**SUPPLEMENTARY INFORMATION:**

**I. Background**

Continuous Personal Dust Monitors (CPDMs) determine the concentration of respirable dust in coal mines. CPDMs must be designed and constructed for coal miners to wear and operate without impeding their ability to perform their work safely and effectively, and must be durable to perform reliably in normal working conditions of coal mines. Requirements for MSHA and NIOSH approval of the manufacture of CPDMs are defined in 30 CFR part 74. Paperwork requirements imposed on applicants are related to the application process and CPDM testing procedures.

**II. Desired Focus of Comments**

The Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to Coal Mine Dust Sampling Devices. MSHA is particularly interested in comments that:

• Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;

• Evaluate the accuracy of the MSHA’s estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

• Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and

• Address the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses), to minimize the burden of the collection of information on those who are to respond.

OMB clearance requests are available on MSHA’s Web site at <http://www.msha.gov> under “Federal Register Documents” on the right side of the screen by selecting “New and Existing Information Collections and Supporting Statements”. The document will be available on MSHA’s Web site for 60 days after the publication date of this notice, and on [regulations.gov](http://regulations.gov). Comments submitted in writing or in electronic form will be made available for public inspection on [regulations.gov](http://regulations.gov). Because comments will not be edited to remove any identifying information, MSHA cautions the commenter against including any information in the submission that should not be publicly disclosed.

The public also may examine publicly available documents, including the public comment version of the supporting statement, at MSHA, Office of Standards, Regulations, and Variances, 1100 Wilson Boulevard, Room 2350, Arlington, VA 22209-3939.
