 4810-33-P

DEPARTMENT OF THE TREASURY

Office of the Comptroller of the Currency

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Minimum Security Devices and Procedures, Reports of Suspicious Activities, and Bank Secrecy Act Compliance Program

AGENCY: Office of the Comptroller of the Currency (OCC), Treasury.

ACTION: Notice and request for comment.

SUMMARY: The OCC, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to comment on a continuing information collection, as required by the Paperwork Reduction Act of 1995.

Under the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) (PRA), Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information.

In accordance with the requirements of the PRA, the OCC may not conduct or sponsor, and the respondent is not required to respond to, an information collection unless it displays a currently valid Office of Management and Budget (OMB) control number.

The OCC is soliciting comments concerning the currently approved

Minimum Security Devices and Procedures, Reports of Suspicious Activities, and Bank Secrecy Act Compliance Program information collection. The Minimum Security Devices and Procedures and Bank Secrecy Act Compliance Program portion of the information collection is being extended without change. The OCC is proposing to extend, with revision, the interagency suspicious activity report (SAR-DI) portion of the collection and is inviting comments on this revision.

As the Bank Secrecy Act (BSA) administrator, the Financial Crimes Enforcement Network (FinCEN) in the U.S. Department of Treasury is changing from a system originally designed for collecting industry-specific paper forms to a modernized information technology environment centered on electronic reporting. Based on financial institution type, depository institutions, broker-dealers in securities, futures commission merchants and introducing brokers in commodities, insurance companies, mutual funds, money services businesses, and casinos file reports on four separate forms. FinCEN's new approach is to have one electronically filed interactive BSA SAR that will be used by all filing institutions to report suspicious activity as of April 1, 2013.

There are no proposed changes to the suspicious activity report regulation. National banks and federal savings associations supervised by the OCC will continue to follow the regulation, interagency guidance, and filing instructions to determine when a report should be filed and what information should be included in the report.

The interactive BSA SAR has several new data fields and introduces data fields from the SARs of other industries. On March 29, 2012, FinCEN released guidance titled, "Filing FinCEN's New Currency Transaction Report and Suspicious Activity Report" (FIN-2012-G002). The guidance notes that FinCEN is making available additional and more specific data elements (that is, characterizations of suspicious activity and types of financial services) as a more efficient way to bring information about suspicious activity to the attention of FinCEN and law enforcement. The guidance clarified the addition of new and expanded data elements does not create an expectation that financial institutions will revise internal programs, or develop new programs, to capture information that reflects the expanded data elements. Data elements designated as "critical fields (questions for which an answer must be provided) in the BSA SAR are

identified by the asterisk preceding the data element number.

The OCC is also announcing that the proposed collection of information has been submitted to OMB for review and clearance under the Paperwork Reduction Act of 1995.

DATES: Comments must be submitted by May 28, 2013.

ADDRESSES: Because paper mail in the Washington, DC area and at the OCC is subject to delay, commenters are encouraged to submit comments by email if possible. SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, the OCC has submitted the following proposed collection of information to OMB for review and clearance.

Title: Minimum Security Devices and Procedures, Reports of Suspicious

Activities, and Bank Secrecy Act Compliance program.

OMB Control No.: 1557-0180.

Form Numbers: 8010-1/8010-9.

In 1985, the bank supervisory agencies (Agencies),¹ issued procedures to be used by banks and certain other financial institutions operating in the United States to report known or suspected criminal activities to the appropriate law enforcement and banking supervisory agencies. Beginning in 1994, the Agencies and FinCEN redesigned the reporting process and developed the suspicious activity report, which became effective in April 1996. The report is authorized by the following regulations: 31 CFR 103.18 (FinCEN); 12 CFR 21.11 and 12 CFR 163.180 (OCC); 12 CFR 208.62(c), 211.5(k), 211.24(f), and 225.4(f) (Board); 12 CFR 353.3 (FDIC); 12 CFR 748.1 (NCUA). The regulations were issued under the authority contained in the following statutes: 31 U.S.C. 5318(g) (FinCEN); 12 U.S.C. 93a, 1463, 1464, 1818, 1881-84, 3401-22, 31 U.S.C. 5318 (OCC); 12 U.S.C. 248(a)(1), 625, 1818, 1844(c), 3105(c)(2) and 3106(a) (Board); 12 U.S.C. 1818-1820 (FDIC); 12 U.S.C. 1766(a), 1789(a) (NCUA).

Prior to the suspicious activity report effective date of April 1996, the OCC, the other agencies, and FinCEN each issued new and nearly identical rules mandating the use of the interagency SAR-DI for reporting suspicious activities. In separate actions, FinCEN also enacted regulations requiring other types of financial institutions, such as brokers or dealers in securities and futures, money services businesses (money transmitters, issuers and sellers of money orders and travelers' checks, check cashers, and dealers in foreign exchange), casinos and card clubs, and insurance companies to file reports on suspicious activities.

In January 2003, check boxes were added to Part III of the SAR-DI to note terrorist financing and identity theft as suspicious activities and the safe harbor language in the instructions was updated to reflect changes made by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism (USA PATRIOT) Act of 2001. In 2006, the SAR-DI form was revised to support a new joint filing initiative aimed at reducing the total number of duplicate reports filed for a single suspicious transaction. On May 1, 2007, FinCEN published a **Federal Register** notice (72

FR 23891)² announcing the delayed implementation of these revisions, which ultimately were never implemented.

On October 15, 2010, FinCEN issued a 60-day notice titled "Proposed Collection; Comment Request; Bank Secrecy Act Suspicious Activity Report Database Proposed Data Fields." The notice sought input on technical matters as FinCEN transitions from a system originally designed for collecting paper forms to a modernized information technology environment for electronic reporting. Thereafter, a notice was issued on May 6, 2011 by the Treasury Department's Office of Information Management advising the public of a new collection by FinCEN and stating that FinCEN was submitting the BSA SAR comments to OMB for review. The notice stated, "FinCEN is fielding a new system of record to support the collection and dissemination of BSA data to law enforcement and other regulatory agencies. The BSA SAR is a new dynamic information collection tool that will serve as the principle [sic] collection instrument to be used by financial institutions to record and report suspicious activity." On July 15, 2011, FinCEN received final approval of the BSA-SAR³ from the Office of Management and Budget, which concluded FinCEN's October 15, 2010, request for comment.

On May 11, 2012, the OCC published a final **Federal Register** notice (77 FR 27858) announcing the extension for three years, without revision, of the "Reports of Suspicious Activities" data collection. OCC renewal was necessary because the current SAR-DI form is expiring and will continue to be accepted by FinCEN until March 31, 2013. The OCC is now seeking industry comment on the interactive BSA SAR that will be used to report suspicious activity as of April 1, 2013. Comments will be summarized and/or included in the request for Office of Management and Budget approval.

Proposed Revisions

The revised BSA SAR would integrate four institution-specific SARs into one universal data collection. The previous five parts of the SAR-DI remain with changes to their titles and placement in order of completion.

The proposed BSA-SAR is described below by form part. Fields from other industry SARs that may be new to depository institutions as well as

specific data fields that are new to all types of industry filers have been identified. In the description provided below, questions for which answers must be provided (referred to as "critical fields") are identified with the * symbol in front of the data element number.

Type of Filing

Field 1 is the Type of Filing and requires the filer to designate the category that best describes the filing from a set of choices:

*1. Check all that apply—a. Initial report; b. Correct/amend prior report; c. Continuing activity report; d. Joint report; e. Prior report document control/file number if 1b or 1c are checked.

On the current SAR-DI there is only one choice in data field 1 for those reports that corrected a prior report.

Part I: Subject Information

Part I is titled "Subject Information" and it requires the filer to provide information for each subject involved in the suspicious activity. Subject Information is titled "Suspect Information" on the current SAR-DI. As with the current SAR-DI, multiple subjects may be included in Part I.

Each of the critical fields (*) in this part has a new check box that may be used if the information is unknown. If that box is checked, the filer would not need to enter any information in that field.

In Part I, with the exception of the check box to indicate if the requested information is unknown, these data fields remain the same, with no additions or changes from the SAR-DI:

- *3. Individual's last name or entity's legal name—a. (check if) unknown
 - *4. First name—a. (check if) unknown
 - *5. Middle initial (middle name for electronic filers)
 - *7. Occupation or type of business

 - *12. Country Code—a. (check if) unknown
 - *13. TIN—a. (check if) unknown
 - *16. Date of birth mm/dd/yyyy—a. (check if) unknown
- Listed below are the remaining data fields in Part I that would be considered new data fields or data fields that would be modified.

2. Check—a. If entity; b. If all critical (*) subject information is unavailable (If 2b is checked this part may be left blank)

5a. Gender—b. (Check if) Male; c. (Check if) Female; d. (Check if) Unknown
